

ISME KOBE '90

TECHNICAL PAPERS & PANEL DISCUSSIONS PRESENTED AT

The 4th International Symposium on Marine Engineering Kobe '90

OCTOBER 15~19, 1990
INTERNATIONAL
CONFERENCE CENTER KOBE

The Marine Engineering Society in Japan
JSTC Bldg., 1-3-8, Mejiro, Toshima, Tokyo 171 JAPAN

CONTENTS

SESSION A-1 [HIGH SPEED & SPECIAL VEHICLE TECHNIQUES I]	Page .Vol.
A-1-1 High Speed Semi-Submersible Vehicle with Wings K.MORI, Y.DOI, Y.HIGO (Hiroshima University)	A-1-1 . I
A-1-2 Kawasaki "JET SKI" Watercraft Y.YAMASHITA (Kawasaki Heavy Industries.Ltd.)	A-1-9 . I
A-1-3 Underwater Gliding for Subsea Cargo Transport Tsung-Chow SU (Florida Atlantic University)	A-1-17. I
A-1-4 The Recent Development of SWATH in Japan (Small Waterplane Area Twin Hull) H.YAGI, S.SHIBAHARA, Y.AKUTSU, K.MASUYAMA, H.NAKAMURA (Mitsui Engineering & Shipbuilding Co..Ltd.)	A-1-23. I
 SESSION A-2 [PROPULSION & RESISTANCE I]	
A-2-1 Measurement of Spray Resistance for Prismatic Planing Hull Forms S.HIRANO, S.INATSU, Y.HIMENO (University of Osaka Prefecture)	A-2-1 . I
A-2-2 Comparative Investigations of Airfoil Sections in a Cavitation Tunnel W.FALLER (Sulzer-Escher Wyss GmbH)	A-2-9 . I
A-2-3 An Experiment on the Transition of a Three-Dimensional Boundary Layer Using a Thin Liquid Film Flow T.AZUMA (Osaka City University)	A-2-17. I
A-2-4 Some Results from Systematic Investigations of Cavitation and Acoustic Characteristics of Positioning Thrusters R.Z.KALCHEV, St.STOYANOV, V.P.ILIN, E.P.LEBEDEV (Bulgarian Ship Hydrodynamics Centre)	A-2-25. I
 SESSION A-3 [HIGH SPEED & SPECIAL VEHICLE TECHNIQUES II]	
A-3-1 A Water Jet Using Expansion of High Pressure Air Bubbles M.TSUTAHARA, T.KIMURA (Kobe University) K.HASHIMOTO (Civil Aviation College)	A-3-1 . II
A-3-2 Numerical Simulation of Outer Flow around a Two Dimensional ACV with an Internal Air Supply R.HAYASHI (Shimane University) T.KIDA (University of Osaka Prefecture) Z.YASUTOMI (Kinki University)	A-3-7 . II
A-3-3 An Air-Cusion Landing System of the Large Aircraft T.NAKAJIMA, H.NAKATA, T.KIDA (University of Osaka Prefecture) Z.YASUTOMI (Kinki University)	A-3-15. II
 SESSION A-4 [PROPULSION & RESISTANCE II]	
A-4-1 A Study on the Propulsive Performance of a Training Ship FUKAE-MARU in Actual Service E.NISHIKAWA, M.UCHIDA, N.NAKAI (Kobe University of Mercantile Marine)	A-4-1 . II
A-4-2 Development of Mitsubishi Corrosion Resistance Steel (MCRS) for Marine Propeller T.KAWAZOE, S.MATSUO, S.NISHIKIDO (Mitsubishi Heavy Industries.Ltd.) T.SASAJIMA (Japan Defence Agency) T.DAIKOKU (Nagasaki Institute of Applied Science)	A-4-9 . II

SESSION A-5 [NEW PROPELLER TECHNIQUES I]

Page .Vol.

- A-5-1 Study on the New Generation Propulsion System with CRP A-5-1 . II
O.YOSHIDA, M.UTSUNOMIA, T.NAKASHIMA, M.OHSHIMA, T.FUJITA,
Y.OKAMOTO, A.MIYAKE
(Ishikawajima-Harima Heavy Industries Co.,Ltd.)
- A-5-2 An Approach for Determination of High-Speed Propeller Performance A-5-3 . II
P.G.KOZHUKHAROV, V.D.DIMITROV
(Bulgarian Ship Hydrodynamics Centre)
- A-5-3 Development of Contra-Rotating Propeller System for Large Ships A-5-13, II
S.NAKAMURA, K.YONEKURA, T.OHTA, K.SAKI
(Mitsubishi Heavy Industries,Ltd.)
T.SASAJIMA (Japan Defense Agency)
- A-5-4 Propeller Screw in Non-Axial Flow : Experimental Methodology and
Results Analysis Obtained at Towing Tank with 21 Three Blades Models
of Wageningen B-Series A-5-21, II
P.CASSELLA, M.MANDARINO, S.MIRANDA, A.SCAMARDELLA
(University of Naples)

SESSION A-6 [NEW PROPELLER TECHNIQUES II]

- A-6-1 A Ship Propulsion Using a Mechanism of Hovering Flight of Small Insects ... A-6-1 . II
M.TSUTAHARA, T.KIMURA, K.RO, K.TAKAHASHI (Kobe University)
- A-6-2 Improved Grim Vane Wheel System and the Latest Application to VLCC A-6-9 . II
M.TANAKA, R.FUJINO, A.ANDO, A.KUNORI, Y.IMASHIMIZU
(Ishikawajima-Harima Heavy Industries Co.,Ltd.)
- A-6-3 Propeller Efficiency Enhanced by PBCF (Propeller Boss Cap Fins) A-6-17, II
K.OUCHI, T.KAWASAKI (Mitsui OSK Lines.Ltd.)
M.TAMASHIMA (West Japan Fluid Engg. Co.,Ltd.)

