## Part I

Overview of the Industrial Internet Technology and Business 1

### Chapter 1

Industrial Internet Technologies

*Martti Mäntylä*

§1.01 Introduction 3

§1.02 Background 5

§1.03 Industrial Internet Technology Stack 8

§1.04 Industrial Internet Technology Dynamics 11

§1.05 Industrial Internet Ecosystem 14

§1.06 Future Directions 18

§1.07 Conclusion 20

### Chapter 2

Business and Research Perspectives of Industrial Internet Applications

*Lasse Eriksson, Matti Rossi, J.P. Shim & Carsten Sørensen*

§2.01 Business Perspectives of Industrial Internet Applications 23

[A] Introduction 23

[B] Business Opportunities of Industrial Internet

[1] Operational Excellence 27

[2] Digital Services and Data Monetization 28

[3] Outcome Economy 31

Table of Contents

| C | On Applications and Implementation of Industrial Internet in Mobile Machine Industry | 33 |
|   | [1] Predictive Analytics, Artificial Intelligence and Robotic Process Automation | 33 |
|   | [2] Digital Services and Outcome Economy | 35 |
| D | Concluding Remarks | 39 |

§2.02 Research Perspectives on Industrial Internet Business | 40 |
| A | Introduction | 40 |
| B | Industrial Internet in Business | 41 |
| C | Monetization and Value Capture | 43 |
| D | Dark Side of Industrial Internet | 44 |
| E | Key Research Themes | 44 |
| F | Summary | 45 |

CHAPTER 3
Decentralizing the Web and the Industrial Internet: An Alternative Solution to Data Control
*Ruben Verborgh, Sam Wrigley & Rosa Maria Ballardini*

§3.01 Introduction | 47 |

§3.02 Decentralizing the Web: Consequences for Industrial Internet Developments
| A | Definition and History of (De-)centralization on the Web | 49 |
| B | Addressing Platform Centralization Through Separation of Applications and Data | 51 |

§3.03 Decentralization and Legal Aspects: Challenges and Opportunities with Maintaining Control
| A | Decentralization and Personal Data: Data Protection Issues | 52 |
| B | Decentralization and Industrial Data: The Role of Intellectual Property Rights | 56 |

§3.04 Conclusions | 58 |

CHAPTER 4
Industrial Internet Solutions and Data Ownership Versus Control Over Data
*Petteri Giinther*

§4.01 Introduction | 61 |

§4.02 'Data' in the Context of a European Data Economy
| A | The Concept of 'Data' | 63 |
| B | A European Data Economy | 64 |

§4.03 Rights to 'Data'
| A | Data Ownership under the EU Regulatory Framework | 66 |
| B | Governing the Use of Data from Industrial Systems | 68 |
| C | Using Data: Can You Own Data? | 71 |
| §4.04 | Data Ownership Versus Control over Data | 76 |
|§4.05 | Conclusions | 78 |

**PART II**
The Industrial Internet and Intellectual Property Law

**CHAPTER 5**
Artificial Intelligence and Copyright Protection
*Tanya Aplin & Giulia Pasqualetto*

§5.01 Introduction 81
§5.02 What Is AI? 81
§5.03 Examples of AI Relevant to the Copyright Sphere 82
§5.04 International Copyright Law 84
§5.05 EU Copyright Law 86
§5.06 French Authors’ Rights Law 88
§5.07 United States Copyright Law 90
§5.08 United Kingdom Copyright Law 91
§5.09 AI Generated Outputs and the Appropriateness of Copyright Protection 95

**CHAPTER 6**
AI and IPR Infringement: A Case Study on Training and Using Neural Networks
*Juha Vesala & Rosa Maria Ballardini*

§6.01 Introduction 99
§6.02 Neural Networks: Technology and the Role of Data in Their Development 100
§6.03 Infringement in the Training and Use of Neural Networks 101
[A] Copyright 101
[1] The Infringement of Exclusive Rights in Works in the EU 101
[2] Direct Infringement in the Training and Use of Neural Networks 102
[B] Patents 104
[1] Patent Infringement in the EU 104
[C] Trade Secrets 109
[D] Other Relevant Rights 110
[1] Design Rights 110
[2] Trademarks 112
§6.04 Conclusions 113
# Table of Contents

**CHAPTER 7**

Owning Data via Intellectual Property Rights: Reality or Chimera?

