

**PROCEEDINGS OF THE SYMPOSIUM ON
HEADWATERS HYDROLOGY**

Edited by

[Missoula, Mont.
23. - 27.6.1989]

WILLIAM W. WOESSNER

Associate Professor
Department of Geology
University of Montana
Missoula, Montana 59812

and

DONALD F. POTTS

Associate Professor
School of Forestry
University of Montana
Missoula, Montana 59812

Sponsored by

American Water Resources Association

Co-Sponsored by

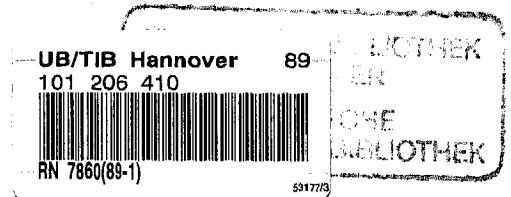

**Bureau of Indian Affairs
Montana Forest and Conservation Experimentation Station
Salt River Project
South Florida Water Management District
United States Forest Service
United States Geological Survey
University of Arizona Water Resources Research Center
University of Montana**

Hosted by

Montana Section, AWRA

in cooperation with

Northern Lights Research and Education Institute

**AMERICAN WATER RESOURCES ASSOCIATION
5410 Grosvenor Lane, Suite 220
Bethesda, Maryland 20814-2192**

TABLE OF CONTENTS

Headwaters Hydrology

The National Forest System – America’s Headwaters	
– <i>Arne E. Rosquist, Jr.</i>	1
A Brief History of Wilderness Water Policy in the United States	
– <i>Alan R. Tautges</i>	9
Nonpoint Source Pollution Management and Compliance With Regulatory Mandates	
– <i>J. R. Rector</i>	21
Federal Nonpoint Source Control Efforts – Historical GAO Observations	
– <i>Charles D. Mosher</i>	31
A Four-Level Hierarchy for Organizing Wildland Stream Resource Information	
– <i>Harry Parrott, Daniel A. Marion, and R. Douglas Perkinson</i>	41

Poster Session Papers

Effects of Six Forest-Site Conditions on Nutrient Losses in East Texas	
– <i>Azahar B. Muda, Mingteh Chang, and Kenneth G. Watterston</i>	55
Physical and Hydrological Properties of Mined Spoils Reclaimed by Different Amelioration Methods	
– <i>G. W. Theseira and S. K. Chong</i>	65
Variable Landscape Aggregation for Large Scale Watershed Evapotranspiration Estimates	
– <i>Joseph C. Coughlan and Steven W. Running</i>	75
Arctic Grayling Coexist With Dam Safety Improvements	
– <i>Gary Elwell</i>	83
Evaluating a Bank Stabilization Project 25 Years After Completion	
– <i>Randy S. Ferrin and Janice W. Staats</i>	95
Channel Erosion Analysis and Control	
– <i>J. Craig Fischenich</i>	101
Cumulative Effects of Human Activities on Bull Trout (<i>Salvelinus confluentus</i>) in the Upper Flathead Drainage, Montana	
– <i>John Fraley, Tom Weaver, and Jim Vashro</i>	111

Air Pollution in the Wind River Mountain Wilderness: A Long-Term Monitoring Program of the Forest Service, U.S. Department of Agriculture – <i>Alan F. Galbraith and S. A. Stuart</i>	121
Forest Headwaters Riparian Road Construction and Timber Harvest Guidelines to Control Sediment – <i>R. G. Hammer</i>	127
Montana Riparian Association – <i>Paul L. Hansen, Robert D. Pfister, and Keith Boggs</i>	133
Agricultural Management and Policy Needs for Salinity Abatement in Eastern Montana – <i>S. K. Brown, M. D. Tomer, G. A. Hockett, and J. M. Holzer</i>	135
Hydrology of Four Headwater Basins in the Sierra Nevada – <i>Richard Kattelman</i>	141
Effectiveness of BMP's in Controlling Nonpoint Pollution from Silvicultural Operations – <i>James A. Lynch and Edward S. Corbett</i>	149
Recent Trends in Glaciers and Glacier Runoff, Wind River Range, Wyoming – <i>Richard A. Marston, Larry O. Pochop, Greg L. Kerr, and Marjorie L. Varuska</i>	159
Riparian Management Guidelines – <i>Robert D. Pfister, Paul L. Hansen, and Donald F. Potts</i>	171
Landslide Deposits in Low-Order Streams – Their Erosion Rates and Effects on Channel Morphology – <i>Susan J. Perkins</i>	173
Sediment Yield Evaluation	
Determining Average Annual Sediment Yield from a Basin Due to Rainfall – <i>Jerald S. Fifield</i>	183
Using the USLE to Discuss the Causes of Sedimentation in Guam, Mariana Islands – <i>Rosalind L. Hunter-Anderson and Shahram Khosrowpanah</i>	193
The Effect of a Log-Jam Burst on Bedload Transport and Channel Characteristics in a Headwaters Stream – <i>Nicholas Bugosh and Stephan G. Custer</i>	203
Suspended Sediment and Turbidity from Northern Yellowstone Park, Wyoming, 1985-1987 – <i>Roy Ewing and Jana Mohrman</i>	213
Evaluation of the Effects of Military Training on Vegetation in Southeastern Colorado – <i>Robert B. Shaw and Victor E. Diersing</i>	223
Effects of Land Use on Sediment Yield, Southeastern Colorado – <i>Paul von Guerard</i>	233