SESSION A-7 [GENERAL DESIGN & METHODOLOGY I]

- A-7-1 Marine Engineering Design Integrity a Procedure Philosophy A-7-1 . III
A.F.BAHGAT (Alexandria University)
- A-7-2 Economic Factors at Standardization of Ship Hull Longitudinal Strength A-7-9 . III
A.I.MAXIMADJI (CNIIMF)
- A-7-3 Economical and Technological Aspects of Integrated Propulsion Systems A-7-15, III
M.HIRT, W.PINNEKAMP (RENK TACKE GmbH)

SESSION A-8 [GENERAL DESIGN & METHODOLOGY II]

- A-8-1 Application Engineering A-8-1 . III
O.GRØNE, P.ELM, B.JACOBSEN (MAN B&W Diesel A/S)
- A-8-2 New Concept of Propulsion System A-8-15, III
S.YABUKI, H.SHIBUYA, M.NAKAMURA
(Mitsui Engg. & Shipbuilding Co.,Ltd.)
- A-8-3 Mathematics Help to Introduce Quality Reserve in Marine Lubricant A-8-23, III
A.MONTAUD (ELF Research Center)
K.HOSONUMA (Kyodo Oil Technical Research Center Co.,Ltd.)
C.OUVRIER-BUFFET (Societe des Lubrifiants Elf Aquitaine)

SESSION B-1 [TRIBOLOGY & LUBRICATION SYSTEMS I]

Page .Vol.

- B-1-1 An Evaluation of Marine Diesel Cylinder Lubricants Under Extreme Operating Conditions B-1-1 . I
 B.H.CARTER, R.I.EDGAR (Castrol Research Laboratories)
- B-1-2 Application of Neutron Activation Analysis to Inspection of Wear of Diesel Engine B-1-9 . I
 M.OHNISHI, T.FUJITANI (Marine Technical College)
 A.MITSUMA, T.YAGI, A.TAMURA, N.SUDOH, H.MURATA, Y.NOJIRI
 (Institute for Sea Training)
- B-1-3 A New Way to Reduce the Friction and Wear of Cylinder Liners in Marine Diesel Engine B-1-15, I
 WANG FUSHAN, YANG LIEYU, SUN CHANGLI, WANG PENG,
 YANG DAOZHENG (Dalian Maritime University)
 HUANG YUSHAN, ZHONG JIWEI, MA JINGZHOU, LIU JUN, GAO DEFENG
 (Dalian Ocean Shipping Company)

SESSION B-2 [TRIBOLOGY & LUBRICATION SYSTEMS II]

- B-2-1 Safety, Performance and Future in the Cylinder Lubrication of Slow Speed Crosshead Engines B-2-1 . I
 H.D.SMITH, K.C.LIM (Castrol Limited)
- B-2-2 Diagnosis of Main Diesel Engine Wear by Ferrographic Oil Analysis B-2-13, I
 H.AOKI (Nippon Kaiji Kyokai Research Institute)
- B-2-3 Liner Wear and Fuel Particle Concentration Evaluation of some Shipboard Measurements B-2-21, I
 G.GROSSMANN (Technische Universitat Berlin)
- B-2-4 Spectrometric Oil Analysis of Marine Diesel Engine B-2-31, I
 S.YAMAGISHI, H.KATOH (Ship Research Institute)
 H.CHIBA (Mitsui O.S.K.Line,Ltd.)

SESSION B-4 [TRIBOLOGY & LUBRICATION SYSTEMS III]

- B-4-1 Fretting Damage and Fatigue of Steel in Fluctuating Tension B-4-1 . II
 J.SATO, M.SHIMA (Tokyo University of Mercantile Marine)
 K.ISOGAI (Institute for Sea Training)
 M.TAKEUCHI (Shimonoseki University of Fisheries)
 T.JIBIKI (Mitsui Engineering & Shipbuilding Co.,Ltd.)
- B-4-2 Marine Lubricants Performance : Simulation and Field Experience B-4-9 . II
 P.G.CASALE, G.LANE, D.DAVIDSON
 (Esso Petroleum Co.,Ltd.,Esso Research Centre)
- B-4-3 Comparison of Various Methods for Improving the Load-Carrying Capacity of Crosshead-Pin Bearing B-4-17, II
 Y.WAKURI, M.OHTSUBO (Kyushu University)
 T.HAMATAKE (Oita University)
 M.SOEJIMA (Kyushu Sangyo University)

SESSION B-5 [TRIBOLOGY & LUBRICATION SYSTEMS IV]

- B-5-1 Improvement of Piston Ring Load Carrying Capacity by Charging Air B-5-1 . II
 Y.TOKUNAGA, Y.NAKAMURA, K.SONODA
 (Kawasaki Heavy Industries,Ltd.)
- B-5-2 Piston Ring Scuffing as a Limit in Designing Future Diesel Engines B-5-9 . II
 H.NAKANO (The Hanshin Diesel Works, Ltd.)