*Taina Pihlajarinne & Rosa Maria Ballardini*

§7.01 Introduction 115

§7.02 What Do We Mean by Data? 117

§7.03 The Challenge of Protecting Industrial Data Through Exclusive Rights 119

[A] Data and Copyright 120

[B] The Database Right Dimension 122

[C] Protecting Data Through Trade Secrets and Contracts 124

§7.04 A New Legal Paradigm to Protect Data? 125

[A] The Rise of Data Ownership Regimes at a National Level 126

[B] New Ad Hoc Exclusive Rights 126

[C] Fragmentation and Complexity Do Not Foster the Free Flow of Data 128

§7.05 Fostering the Free Flow of Data 129

[A] The Renaissance of the *Sui Generis* Database Right 129

§7.06 Conclusions 133

**CHAPTER 8**

3D Printing, Platformization and IPR: Balancing Stagnation and Innovation

*Rosa Maria Ballardini & Anette Alén-Savikko*

§8.01 Introduction 135

§8.02 3D Printing, Platforms, and the Role of IPR 136

[A] The Role of Users, Online Platforms, and Companies in the 3DP Innovation Process 136

[B] Protecting CAD Files via IPRs: Background and Challenges 138

[C] 3DP, IPRs, and Online Infringements 143

§8.03 Intermediary Liability for IPR Infringements: A European Framework 145

[A] The Legislative Framework 145

[B] Case Law Interpretation 148

§8.04 Intermediary Liability and 3DP: Fostering Innovation, Not Stagnation 151

[A] IPR Infringement in 3DP: The Story So Far 151

[B] Novel Approaches and Business Models 154

§8.05 A Multilayered Phenomenon Calls for Multifaceted Solutions 155

**CHAPTER 9**

Patent Market in the United States: Perspective of SME Patent Owners in the Industrial Internet

*Katri Lahtinen*

§9.01 Introduction 159

§9.02 Patent System in Turmoil 160

§9.03 Patent Licensing 161
Table of Contents

§9.04 Overview of the United States Patent Law and the America Invents Act
[B] Litigation Aspects 170
[C] Venue 170
[D] Divided Infringement 172
[E] Relief Available 173
[1] Injunctive Relief 173
[2] Damages 175
[3] Reasonable Attorney Fees 176
[F] Patent Trial and Appeal Board Proceedings 176

§9.05 Conclusion and Suggestion for Further Research 178

PART III
The Industrial Internet and Data Protection 181

CHAPTER 10
The IIoT and Design for Contextually Relevant Data Protection
Tuomas Pöysti 183
§10.01 Introduction and Question 183
§10.02 The IIoT as an Unfriendly Environment to Data Protection 186
[A] Practical Difficulties 186
[B] Protection of Personal Data as Integrity and Informational Self-Determination 190
[C] Contextual Privacy, a Potential Solution to IIoT Challenge? 195
§10.03 Planning for the Future: Towards IIoT Fit Data Protection Law 197
[A] The Question of Personal Data and Identifiability 197
[B] Data Protection Law as Technical, Social and Ethical Planning 199
§10.04 Conclusions 204

CHAPTER 11
Data Protection, Certification and the Fourth Industrial Revolution
Tristan Henderson & Burkhard Schafer 207
§11.01 Introduction 207
§11.02 The Evolving Regulatory Environment: From DPD to GDPR 209
§11.03 Problems in Algorithmic Decision-Making 213
[A] The Concerns 213
[B] The Technologies 215
§11.04 The GDPR: Legislation for Algorithms? 219
[A] Principle Based Regulation of Algorithms? 221
[B] Holistic Regulation of Algorithms? 222
§11.05 A Proposal: Certification of Decision-Making 227
[A] Certification: Predictability about Prediction 228
[B] Certification: What’s in It for Me? 228

xxiii
**CHAPTER 12**  
Finding the 'Personal' in the Industrial Internet: Why Data Protection Law Still Matters

*Sam Wrigley, Anette Alén-Savikko & Olli Pitkänen*

**PART IV**  
The Industrial Internet and Competition Law  

xxiv
CHAPTER 14
Switching Costs and Abuse of Dominance in the Industrial Internet of Things Platforms
Tone Knapstad & Petri Kuoppamäki

§14.01 Introduction 277

§14.02 Features of Platforms That Are Relevant from Competition Law Point of View 278
   [A] Digital Platforms 279
   [B] Two-Sided Markets and Network Effects 279
   [C] Switching Costs 281