Water Policy and Economics

Educating About Water Quality Issues	
– <i>Verne W. House and Douglas Yanggen</i>	243
Equitable Groundwater Management in the Tucson Active Management Area	
– <i>Ken A. Rait and Andrew L. Lieuwen</i>	249
Institutional Barriers to Policy Change – Implications for Riparian Habitat Protection in Arizona	
– <i>M. E. Wilkosz and D. A. King</i>	259

Riparian Systems/Management

Classification and Spatial Mapping of Riparian Habitat With Applications to Modeling Instream Impacts of Agricultural Nonpoint Source Pollution	
– <i>M. D. Delong, R. Rhew, and M. A. Brusven</i>	269
COPE Research on Riparian Zone Management in the Oregon Coast Range	
– <i>A. E. Skaugset, C. G. Bacon, A. J. Hansen, and T. E. McMahon</i>	277
Control of Attached Algae by Nitrogen and Phosphorus in the Clark Fork River	
– <i>Vicki Watson</i>	287

Instream Flow

Criteria for Evaluating Instream Flow Programs: Deciding What Works	
– <i>Berton L. Lamb and Harvey R. Doerksen</i>	299
Surface and Ground Water Assessments Supporting Instream Flow Protection at the Hassayampa River Preserve, Wickenburg, Arizona	
– <i>Michael E. Jenkins</i>	307
Letting the Rivers Run: Toward a Model Instream Flow Program	
– <i>Matthew J. McKinney</i>	317
Hydrologic Analysis of the Gulkana National Wild River, Alaska	
– <i>David A. Ellerbroek, William A. Jackson, and Bruce P. Van Haveren</i>	331
Water Allocation Under a Riparian System Taking Into Account Surface and Groundwater Interactions – The Case of Irrigation Development in the Headwaters of the Susquehanna River	
– <i>Tammo S. Steenhuis and David Allee</i>	341
Opportunities for Riparian Ecosystem Preservation in the Verde River Basin, Arizona	
– <i>Deborah Moore</i>	351
Groundwater Contributions in an Alpine Basin in the Sierra Nevada	
– <i>Richard Kattelmann</i>	361

Stream Channels

- Coarse Woody Debris and Channel Morphology of Low-Gradient Streams in Southeast Alaska, U.S.A.
– *E. George Robison and Robert L. Beschta*371
- Spatial and Seasonal Patterns of Streambed Water Temperatures in an Alaskan Subarctic Stream
– *John G. Irons III, Scott R. Ray, L. Keith Miller, and Mark W. Oswood*381
- Validation and Sensitivity Analysis of the Stream Network Temperature Model on Small Watersheds in Northeast Oregon
– *B. L. Mattax and T. M. Quigley*391

Mining and Sediment

- Factors Influencing Pool Morphology in Oregon Coastal Streams
– *William R. Stack and Robert L. Beschta*401
- The Development of a Sediment Methodology in Alaska
– *Richard F. Dworsky and Howard Levine*413
- A Geomorphically Determined Valley-Erosion Threshold for Reclaimed Surface-Mined Drainage Basins, Northwestern Colorado
– *John G. Elliott*419
- A Flume Study Examining the Filtering Efficiency of Silt Fences Using Site-Specific Soils
– *Tom Munson*431