- B-5-3 Synthetic Lubricants for High Output Medium-Speed Diesels B-5-17, II
 P.M.COANT, V.M.CAREY, A.K.GOYAL
 (Mobil Research & Development Corp.)
 J.GOES (Mobil Oil Francaise, Research Laboratory)
 A.EYRES (Mobil International Aviation & Marine Sales Corp.)
- B-5-4 An Investigation of Ceramic-metal Composite Coated Pistonring and
 Cylinderliner in Large Scale Marine Diesel Engines B-5-25, II
 M.TANAKA, Y.KITAJIMA, M.WATANABE, Y.ENDO, Y.NAGITA
 (Mitsui Engineering & Shipbuilding Co.,Ltd.)

SESSION B-6 [FUEL & COMBUSTION I]

- B-6-1 Handling and Treatment as well as Combustion of Heavy Fuel Oils
 - a Contribution Towards Fuel Management Systems B-6-1, II
 Hans-Joachim SIEDSCHLAG (Universitat Rostock)
- B-6-2 Engine Performance and Ignition Temperature of Alcohol and LCO Blended
 Fuels B-6-9, II
 S.MORIYA, N.ISSHIKI (Nihon University)
 T.ITO (Isuzu Advanced Engg.Center LTD.)
- B-6-3 Fuel Droplet Characteristics and Interfacial Heat Transfer B-6-15, II
 John H.LIN (National Taiwan Ocean University)
- B-6-4 Numerical Simulation on Combustion of Transient Sprays B-6-23, II
 T.TAKAGI, T.OKAMOTO, Ching Ying FANG (Osaka University)

SESSION B-7 [FUEL & COMBUSTION II]

- B-7-1 Study on Combustion of Low Grade Fuel Oils in Two-Stroke Marine Diesel
 Engines B-7-1, III
 T.TAKAISHI, K.TAKASAKI, T.FUKUYOSHI, S.MORI, K.GOTOU
 (Mitsubishi Heavy Industries,Ltd.)
- B-7-2 Investigations on the Influence of Emulsified Fuels on Diesel Engine Wear .. B-7-7, III
 S.GRZYWACZ, J.LISTEWNIK
 (Maritime University/Wyzsza Szkola Morska)

SESSION B-8 [FUEL & COMBUSTION III]

- B-8-1 Utilization of Water/Fuel Emulsions in High-Speed Diesel Engines
 - Prospects and Possibilities B-8-1, III
 V.A.VUNGIS, V.P.ZAKRZHEVSKY, V.V.DANSHIKOV (PO "Zvezda" Works)
 O.A.GLADKOV (Central Research Diesel Institute)
- B-8-2 The Combustion Characteristics of Emulsified F.C.C. Bottom Based
 Fuel Droplet B-8-9, III
 C.H.CHEN, John H.LIN (National Taiwan Ocean University)
- B-8-3 Determination of Dry Sludge and Petroleum Asphaltene in Heavy Oils by Dual
 Wavelength Spectrophotometry B-8-17, III
 S.SEKINE (Cosmo Trade and Service Co.,Ltd.)
 S.YAMAZOE, S.NAKAI, Y.FUKUI (Cosmo Research Institute)

SESSION C-1 [ENVIRONMENTAL PROBLEMS & TECHNIQUES I]

Page .Vol.

- C-1-1 Reduction of NOx and Smoke from Adiabatic Diesel Engine with Emulsion Fuel · C-1-1 . I
K.SHIODE, Y.MIYAGI, K.NISHIKAWA (Ship Research Institute)
- C-1-2 Emission Control for Medium Speed Diesel Engines in Marine Applications ... C-1-9 . I
G.HELLEN (Wartsila Diesel International Ltd.)
- C-1-3 Study into Reduction of NOx Emission in Medium-Speed Diesel Engines C-1-17. I
T.NAGAI, M.KAWAKAMI (Niigata Engineering Co.,Ltd.)
- C-1-4 Study of Some Correction Factors for Application to Stationary Diesel
Engine NOx Data C-1-25. I
H.KONDO, M.HARA, K.SESUMI (Daihatsu Diesel MFG Co.,Ltd.)

SESSION C-2 [FUTURE SCOPE OF DIESEL ENGINES]

- C-2-1 Research for the Better Performance at Middle & Low Speed Range on a High
B.M.E.P. Small Marine Diesel Engine C-2-1 . I
K.NAGAKURA, H.INABA, R.OHASHI (Yanmar Diesel Engine Co.,Ltd.)
- C-2-2 Sulzer RTA84C The Modern Containership Engine C-2-9 . I
K.AEBERLI (Sulzer Diesel Ltd.)
N.OHKUBO (Diesel United Ltd.)
- C-2-3 Slow Speed Diesel Engine Propulsion System for Passenger Ships C-2-17. I
I.DONOUE, M.WATANABE (Mitsubishi Heavy Industries, Ltd.)
- C-2-4 GenSet Technology C-2-25. I
O.SCHNOHR, O.GRØNE (MAN B&W Diesel A/S)

SESSION C-3 [HISTORICAL & PHILOSOPHICAL SCOPE OF TECHNOLOGY]

