Contents

<i>Dedication</i>	<i>v</i>
<i>Foreword</i>	<i>vii</i>
<i>Preface</i>	<i>ix</i>
<i>Acknowledgements</i>	<i>xi</i>
<i>Introduction</i>	<i>xv</i>
<i>Abbreviations</i>	<i>xvii</i>
1. Resources, Their Utilisation—Emerging Trends	1
1.1 Introduction	1
1.2 Fishery Resources	2
1.3 Aquaculture	14
1.4 Disposition of World Catch	20
1.5 Imports and Exports	34
1.6 Concluding Remarks	39
References	41
2. Chemical Composition and Their Technological Significance	43
2.1 Introduction	43
2.2 Proximate Composition	44
2.3 Variation in Proximate Composition	45
2.4 Different Organs	62
2.5 Water	64
2.6 Proteins	66
2.7 Lipid	75
2.8 Compounds of Extractive Fraction	92
2.9 Electrolytes and Trace Elements	96
2.10 Vitamins	103

2.11	Pigments	105	
2.12	Selected Miscellaneous Constituents	107	
2.13	Concluding Remarks	110	
	References	110	
3.	Fish Odours and Flavours		120
3.1	Introduction	120	
3.2	Odour and Flavour	121	
3.3	Types of Fish Odour and Flavour	121	
3.4	Odour and Flavour of Very Fresh Fish	122	
3.5	Flavourous Substances in Fish	124	
3.6	Flavours of Crustaceans and Molluscs	133	
3.7	Flavour Change During Handling, Storage and Processing	136	
3.8	Flavour-Products of Japan	141	
3.9	Deodourisation of Fish and Fish Protein Concentrate (FPC)	144	
3.10	Concluding Remarks	145	
	References	146	
4.	Fresh Fish Handling and Chill Storage		151
4.1	Introduction	151	
4.2	Wet Fish Utilisation in India	151	
4.3	Rigor Mortis	152	
4.4	Autolysis	164	
4.5	Bacterial Spoilage	167	
4.6	Chill Storage of Fish	175	
4.7	Concluding Remarks	195	
	References	195	
5.	Modified Atmosphere Packaging of Seafoods		203
5.1	Introduction	203	
5.2	What is Map	203	
5.3	Advantages and Disadvantages of Map	205	
5.4	Gases of Map	205	
5.5	Cooling and Temperature of Storage	208	
5.6	Bacteriology of Map	209	
5.7	Sensory Assessment	210	
5.8	Objective Assessment of Quality	212	
5.9	Microbiological Safety	214	

5.10	Packaging	215	
5.11	Shelf Life of Map Products	217	
5.12	Adjunct Treatments	218	
5.13	Residual Effect of Carbon Dioxide of Map Products	219	
5.14	Map and Freshwater Carp (<i>Catla catla</i>)	219	
5.15	Process and Guidelines for Handling	220	
5.16	Preservation with Ammonia	222	
5.17	Concluding Remarks	223	
	References	224	
6.	Assessment of Freshness Quality		228
6.1	Introduction	228	
6.2	Sensory Assessment	229	
6.3	Physical Methods	235	
6.4	Chemical Methods	238	
6.5	Quality Assessment of Tropical Freshwater Fish	247	
6.6	Concluding Remarks	249	
	References	249	
7.	Traditional Salted and Dried Fish Products		254
7.1	Introduction	254	
7.2	Cured Fish Products in Indian Economy	255	
7.3	Traditional Methods and Products of India	255	
7.4	Salting	261	
7.5	Drying	267	
7.6	Microbiological Spoilage	277	
7.7	Insect Infestation	279	
7.8	Browning of SunDried and Salted Products	283	
7.9	Common Salt	284	
7.10	Effect of Salting and Drying	287	
7.11	Use of Preservative Chemicals	290	
7.12	Packaging	294	
7.13	Concluding Remarks	295	
	References	295	
8.	Proteolysed Fish Products		305
8.1	Traditional Fermented Fish Products of South East and East Asia	305	
8.2	Traditional Semi-Preserved Fish Products of Europe	313	

8.3	Fish Silage	315	
8.4	Fish Protein Hydrolystate (FPH)	319	
8.5	Concluding Remarks	334	
	References	335	
9.	Minced Fish Technology		340
9.1	Introduction	340	
9.2	What is Minced Fish?	340	
9.3	Raw Materials	340	
9.4	Quality and Anatomical Considerations	344	
9.5	Fatty Fish for Minced Products	348	
9.6	Process	348	
9.7	Proximate Composition	355	
9.8	Functional Quality of Minced Fish	357	
9.9	Frozen Storage of Mince	358	
9.10	Additives	361	
9.11	Code of Practice	363	
9.12	Standard	364	
9.13	Advantages of Minced Fish	365	
9.14	Minced Fish Based Products	365	
9.15	Concluding Remarks	366	
	References	367	
10.	Retort Pouch Processing Technology		372
10.1	Introduction	372	
10.2	Retortable Plastic Packages	373	
10.3	Principle of Retort Pouch Technology (RPT) and Pouch-Geometry	378	
10.4	Retort Pouch Processing of Fish Products	381	
10.5	Quality Control	385	
10.6	Production Systems Commercially Available	386	
10.7	Concluding Remarks	387	
	References	388	
11.	Surimi and Surimi-Based Products		389
11.1	Introduction	389	
11.2	Minced Fish, Raw Surimi and Frozen Surimi	390	
11.3	Cryoprotectants	390	
11.4	Principle of Surimi Production	391	

