

Transactions of an
APCA International Specialty Conference

The Scientific and Technical Issues Facing Post-1987 Ozone Control Strategies

Edited by

George T. Wolff

General Motors Research Laboratory

John L. Hanisch

United States Environmental Protection Agency

Kenneth Schere

United States Environmental Protection Agency

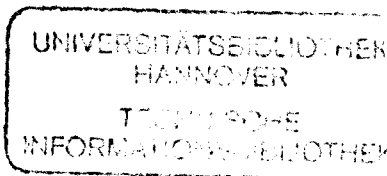

Sponsored by

APCA's TC-2 Gases and Odors Committee,
TT-3 Meteorology Committee, and
ITF-3 Ozone Intercommittee Task Force

Hosted by

APCA's New England Section

November 1987
Hartford, Connecticut

Air & Waste Management Association
(formerly APCA)

UB/TIB Hannover 89
100 850 332

Technical Program Committee		xi
General Conference Committee		xii
The Editors		xiii
Overview	<i>George T. Wolff</i>	1

OZONE ATTAINMENT—PROBLEMS AND PERSPECTIVES

John Hanisch, Session Chairman

The State of the Clean Air Act and Industry's Dilemma	<i>Leslie Sue Ritts</i>	16
Post-1987: An Environmentalist's Perspective	<i>Elizabeth G. Johnson</i>	27
Progress and Prospects in Air Pollution Control and the Need to Strengthen its Scientific Base	<i>N. E. Gallopoulos</i>	30

SCIENTIFIC PAPERS

MECHANISM DEVELOPMENT

Alan Lloyd, Session Chairman

Computer Modeling Studies of Incremental Reactivities of Organics With Respect to Urban Ozone Formation	<i>William P. L. Carter</i>	46
---	-----------------------------	----

Development of the Carbon Bond-IV Mechanism	<i>Michael W. Gery</i>	64
Sensitivity Analysis of the Effects of EKMA Input Parameters on VOC Control Requirements	<i>Henry Hogo</i>	92
Photochemical Ozone Formation in Outdoor Smog Chambers and its Sensitivity to Changes in Precursors at a Suburban Detroit Site	<i>Nelson A. Kelly</i>	110
Comparison of Two Chemical Mechanisms For Use in EKMA to Calculate Hydrocarbon Control Requirements	<i>H. E. Jeffries</i>	137
A Network Testing Strategy For Chemical Mechanisms Used in the EKMA Method	<i>K. E. Pua</i>	152

URBAN-SCALE OZONE

Kenneth L. Schere, Session Chairman

Shortcomings of EKMA as Compared to Using the Urban Airshed Model for Developing Ozone Control Strategies in Kern County, California	<i>Bart E. Croes</i>	164
Temporal and Spatial Variability of Ozone Concentrations in the New York Metropolitan Region	<i>S. T. Rao</i>	176
Air Quality Analyses Supporting the State of New Jersey's Post-1987 Ozone Plan: Emission Inventory Trends Analysis	<i>Jay L. Haney</i>	199
Sensitivity Analysis of the Urban Airshed Model	<i>S. T. Rao</i>	215
Air Quality Trends of O ₃ , NO _x , and HC in California Air Basins	<i>G. Kuntasal</i>	228

REGIONAL-SCALE OZONE

Jennifer Logan, Session Chairman

Diagnostic Studies of Ozone in the Northeastern United States Based on Applications of the Regional Oxidant Model (ROM)	<i>Robert G. Lamb</i>	239
The Systems Applications, Inc. Regional Transport Model—Current Status and Future Needs	<i>Ralph Morris</i>	257
Evaluation of a Detailed Chemical Reaction Mechanism	<i>Frederick W. Lurmann</i>	288
Source Attribution for Hydrocarbons and Ozone	<i>Lawrence Kleinman</i>	306
A Regional Model of Annual Average Airborne NO _x	<i>James A. Fay</i>	320

DATA ANALYSIS

Tom McCurdy and Chester Spicer, Session Chairmen

Relationships Among Ozone Air Quality Indicators in Urban Areas	<i>Thomas McCurdy</i>	331
Evaluation of the Stringency of Alternative Forms for a National Ambient Air Quality Standard for Ozone	<i>R. L. Berglund</i>	343
Historical Trends (1971–1985) in the Concentration of Oxidant Monitored at the Suburban Experiment Station of the University of Massachusetts in Waltham, MA	<i>Alan VanArsdale</i>	370
An Analysis of 1987 Ozone Levels in New England	<i>Richard P. Burkhart</i>	386
The Effectiveness of Emission Controls on Reducing Ozone Levels in Connecticut From 1976 Through 1987	<i>David J. Wackter</i>	398