- C-3-1 A Historical View of the Two-Stroke Diesel Engine for Marine Use C-3-1 . II
T.KUSHIYAMA (Osaka Sangyo University)
Y.HIRAYAMA, K.TAYAMA, K.SHIMODA
(Mitsubishi Heavy Industries, Ltd.)
- C-3-2 Synergistic Cooperation in Technical Development C-3-9 . II
S.IZUMI (MEITEC Corp.)
Y.HIRAYAMA (Mitsubishi Heavy Industries, Ltd.)
H.IMAMURA (Mobil Sekiyu Co., Ltd.)
T.MAEDA (Ono Sokki Co., Ltd.)
- C-3-3 Japan's Marine Engineering and Shipbuilding Industry at the Take-off C-3-17. II
S.ISHIGAI (Osaka University)

SESSION C-4 [NEW TYPE DIESEL ENGINES I]

- C-4-1 Investigation on Combustion in a Medium-speed Marine Diesel Engine
Using a Rapid Compression Machine C-4-1 . II
S.NAKAMURA, A.TODOROKI, M.SUZUKI (NKK Corp.)
- C-4-2 The New MAN B&W Medium-Speed Engine Family-Proof of a Future-Oriented
Concept C-4-9 . II
H.G.BOZUNG (MAN B&W Diesel AG)
- C-4-3 Design Considerations for Major Components under the High Combustion
Pressure of Diesel Engines C-4-39. II
T.YOSHIKAWA, Y.ITOH, T.NAGAI (Niigata Engineering Co.,Ltd.)

SESSION C-5 [NEW TYPE DIESEL ENGINES II]

Page ,Vol.

- C-5-1 Advanced Propulsion System with Sulzer ZA40S Medium-Speed Engine C-5-1 , II
H.SCHMID (Sulzer Diesel Ltd.)
- C-5-2 Basic Tendencies of Development of Efficient Marine Engines with High Mean
Effective Pressure Produced by Production Association "Kolomensky Zavod" .. C-5-11, II
Nikitin E.A., Dekhovitch D.A. (P/O Kolomensky Zavod)
- C-5-3 Development of the 28/32 Gas Injection Engine C-5-21, II
T.BIWA, O.BEPPU (Mitsui Engg.& Shipbuilding Co.,Ltd.)
O.SCHNOHR, M.FOGH, O.GRÖNE, P.S.PEDERSEN (MAN B&W Diesel A/S)
- C-5-4 An Engine Room Simulator for Education and Its Application C-5-33, II
T.NAKAMURA (Marine Technical College)
Y.ARIMOTO, R.SAKAI (Terasaki Electric Co.,Ltd.)

SESSION C-6 [ENVIRONMENTAL PROBLEMS & TECHNIQUES II]

- C-6-1 The Application of Fly Ash and Slag to the Harbor Engineering C-6-1 , II
R.HUANG (National Taiwan Ocean University)
- C-6-2 Characteristics of Soot Formation and Decomposition from Diesel Engine C-6-9 , II
O.NISHIDA, H.FUJITA, W.HARANO
(Kobe University of Mercantile Marine)
- C-6-3 Marine Machinery Operations and Concern for the Environment C-6-17, II
P.HOLBROOK (Lloyd's Register of Shipping)
W.P.FABRIEK (Caleb Brett International Ltd.)

SESSION C-7 [HEAT & MASS FLOW I]

- C-7-1 Reduction of Remaining Water in Horizontal Pipes by Line Blowing C-7-1 , III
K.YAMAGUCHI, I.AYA, K.YAMANE (Ship Research Institute)
- C-7-2 Materials Discharge using Slurry Pumping Techniques C-7-9 , III
R.V.THOMPSON (The University of Newcastle upon Tyne)
- C-7-3 The Dynamics of Natural-Circulation Flow in a Bent Loop C-7-19, III
T.FUJII (Kobe University)
T.ISHIDA, K.AKAGAWA (Japan Atomic Energy Research Institute)
M.ISHIZUKA (Ryukoku University)

SESSION C-8 [HEAT & MASS FLOW II]

- C-8-1 Pressure Oscillation Due to Vapor Condensation in Liquid
(Effect of Vapor Outlet Condition in Condensation Oscillation) C-8-1 , III
T.TAKAMASA (Tokyo University of Mercantile Marine)
K.NAKAGAWA, K.OKUDA, N.IIJIMA (Institute for Sea Training)
- C-8-2 Flow Analysis for Marine Piping Networks Considering Energy Losses at Tee
Branches C-8-7 , III
T.TSUSHIMA (Kobe University of Mercantile Marine)
Y.MORIKAWA (Osaka Sangyo University)
- C-8-3 Available Energy Analysis on Heat Engines for Marine Use C-8-15, III
H.TAMAKI, T.HIRATA, M.ISHIKAWA, I.SUGAI (Shinshu University)

- D-1-1 Studies and Consideration on Marine Stirling Engines D-1-1 . I
 N.ISSHIKI, H.WATANABE, S.MORIYA (Nihon University)
 K.FUJIWARA (Aisin Seiki)
 S.TSUKAHARA (Ship Research Institute)
 T.MATSUMOTO (Furukawa Kikai Kinzoku)
- D-1-2 Dynamic Characteristics of Marine Stirling Engine by Computer Simulation .. D-1-7 . I
 S.TSUKAHARA, M.KUWABARA (Ship Research Institute)
 N.ISSHIKI (Nihon University)
- D-1-3 An Analysis of the Performance of Turbo-fan Engines in Marine Version D-1-15. I
 W.YONGHONG (Shanghai Jiaotong University)
- D-1-4 Performance Characteristics for a Small Stirling Engine Using One-Way
 Type Piston Ring D-1-21. I
 F.TODA, S.IWAMOTO, M.MATSUO (Saitama University)

