TABLE OF CONTENTS

	Page
PREFACE	iii
CHAPTER I. Composition, Structure and Ion Transport in Manganese Oxides.	
A New View on the Equilibrium Diagram Potential-pH of the System Mn-H ₂ O J.P. Brenet and P.C. Piquet	3
Fast Proton Conduction in Solids K.D. Kreuer	21
High Resolution Transmission Electron Microscopy of Lithiated Manganese Oxides P.R. Buseck, B. Miner and S. Turner	48
Manganese Oxides as Battery Cathodes J.B. Goodenough	77
Tunnelling through MnO ₂ : Covalent Bonding and Structural Linkages in Tetravalent Manganese Oxides R.G. Burns and V.M. Burns	97
Cation-Vacancy Model for MnO ₂ P. Ruetschi	112
XRD and IR Studies on MnO ₂ /MnOOH Systems T. Ohzuku and T. Hirai	141
FTIR Studies on MnO ₂ Structure and Electrochemical Behavior D.A.J. Swinkels and P.M. Fredericks	158
An Empirical Concept on Activity and Structures of Manganese Dioxides for Batteries M. Fukuda	180

	Page
CHAPTER II. Synthesis and Alteration of Manganese Oxides	
Methods of Activation of MnO ₂ Used in Electrochemical Cells and as Catalysts J.P. Brenet	193
Functional Properties Demanded for Dry Cells Provided by Electrolytic Manganese Dioxide from the Electrolysis of a Suspension of MnO ₂ in an Aqueous Acidic Solution of MnSO ₄ K. Takahashi and Y. Nakayama	208
Formation and Electrochemical Activity of Fibrous Electrolytic Manganese Dioxide Zhang, Q., Zhu Z., Chen Z., and Lian J.	222
A New Generation of CMD Tailored for Specific Applications P.C. Piquet and S.Davis	247
On the Formation of Alpha-Manganese Dioxides (RMn _{0.8} O _{1.8} : R ⁺ = NH ₄ ⁺ , K ⁺ and Rb ⁺) in Aqueous Solutions T. Ohzuku and T. Hirai	262
An Alpha-delta Manganese Dioxide G.W. Mellors and B.Schumm, Jr.	280
CHAPTER III. Surface Behavior and Potential of Manganese Dioxide in the Aqueous Environment	
Understanding Equilibrium Potentials of Manganese Oxyhydroxides in Aqueous Solutions F.L. Tye	301
Investigation of Manganese Dioxide as an Improved Solid Desiccant A.V. Fraioli	342
Thermodynamics and Electrochemical Reactions Calculated and Measured Battery Voltages L.E. DeVries	369

	Page
The Electrode Potential vs the Surface Conditions of MnO_2 A. Kozawa	384
Variance of the Equilibrium Potential Due to Lattice Water and Combined Water K. Shimizu and J. Koshiba	391
Influence of pH on the Charge Storage of Thermally Prepared MnO_2 Films L.D. Burke and M.J. Ahern	403
CHAPTER IV. Potential and Discharge Behavior of Manganese Dioxide in the Nonaqueous Environment	
Characterization of the Li/MnO_2 Multi- Step Discharge J.C. Nardi	419
Nonaqueous Electrochemistry of ΛMnO_2 J.C. Hunter and F.B. Tudron	444
Behavior of MnO_2 Cathodes in Nonaqueous Electrolytes J. Ruch, P. Schmoede and D. Katryniok	452
CHAPTER V. Discharge Behavior of Manganese Dioxide in Aqueous Solutions	
Reactions in Zinc Chloride Cells Compared to Leclanche Cells Y. Uetani, H. Sasama and T. Iwamaru	475
The Voltage Recovery Behavior of the Oxidation Grade CMD in $ZnCl_2$ Type Cells I. Tanabe	493
Effects of Alpha-delta Manganese Dioxide Structure on Carbon-zinc Cell Performance B. Schumm, Jr. and G.W. Mellors	525

	<u>Page</u>
CHAPTER VI. Deposition, Discharge and Recharge of Manganese Dioxide in Alkaline Solutions	
An Optical Study of the Deposition, Discharge and Recharge of Manganese Dioxide Films J.L. Ord and Z.Q. Huang	541
The Effect of Included Ions on the Rechargeability of Pelletized Manganese Dioxide Electrodes S. Fletcher, J. Galea, J.A. Hamilton, T. Tran and R. Woods	556
Improved Rechargeability of Manganese Dioxide in Alkaline Electrolytes J. Gsellman, W. Harer, K. Holzleithner and K. Kordesch	567
Influence of Chromium (III) on the Electrochemical Preparation and Properties of Manganese Dioxide H.A. Laitinen and K.P. Rajan	579
CHAPTER VII. Mining and Treatment Processes for Electroactive Manganese Ores	
Selection in the Mining Operation at Moanda, Gabon D. Thirouin and R. Giavonoli	594
Manganese Ore in the Carajas Region, Brazil L. Fuchs	610
Battery Grade Manganese Ore from Groote Eylandt, Australia K.E. Anthony and J. Dstwald	628
Studies of the Activation and Optimum Utilization of Manganese Dioxide as a Cathodic Material J. Kwasnik, A. Nowacki, H. Puroł and B. Szczesniak	650

	Page
Facilitating Acid Dissolution of Manganese Nodules by "Dry Cell Techniques" K. Miyazaki	666
INDEX	677