11.5	Gel-Formation	402	
11.6	Surimi-based Products	403	
11.7	Concluding Remarks	411	
	References	412	
12.	Irradiation in Fish Processing		413
12.1	Introduction	413	
12.2	Radiation and its Sources	414	
12.3	Wholesomeness Aspect	416	
12.4	Irradiation Process	421	
12.5	Radiation Induced Changes	422	
12.6	Packaging	436	
12.7	Radurization of Tropical Fish	439	
12.8	Radacidation	445	
12.9	Radappertization	447	
12.10	Dehydro Irradiation Processing	447	
12.11	Miscellaneous Processes	449	
12.12	Identification of Irradiated Fish	450	
12.13	Concluding Remarks	452	
	References	452	
13.	Antarctic Krill and Its Processing		458
13.1	Introduction	458	
13.2	Biomass and Harvest	458	
13.3	Chemical Composition and Nutritive Value	460	
13.4	Technological Problems Associated with Handling	464	
13.5	Handling and Processing	465	
13.6	Concluding Remarks	469	
	References	469	
14.	Microwave in Fish Handling and Processing		471
14.1	Introduction	471	
14.2	Mechanism of Microwave Heating	473	
14.3	Cooking Time	477	
14.4	Applications in Fish Handling and Processing	479	
14.5	Concluding Remarks	482	
	References	483	

15. Fish Food Products	486
15.1 Introduction	486
15.2 Fish Protein Concentrate (FPC)	488
15.3 Partially Hydrolysed and Deodourised (PHD) Fish Flour	499
15.4 Intermediate Moisture Fish Cake	500
15.5 Marinebeef	501
15.6 Texturised "Meat" from Fish	502
15.7 Fish Sausage	503
15.8 Dehydrated Protein-Rich Foods	510
15.9 Fish Paste	513
15.10 Fish Soup Powder and Tablets	513
15.11 Dehydrated Curried Fish Mince	515
15.12 Fish Based Extrusion Products	516
15.13 Convenience Fish Products from Thermally Processed Fish	517
15.14 Freeze-Dried Shrimp	518
15.15 Products Requiring Frozen Storage	520
15.16 Cheese-like Products from Fish	523
15.17 Protein Drink from Fish Protein Isolate	524
15.18 Broth from Shrimp Waste	525
15.19 Concluding Remarks	526
References	527
16. Advances in Freezing Technology	532
16.1 Introduction	532
16.2 Freezing-out of Water	533
16.3 Microbiology of Frozen Fish	535
16.4 Effect on Proteins	536
16.5 Major Changes in Frozen Stored Seafoods	545
16.6 Freezing of Pre- and Post-Rigor Fish	554
16.7 Freezing of Precooked Fish	556
16.8 Freezing	557
16.9 Quality Assessment of Frozen Shrimps	566
16.10 Storage-life of Frozen Seafoods	567
16.11 Concluding Remarks	570
References	570
17. Shrimp Culture, Shrimp Feed, Melanosis and Moulting	576
17.1 Introduction	576

17.2	Shrimp Culture	577	
17.3	Shrimp Feed	584	
17.4	Melanosis	607	
17.5	Moulting	611	
17.6	Concluding Remarks	612	
	References	613	
18.	Selected By-products from Sea		616
18.1	Chitin, Chitosan and Glucosamine	616	
18.2	Leather from Fish Skin	626	
18.3	Collagen Fibre and Surgical Suture	630	
18.4	By-products From Seaweeds: Alginate, Agar, Carrageenan and Bioactive Substances	631	
	References	646	
19.	ω-3 Fatty Acids, Fish Oil and Fish in Health and Nutrition		649
19.1	Introduction	649	
19.2	Fish Oil In Coronary Heart Disease	650	
19.3	Fish, Fish Oil, Eicosanoids In Health And Disease	652	
19.4	Linoleic Acid, ALA, AA, EPA and DHA, and their Interconvertibility	657	
19.5	Vitamin E, Fish Oil and Lipid Peroxidation	658	
19.6	Fish Oil Vs Fish	659	
19.7	Fish Oil	661	
19.8	Marine Oil in India and Concluding Remarks	675	
	Appendix-1	676	
	Addendum	678	
	References	678	
20.	Fishborne Pathogens and Depuration		684
20.1	Introduction	684	
20.2	Pathogenicity of Seafoods	684	
20.3	Dietary Tradition and Its Implication	685	
20.4	Fishborne Pathogens	687	
20.5	Fish and Seafood-borne Viruses	710	
20.6	Parasites	711	
20.7	Molluscan Shellfish Borne Disease and Depuration	711	
20.8	Pathogens of Wastewater Aquaculture	715	

20.9	Concluding Remarks	718	
	References	719	
21.	Toxins, Pollutants and Contaminants		726
21.1	Introduction	726	
21.2	Toxins From Fish and Seafoods	726	
21.3	Pollutants - Pesticide Residue	752	
21.4	Contaminants: Heavy Metals and other Elements	755	
21.5	Concluding Remarks	768	
	References	768	
	Addendum	775	
21.A	Environmental Chemical Contaminant and Pesticide Tolerances, Action Levels, and Guidance Levels (USA)	775	
21.B	Tolerance Limit of Pesticide Residue and Poisonous Elements (India)	776	
22.	Quality Management		778
22.1	Introduction	778	
22.2	Source of Pathogens	779	
22.3	Hazard Analysis Critical Control Point	780	
22.4	ISO-9000	788	
22.5	International and National Advisory, and Regulatory Authorities	791	
22.6	Methodology for Evaluation of Bacteriological Quality	792	
22.7	Code of Practice and Quality Standards	794	
22.8	Concluding Remarks	802	
	References	802