§14.03 What Competition Concerns Can Be Expected from the Presence of Switching Costs for IIoT Platforms? 285

§14.04 How Does Current Article 102 TFEU Case Law Deal with the Anticipated Problems? 288
   [A] General Considerations 288
   [B] The Potential for Tying Practices on IIoT Platforms 289
   [C] IIoT Platforms as Gatekeepers 292
   [D] IIoT Platforms and the Utilization of Big Data 296
   [E] Interoperability and Compatibility to the Rescue? 300

§14.05 Conclusions 302

CHAPTER 15
Data Collaboration, Pooling and Hoarding under Competition Law
Björn Lundqvist

§15.01 Introduction 305

§15.02 The Data Economy 307
   [A] Data-Driven Business Models 307
   [B] Data Pools 310

§15.03 Competition Law 313
   [A] Data Pools from a Competition Law Perspective 313
   [B] Information Sharing of Mainly Consumers’ Data 315
   [C] Data Pools Concerning Product Development, Technology or the IoT 317

§15.05 The Need for Guidance 324

§15.06 Closing Remarks: Network Effects and Interoperability 326

CHAPTER 16
The Antitrust Relevance of Granular Versioning
Mariateresa Maggiolino

§16.01 Introduction 329

§16.02 The Advent of the Data Economy and Personalized Manufacturing Systems 330

§16.03 Ordinary Versioning 332
Table of Contents

§16.04 Price Discrimination Between Ordinary Versioning and Granular Versioning 333

§16.05 Granular Versioning Within the EU Competition Rules 335
[A] Granular Versioning and Unfairly Excessive Prices 337
[B] The Case of Granular Versioning That Distorts the Competition Among the Business Customers of the Dominant Firm 338
[C] The Case of Granular Versioning That Produces Exclusionary and Anticompetitive Effects 339
[D] Granular Versioning as an Autonomous Form of Abuse 342

§16.06 Concluding Remarks 343

Chapter 17
Are Tech Giants (Mis)using Information for Anti-competitive Purposes?
Beata Måihåniemi 345

§17.01 Introduction 345

§17.02 Information-Based Abuses and Defining ‘Information’ on the Internet 347
[A] Information 347
[B] Information-Based Abuses 349
[C] Special Responsibility of Information Intermediaries 350

§17.03 Exclusionary Discrimination and the EC Decision on Google Search 352
[A] Google’s Dominance 352
[B] The ‘Point’ of Search Bias 352
[C] Fairness as a Way Forward? 354
[D] A Per Se Rule for Exclusionary Discrimination? 356

§17.04 Abusive Behaviour to Gain Access to Customer Information: The Bundeskartellamt’s Investigation into Facebook 358
[A] Background on the Facebook Investigation 359
[B] Theory of Harm in the Facebook Investigation 361

§17.05 Conclusions 363

PART V
The Industrial Internet and Contract Law 367

Chapter 18
Agile Methods and Their Impact on Project Management and Contracting
Jouko Nuottila & Soili Nysten-Haarala 367

§18.01 Introduction 369

§18.02 The Evolution of Agile Methods in Software Development 369

§18.03 The Agile Development Model 372

§18.04 The Impact of the Agile Development Model on Project Management and Contracting 374

§18.05 Agile Contracts in Detail 376

§18.06 The Future of Agile Contracts 379

§18.07 Conclusion 380

xxvi
CHAPTER 19
Conflict Management for Regulation-Averse Blockchains?
Riikka Koulu & Kalle Markkanen 381
§19.01 From Bitcoin to Trustless Distributed Systems to Decentralized Law? 381
[A] What Remains after the Hype? 381
[B] The Limits of Trustless Technology and Centralized Law 382
[C] Blockchain Disputes a Challenge for Conflict Management? 384
§19.02 Blockchains, Disputes and New Forms of Governance 385
[A] Defining Blockchains and Smart Contracts 385
[B] Fragmented Regulation 388
§19.03 Conflicts and Conflict Management on the Blockchain 390
[A] Shortcomings of Conflict Prevention and Ad Hoc Solutions: The DAO Hack 390
[B] Conflict Management Through Courts or in the Shadow of the Law? 393
[C] Fairness of Private Ordering? 397
§19.04 Emerging Forms of Conflict Management for Blockchain Disputes 402
[A] Blockchain-Based Crowdsourced Dispute Resolution Services 402
[B] Traditional ADR Solutions for Blockchain Disputes 405
§19.05 Conclusions 407