SESSION D-2 [NEW MATERIALS FOR DIESEL ENGINES]

- D-2-1 Analytical Investigation on the Cooling of High Temperature Walls with
 a Two-Phase Mist Flow in Advanced Marine Power Systems D-2-1 . I
 S.NAMIE, T.OSANAI (Ship Research Institute)
- D-2-2 On the Insulation of Combustion Chamber with the Use of Porous Ceramics
 in Marine Diesel Engines D-2-7 . I
 T.KOMODA, J.FUJIMOTO, T.ICHIHASHI, M.WATANABE, Y.ENDOH
 (Mitsui Engineering & Shipbuilding Co.,Ltd.)
- D-2-3 Insulation of Combustion Chamber Components with Multi-ceramic Layers D-2-15. I
 S.ASHIDA, S.BABA, H.FUJIHARA, J.GOTOH, T.KUWAHARA, M.WADA
 (Hitachi Zosen Corp.)
- D-2-4 Development of Cylinder Liner D-2-23. I
 E.B.ANDERSEN, T.BIWA, T.FUKUDA, T.UYAMA, T.TANAKA
 (Mitsui Engineering & Shipbuilding Co.,Ltd.)

SESSION D-3 [APPLICATION OF COMPUTER & ELECTRONICS FOR DIESEL ENGINES I]

- D-3-1 Data Gathering and Analysis by Personal Computer for Main Propulsion System
 of Merchant Ships D-3-1 . II
 T.KAISE, M.HORIGOME (Tokyo University of Mercantile Marine)
- D-3-2 Modelling and Simulation of a Hydraulically Operated Gas Injection Valve
 Using Bond Graphs D-3-9 . II
 H.ENGJA, L.A.SKARBØ (Norwegian Institute of Technology)
- D-3-3 Preventive Control of Marine Machinery by Macroscopic Simulation D-3-17. II
 M.NUMANO, K.SHIODE, S.TSUKAHARA, Y.MURAYAMA
 (Ship Research Institute)

SESSION D-4 [APPLICATION OF COMPUTER & ELECTRONICS FOR DIESEL ENGINES II]

- D-4-1 Diesel Engine Simulation for Medium and Slow Speed Engines D-4-1 . II
 K.BANISOLEIMAN, Z.BAZARI, J.CARLTON
 (Lloyds Register of Shipping)
- D-4-2 Service Results of a Large Bore Diesel Engine with the Automatic Flexible
 Rating System D-4-3 . II
 N.YOSHIMURA, O.MOTOMURA, J.KONDOH, K.TAYAMA
 (Mitsubishi Heavy Industries.Ltd.)

- D-4-3 Simulation and Investigation on Two-Stroke Medium and Low Speed Marine Diesels Using MPC System D-4-11, II
 Gu HONGZHONG, Wu JINGCHUAN, Guo ZHONGCHAO
 (Shanghai Jiaotong University)

SESSION D-5 [APPLICATION OF COMPUTER & ELECTRONICS FOR DIESEL ENGINES III]

- D-5-1 Computer Control of Main Diesel Engine Speed for Merchant Ships D-5-1, II
 M.HORIGOME, M.HARA, T.HOTTA, K.OHTSU
 (Tokyo University of Mercantile Marine)
- D-5-2 Dynamic Control of the Engine of Ships D-5-9, II
 M.ITOH, T.OKAWA, H.MIZUNO (NKK Corp.)
 N.MIZUNO (Nagoya Institute of Technology)
 M.HORIGOME, K.OHTSU (Tokyo University of Mercantile Marine)
- D-5-3 Development of Mechatronic Timed Cylinder Lubrication System D-5-15, II
 H.TANAKA, Y.UEDA, H.SASAKI, Y.TAKAHATA, S.HOSOKAWA
 (Diesel United,Ltd.)
- D-5-4 Mathematical Model of Diesel Engines and Software for Optimal Readjustment of Engine Construction D-5-21, II
 Xinle JIA, Guofeng WANG (Dalian Maritime University)

SESSION D-6 [APPLICATION OF COMPUTER & ELECTRONICS FOR DIESEL ENGINES IV]

- D-6-1 Diesel Cycle Simulation for Evaluating Alternative Configurations of Achieving High Specific Output & Low Heat Rejection D-6-1, III
 J.K.SHARMA (Thapar Corporate R. & D. Centre)

SESSION D-7 [DEVELOPMENT & APPLICATIONS OF TURBO-CHARGERS I]

- D-7-1 Research on Highly Reliable Turbocharger D-7-1, III
 E.MATSUO, S.TANIGUCHI, B.NAGATA, Y.OKADA, M.TAGAWA
 (Mitsubishi Heavy Industries Ltd.)
- D-7-2 A Study on Supercharging System for Large Medium-Speed Diesels of New Generation D-7-9, III
 Wu JINGCHUAN, Gu HONGZHONG (Shanghai Jiaotong University)
- D-7-3 Energy Saving with High Efficiency IHI-BBC VTR..4E Turbocharger D-7-17, III
 H.AMMANN (ABB Turbo Systems Ltd.)
 K.WATANUKI, M.NAKAMURA, H.SATOH
 (Ishikawajima-Harima Heavy Industries.,Ltd.)

