Indoor air pollutants: exposure and health effects

Report on a WHO meeting

UB/TIB Hannover 89
103 034 811

RN 8342(78)

55012/3

100

Nördlingen, 8-11 June 1982

CONTENTS

Page

Summary	1
Introduction	2
Elements of the preventive approach	6
Exposure estimates	7
Modelling	7
Source strength	9
Infiltration and ventilation rates	9
Methods of measurement	10
Assessment of health effects	14
Animal toxicological studies	15
Occupational studies	15
Controlled exposure studies in man	15
Design of sequential studies	16
Epidemiological studies	16
Levels of knowledge about exposure and health effects	18
The “sick” building syndrome	23
Symptoms	23
Frequency	25
Common features of “sick” buildings	25
Suggested causes of the “sick” building syndrome	26
Methodology and priorities for future studies	27
Conclusions	30
Recommendations	31
References	32
Annex 1 Membership of subgroups	37
Annex 2 Steering committee on indoor air quality	39
Annex 3 List of participants	41