Mesocale Transport of Ozone: Determination at a Lake Michigan Shoreline Community	<i>Craig A. Fitzner</i>	416
Analysis of Ozone Concentration and VOC Emission Trends in Harris County, Texas, 1981-1986	<i>Howard W. Balentine</i>	429
A Methodology for Identification of Rural Ozone Self-Generating Areas in Southeast Texas	<i>James W. Yarbrough</i>	441

CONTROL PAPERS

POST-87 OZONE SIP REQUIREMENTS

G. T. Helms and Brock Nicholson, Session Chairmen

Proposed Emission Inventory Requirements for Post-1987 Ozone State Implementation Plans	<i>David C. Misenheimer</i>	453
Urban Scale Modeling Require- ments	<i>Edwin L. Meyer</i>	465
Improving Control Strategy Effec- tiveness	<i>William L. Johnson</i>	476
Measuring and Assuring Progress and Maintenance in Post-1987 Ozone/Carbon Monoxide Non- attainment Areas	<i>David G. Johnson</i>	483

POTENTIAL FUTURE VOC CONTROL MEASURES

James Berry, Session Chairman

Assessment of the Ozone SIP Strategies in the New York Metro- politan Area	<i>S. T. Rao</i>	489
Evaluation of Post 1987 Ozone Control Strategies With the Urban Airshed Model	<i>Robin Miles-McLean</i>	503

Development of Transportation Control Measures for Santa Barbara County	<i>Karin C. C. Gschwandtner</i>	517
A Gasoline Volatility Strategy for the Northeast	<i>Nancy L. Seidman</i>	526
Comprehensive Pollution Control Using Electron Beam Technology	<i>Kenneth E. Williams</i>	539
Report on Emissions Inventory Development for Volatile Organic Compounds from Publicly Owned Treatment Works in the New York and New Jersey Ozone Nonattainment Areas	<i>Roch C. Baamonde</i>	548
Control of Nontraditional Sources of VOCs—POTWs	<i>Cynthia L. Greene</i>	566

**RECENT ADVANCES IN CENTRAL TECHNOLOGY
FOR REGULATED VOC SOURCE CATEGORIES**

Richard Cahaly, Session Chairman

Development of a VOC Compliance Strategy for an Adhesive Coating Manufacturer Through Implementation of an Alternative Emissions Reduction “Bubble” Plan	<i>Michael I. Holzman</i>	578
Summary of Non-CTG Regulations for Sources Emitting Greater Than 100 Tons Per Year VOC	<i>Charlotte Reeves Clark</i>	592
Control of Airborne Hydrocarbons From Industrial Sources	<i>Jorgen G. Hedenhag</i>	604
Compliance Through the Use of High Solids Paints for Large Appliance Surface Coating	<i>David C. Lee</i>	622
Cost Effectiveness of New Technology for Paint Spray Booth Emission Control	<i>Robert E. Kenson</i>	634

Assessment of VOS Emission Decreases From Surface Coating Operations Using Various Compli- ance Techniques	<i>Iclal Atay</i>	648
RACT Compliance With Low VOC/High Solids in Rhode Island	<i>Christopher A. James</i>	660
Industrial Experience for Regener- ating Precious Metal Catalysts Used for Control of Volatile Organic Compounds	<i>Robert M. Yarrington</i>	670

**MONITORING COMPLIANCE
AND COMPLIANCE TECHNIQUES**

Vicki Sarver and Robert Donaldson, Session Chairmen

The Feasibility of Conducting a Vapor Phase Mass Balance to Determine Capture Efficiency	<i>Thomas A. Elter</i>	681
Sampling and Analysis of Volatile Organic Compounds Using On Site, Direct Injection Gas Chroma- tography	<i>D. M. Frecker</i>	693
The Use of Emissions Trading Tools to Meet Post '87 Attainment Goals	<i>John Palmisano</i>	705
Problems in Assessing Reasonable Further Progress: A Region 9 Per- spective	<i>Michael Work</i>	723