Cumulative Watershed Effects

- Cumulative Watershed Effects (CWE) Analysis in Federal and Private Forests in California
– *John Cobourn*441
- An Application of Cumulative Watershed Effects (CWE) Analysis on the Eldorado National Forest in California
– *John Cobourn*449
- Baseline Risk Assessment: A Convincing Cumulative Effects Analysis in the Bull Run Watershed
– *Constance M. Athman and Bruce P. McCammon*461
- The Cumulative Hydrologic Effects on Stormflows of Successive Clearcuts on a Small Headwater Basin
– *Brian C. Dietterick and James A. Lynch*473
- Effect of a Major Wildfire on Water Quality in Southeastern British Columbia
– *David R. Gluns and David A. A. Toews*487
- Progressive, Long-Term Slope Failure Following Road Construction and Logging on Noncohesive, Granitic Soils of the Idaho Batholith
– *Walter F. Megahan and Carolyn C. Bohn*501

Water Quality

Tracing Stormflow Sources in Seepage Zones Using Oxygen-18	
– <i>D. R. DeWalle and H. B. Pionke</i>	511
On Defining Acidification Status of Unglaciaded Headwater Appalachian Catchments	
– <i>William E. Sharpe, David R. DeWalle, and Bryan R. Swistock</i>	517
The Role of Atmospheric Deposition in Streamflow Generation and Episodic Water Quality	
– <i>Fletcher I. Potter III, James A. Lynch, and Edward S. Corbett</i>	527

Water Yield and Modeling

Water Quality Modeling and Transport Analysis of Heavy Metals in the Clark Fork River	
– <i>Kendall P. Brown and Zia Hosseinipour</i>	543
Hydrologic Characteristics of a Wetland Using a Bromide Tracer	
– <i>Robert B. Morton, John D. Goering, and Douglas J. Dollhopf</i>	553
Stratified Flood Frequency Analysis	
– <i>Peter E. Black</i>	563
Hydrologic Production Zones in a Headwater Watershed	
– <i>Edward S. Corbett and James A. Lynch</i>	573
Defining Hydrologic Characteristics of Headwaters Forested Watersheds in the Southern Interior of British Columbia	
– <i>J. D. Cheng, D. E. Reksten, and P. F. Doyle</i>	579
Estimating Mean Monthly Streamflow at Ungaged Sites in Western Montana	
– <i>Charles Parrett and Kenn D. Cartier</i>	589
Hydrologic Simulation Techniques Applied to Water Management in Montana	
– <i>Stephen R. Holnbeck, and Steven K. Sando</i>	599
Modeling Runoff from Sagebrush Rangelands Along a Climatic Gradient in Southwest Idaho	
– <i>Bradford P. Wilcox, Mark S. Seyfried, Keith R. Cooley, and Clayton L. Hanson</i>	609
Prediction of Annual Water Yield from Land Management Activities	
– <i>J. D. Stednick and D. F. Potts</i>	619
Stochastic Modeling of Lake Levels for a Management Decision	
– <i>R. M. Solomon and L. J. Schmidt</i>	627

Mining and Water Quality

The Effect of Mining on Water Quality	
– <i>Charles Hains, Jr. and Dorothy Hains</i>	637
Impact of Acid Mine Drainage on Benthic Macroinvertebrates (Plecoptera) in a Montane Stream	
– <i>John T. Gangemi</i>	645
Migration of Radionuclides in the Groundwater System from Residual Wastes in a Uranium Mine	
– <i>Jing-Yea Yang</i>	655

Ground Water

Potential Sources of Groundwater Contamination in the Headwaters of the Mahantango Creek	
– <i>A. S. Rogowski and J. K. Wolf</i>	665
Use of a Hydraulic Potentiomanometer to Determine Ground-Water Gradients in a Wetland, Colorado	
– <i>Barbara C. Ruddy</i>	675
Arsenic Contamination of Aquifers Caused by Irrigation With Diluted Geothermal Water	
– <i>John L. Sonderegger, Brenda R. Sholes, and Takeshi Ohguchi</i>	685
Recharge/Discharge Relationships in a Coarse-Grained Alluvial Aquifer	
– <i>William R. Thompson, Seth Makepeace, and William W. Woessner</i>	695
Paper Title Index	705
Author Index	707