SESSION D-8 [DEVELOPMENT & APPLICATIONS OF TURBO-CHARGERS II]

- D-8-1 Development of MET-SR-VG Turbocharger Driven by Radial-Flow Turbine with Variable Geometry Nozzle D-8-1, III
 K.IMAKIIRE, M.KIMURA, E.MATSUO
 (Mitsubishi Heavy Industries,Ltd.)
- D-8-2 Sequential Turbocharging for PA 6 Engines D-8-9, III
 R.HERRMANN (S.E.M.T. Pielstick)
- D-8-3 Developments & Applications of Middle-Size Turbochargers, RH-3 Series, for Marine Engines D-8-17, III
 K.WATANUKI, M.NAKAMURA, Y.WAKAI
 (Ishikawajima-Harima Heavy Industries Co.,Ltd.)

SESSION E-1 [RELIABILITY & ITS APPLICATION]

Page .Vol.

- E-1-1 Statistical View on Machinery Failures Caused by Degraded Fuel Oil E-1-1 . I
H. SHIHARA, H. AOKI (Nippon Kaiji Kyokai)
- E-1-2 Can We Learn More from Diesel Engines Breakdowns? E-1-9 . I
Lars ALBERT, Jan STEFENSON (Chalmers Technical University)
- E-1-3 Higher Quality and Reliability in Cast Steel Crankshafts for Two-Stroke Diesel Engines E-1-17, I
J. YONEZAWA, M. KOBAYASHI, K. KAYAMA, H. KUBO (Kobe Steel, Ltd.)
- E-1-4 Statistics Analysis on Reliability and Maintainability of Refrigerated Container E-1-25, I
T. TANAKA (Yokohama National University)
S. KAMETANI (Marine Technical College)
M. HORIGOME (Tokyo University of Mercantile Marine)
S. TEZUKA (Toba Mercantile Marine College)

SESSION E-2 [ELECTRIC POWERING & GENERATING TECHNIQUES]

- E-2-1 Development of Mechanical Superposition Systems for Current Generation Aboard Vessels E-2-1 . I
R. E. PETER (RENK TACKE GmbH)
- E-2-2 Operation Characteristics of Shaft-Driven Generator at Motoring Operation Mode E-2-9 . I
H. TANIGUCHI, I. ASADA, S. ITANO, Y. MIZUTA
(Nishishiba Electric Co., Ltd.)
- E-2-3 A New Concept of a Continuous Surveillance System for Auxiliary Diesel Engine Driving Ship Generators E-2-17, I
S. GRZYWACZ, J. LISTEWNIAK (Maritime University/Wyzsza Szkola Morska)
- E-2-4 Fundamental Characteristics of Marine, Exciterless and Brushless, Synchronous Motors and Generators E-2-25, I
F. SHIBATA, N. NAOE, T. FUKAMI (Kanazawa Institute of Technology)

SESSION E-3 [INTEGRATED AUTOMATION FOR SHIPS]

- E-3-1 Integrated Automation System by The TDC 3000 BASIC System E-3-1 . II
R. MORI (Yamatake Honeywell Co., Ltd.)
- E-3-2 Integrated Control System for Ships with Many Maneuvering Effectors E-3-9 . II
H. YAMADA, H. OHNISHI (Kawasaki Heavy Industries, Ltd.)
- E-3-3 Totally Integrated Automation of North West Shelf-LNGC E-3-17, II
E. KOBAYASHI, T. KOJIMA, K. NAGAE, N. YOKOYAMA
(Mitsubishi Heavy Industries, Ltd.)

SESSION E-4 [ELECTRONIC CONTROL I]

- E-4-1 Electronically Controlled Diesel Engines E-4-1, II
K. TAYAMA, H. MIYANO, Y. IRIE, T. ARAI
(Mitsubishi Heavy Industries, Ltd.)
- E-4-2 Characteristics of SIT High Frequency Inverter for High-Intensity Ultrasonic Homogenizer E-4-9 . II
Y. HATANAKA (Tokyo University of Mercantile Marine)

- E-4-3 A Guide Line for Engine Mechatronics of Marine Diesel Engines based on
a Field Research and an Experiment E-4-17, II
T.AZUMA (Teikyo University)
Y.TAMORI (Yanmar Diesel Engine Co.,Ltd.)
I.HIGASHINO (Osaka City University)

SESSION E-5 [ELECTRIC & SUPER-CONDUCTIVE MAGNETIC PROPULSION]

- E-5-1 New Design Concept of Marine Multi-Engine Electric Propulsion Plant E-5-1, II
K.SHIMAMOTO, H.SHIMOKOCHI, M.KAWAKADO, T.MITA
(Mitsubishi Heavy Industries,Ltd.)
- E-5-2 Electric Power and Propulsion System E-5-9, II
K.NIWA, T.YOSHIDA (Fuji Electric Co.,Ltd.)
- E-5-3 Diesel-Electric Propulsion System of the Cruise Ship "CRYSTAL HARMONY" ... E-5-15, II
H.YONEYAMA, Y.OKADA, A.OHNO (Mitsubishi Heavy Industries,Ltd.)
Y.MURAKAMI (NYK LINE)
- E-5-4 Research of Superconducting Electro-Magnetic Propulsion Ships E-5-23, II
M.HASHII, C.MATSUYAMA, K.SHIMAMOTO, S.TAKEZAWA, K.IMAICHI
(Mitsubishi Heavy Industries,Ltd.)

