Critical Political Ecology

The politics of environmental
science

Tim Forsyth

Contents

<i>List of illustrations</i>	xi
<i>Preface and acknowledgments</i>	xiii
<i>List of abbreviations</i>	xv
1 Political ecology and the politics of environmental science	1
<i>The separation of science and politics: some past trends in political ecology</i>	2
<i>Integrating environmental science and politics</i>	11
<i>Building a “critical” political ecology</i>	20
2 Environmental science and myths	24
<i>Overturning conventional environmental degradation</i>	25
<i>Environmental orthodoxies</i>	36
<i>Challenging the $I = PAT$ equation</i>	44
<i>Science or myths?</i>	46
<i>Summary</i>	50
3 Environmental “laws” and generalizations	52
<i>The frameworks of orthodox science</i>	53
<i>The challenge from non-equilibrium ecology</i>	63
<i>Diversifying “laws” of nature</i>	68
<i>Summary</i>	75
4 Social framings of environmental science	77
<i>Social framings of science and knowledge</i>	77
<i>Contested boundaries and hybrids</i>	85
<i>Theorizing the social institutions of environmental science</i>	91
<i>Summary</i>	102

5	The coproduction of environmental knowledge and political activism	103
	<i>Coproduction and hybridization</i>	104
	<i>The social framings of environmental concern</i>	105
	<i>Implications for scientific practice</i>	112
	<i>Implications for discourses of nature and society</i>	115
	<i>Summary</i>	132
6	Enforcing and contesting boundaries: boundary organizations and social movements	134
	<i>Structure and agency in science–policy</i>	134
	<i>Enforcing boundaries: examples of boundary organization analysis</i>	142
	<i>Challenging boundaries: social movements and reframing science</i>	154
	<i>Rethinking social movements and environmental epistemology</i>	158
	<i>Summary</i>	166
7	The globalization of environmental risk	168
	<i>“Global” science and risk</i>	169
	<i>Challenging the global emphasis</i>	171
	<i>Speaking on behalf of others</i>	182
	<i>Rethinking environmental vulnerability</i>	191
	<i>Summary</i>	200
8	Democratizing environmental explanations	202
	<i>Democratizing explanations</i>	203
	<i>Integrating social framings and scientific realism</i>	208
	<i>Approaches to diversifying and localizing environmental science</i>	222
	<i>Implications for the analysis of “local” versus “global” environmental problems</i>	226
	<i>Summary</i>	229
9	Democratizing environmental science and networks	231
	<i>Scientific expertise and public participation</i>	232
	<i>Regulating scientific institutions</i>	241
	<i>Empowering alternative networks</i>	252
	<i>Implications for integrating environmental governance and learning</i>	262
	<i>Summary</i>	264

10 Conclusion: “critical” political ecology and environmental science	266
<i>Summary of the book’s arguments</i>	266
<i>Ecology and ecologism</i>	267
<i>Political ecology, structure, and agency</i>	271
<i>Rethinking science and realism</i>	274
<i>A new agenda for political ecology</i>	276
<i>Bibliography</i>	280
<i>Index</i>	311