Page ,Vol.

SESSION E-6 [ELECTRONIC CONTROL II]

- E-6-1 Computer-Aided Study of the Optimum Conditions of Use of Two-Stage
Turbocharged Marine Diesel Engine E-6-1, II
Jean-F.HETET, Jean-P.FRAYSRET
(Ecole Nationale Supérieure de Mécanique)
- E-6-2 Improvement of Diesel Engine Performance by a Hydraulically Powered
Electronic Control System
Part 1. Hydraulically Actuated Fuel Injection and Inlet/Exhaust
Valve Systems E-6-7, II
S.SATOH, K.SONODA, Y.TOHBE, H.KITADA, Y.NAKAMURA
(Kawasaki Heavy Industries,Ltd.)
T.ISHIYAMA (University of Tokushima)
- E-6-3 Improvement of Diesel Engine Performance by a Hydraulically Powered
Electronic Control System
Part 2. Electronic Control System E-6-15, II
T.KAJIMA, Y.KAWAMURA, Y.NAKAMURA
(Kawasaki Heavy Industries,Ltd.)
- E-6-4 Improvement of Diesel Engine Performance by a Hydraulically Powered
Electronic Control System
Part 3. Operation and Evaluation of Test Engine E-6-23, II
T.FUJII, Y.TOHBE, S.SATOH, K.SONODA, Y.NAKAMURA
(Kawasaki Heavy Industries,Ltd.)
T.ISHIYAMA (University of Tokushima)

SESSION E-7 [AUTOMATION TECHNIQUES & SHIP SYSTEMS I]

- E-7-1 A Development of Marine Electronic Governor Using Optimization Technique .. E-7-1, III
I.KISHIMOTO, T.MAEDA, I.SATOH (Nippon Air Brake Co.,Ltd.)
N.TAMURA (Kobe Steel,Ltd.)
- E-7-2 The CNC Ship E-7-9, III
D.PARO (Wartsila Diesel International Ltd.)

SESSION E-8 [AUTOMATION TECHNIQUES & SHIP SYSTEMS II]

Page .Vol.

- E-8-1 A Simple Method of Voyage Optimisation for Single Screw Motorships E-8-1 .III
G.GROSSMANN (Technische Universitat Berlin)
- E-8-2 Performance of Hull-Propeller-Diesel Engine Systems in Merchant Ships
Operating in Realistic Sea Conditions E-8-9 .III
A.F.Abdel MONEIM (The Arab Academy of Maritime Transport)
- E-8-3 Optimization of Lube-Oil Cleaning Systems Through Application of
Self-Adaptive Control Strategies E-8-17.III
A.B.PALLMAR (Alfa-Laval Separation AB)

SESSION F-1 [DIAGNOSIS TECHNIQUES FOR DIESEL ENGINES I]

- F-1-1 Development of Intelligent Engine Predictive Diagnosis System F-1-1 . I
T.TAKAISHI, Y.IZUMI, M.KOGA (Mitsubishi Heavy Industries,Ltd.)
- F-1-2 Development and Application of a PC Based System for the Study of
Diesel Engine Cycle to Cycle Variability F-1-9 . I
R.G.LATORRE (University of New Orleans)
D.CHARNEWS (US Merchant Marine Academy)
- F-1-3 Development of the Temperature Monitoring System for Crankpin Bearing of
Diesel Engines F-1-15. I
Y.UMEMOTO (Diesel United Ltd.)
- F-1-4 Expert System for Failure Diagnosis of Marine Diesel Engines F-1-21. I
K.FUJIYA, H.TANAKA, T.ASADA, T.YAMAMOTO (Hitachi Zosen Corporation)

SESSION F-2 [DIAGNOSIS TECHNIQUES FOR DIESEL ENGINES II]

- F-2-1 Investigations on the Fatigue Fracture Phenomena of Metallic Strength
Members of Mechanical Structures in the Compressive Range of the Fatigue
Limit Diagram F-2-1 . I
S.SUKOH (Tokyo University of Mercantile Marine)
- F-2-2 Study on Diagnostically Predicting System to Fuel Injection Nozzle and
Exhaust Valve with Analyzing Exhaust Gas Contents in Diesel Engines F-2-9 . I
K.TAKASAKI, T.TAKAISHI, S.MITSUI, T.FUKUYOSHI, K.GOTOH
(Mitsubishi Heavy Industries,Ltd.)
- F-2-3 New Diagnostic System of Marine Diesel Engine by Acoustic Sound
(Diagnosis of Gas Leakage of the Four-stroke Engine in a Running Ship) F-2-17. I
T.KATAGI, T.HASHIMOTO (Kobe University of Mercantile Marine)
K.INAMOTO (Nippon Noise Control,Ltd.)
K.MATSUSHITA, K.HIRABAYASHI (Yuge Mercantile Marine College)
- F-2-4 Some Considerations on A Synthesis System of Acoustic Sounds for Marine
Diesel Engine and its Application F-2-23. I
T.HASHIMOTO, T.KATAGI, K.SAKAMOTO, E.NOGUCHI, A.IGUCHI,
K.IKENISHI, K.MATSUSHITA, K.YAMAGUCHI, M.SUGIYAMA
(Kobe University of Mercantile Marine)

SESSION F-3 [RELIABILITY ANALYSIS I]

- F-3-1 Development of Computer Aided Predictive Maintenance System for Ship F-3-1 . II
S.HIEDA, Y.SUZUKI, Y.SHIMURA
(Ishikawajima-Harima Heavy Industries Co.,Ltd.)
- F-3-2 Trend Understanding Expert System NIIGATA TRUSTEX Based on Horonic Fuzzy
Reasoning F-3-9 . II
M.KURODA (Niigata Engineering Co.,Ltd.)
K.HIROTA (Hosey University)

- F-3-3 Quantitative Estimation of Factors Influencing Maintenance on Damaged Propulsive Shaftings F-3-15, II
M.OKA, H.SHIIHARA (Nippon Kaiji Kyokai)

SESSION F-4 [RELIABILITY ANALYSIS II]

- F-4-1 Study on Reliability with Proportional Hazards Model F-4-1 , II
T.FUKUDA, S.YUMOTO, H.SHIMIZU (Yokohama National University)
- F-4-2 Instrumental Means for Ship Stability Accident Prediction F-4-7 , II
Y.D.ZHUKOV (Nikolajev Shipbuilding Institute)
- F-4-3 Outline of Diesel Engine Plant and Automation System Reliability F-4-13, II
H.KIDO (Marine Technical College)

SESSION F-5 [MAN-MACHINE SYSTEMS & SHIP SAFETY]

- F-5-1 Bridge Manning at Night and Safety at Sea..... F-5-1 , II
A.TROUSSE (Bureau Veritas)
- F-5-2 Human Factor Assessment in Ship Safety F-5-9 , II
M.N.ALEXANDROV (Nikolajev Shipbuilding Institute)
- F-5-3 Training System of Fault Diagnosis for Marine Engine Plants F-5-13, II
Y.MIHARA, F.MURAKAMI, H.IWASAKI, M.KANDA
(Oshima National College of Maritime Technology)
- F-5-4 The Development of a Shipboard Computer Assisted Learning Package for Personnel on Liquefied Natural Gas Carriers F-5-21, II
D.J.HARROD (Australian Maritime College)

SESSION F-6 [VIBRATION & NOISE I]

- F-6-1 Noise Control in a Support Ship "Yokosuka" for a 6500m Deep Research Submersible F-6-1 , II
H.HASHIGUCHI, M.YAMAMOTO, M.ODA, M.HAYAMIZU, K.MATSUMOTO,
K.NOZAWA, T.SANO (Kawasaki Heavy Industries,Ltd.)
T.NAKANISHI (Japan Marine Science and Technology Center)
- F-6-2 Solving Alignment Problem by using Cubic Spline Curve Method F-6-9 , II
WEI Wei-Min (National Taiwan Ocean University)
- F-6-3 Study on SEA Method for High-Frequency Vibration Attenuation F-6-19, II
T.KIHARA (Ship Research Institute)
- F-6-4 String Vibrodampers F-6-27, II
A.F.GAL, I.Y.ZHEREBITSKIJ (Nikolajev Shipbuilding Institute)

SESSION F-7 [VIBRATION & NOISE II]

- F-7-1 A Time Domain Method for the Identification of Global Modal Parameters of A Mechanical Structure F-7-1 , III
Nong ZHANG, S.HAYAMA (The University of Tokyo)
- F-7-2 Elastic Suspension of Large Medium Speed Engines on Board Ships F-7-9 , III
P.BOUSSEAU (S.E.M.T.Pielstick)
- F-7-3 Reduction of Propeller Shaft Vibration of Ships F-7-17, III
K.AOYAGI, K.HATTORI, H.YOSHII (NKK Corp.)
S.HAYAMA (The University of Tokyo)

	Page	Vol.
SESSION F-8 [VIBRATION & NOISE III]		
F-8-1	Measurements of Vibrational Energy-Flow in some Structural Elements	F-8-1 .III
	K.HARANO, S.KANEMARU (Ship Research Institute)	
F-8-2	Noise and Vibrations in Marine Diesel Engines	F-8-7 .III
	A.ZUCCHI (Diesel Ricerche S.p.A.)	
SESSION G-1 [MARINE TRAFFIC I]		
G-1-1	The Effect of Rudder Control on the Motions Between Two Ships in Waves	G-1-1 .I
	Ming-Chnug FANG (National Cheng Kung University)	
G-1-2	An Intelligent Marine Traffic Evaluation System for Harbour and Waterway Designs	G-1-7 .I
	K.HASEGAWA (Osaka University)	
G-1-3	Simulation Laboratory for Research and Development of RVTS Methodologies ..	G-1-15. I
	R.BONO, F.CORRADI, A.SICCARDI, G.VERUGGIO (Consiglio Nazionale Ricerche)	
G-1-4	Optimization of Ship Traffic Flow in Restricted Waterways	G-1-23. I
	K.H.KWIK (University of Hamburg)	
SESSION G-2 [MARINE TRAFFIC II]		
G-2-1	Trends in Scale Distribution of Sea Disasters In and Near Japan Since 1945	G-2-1 .I
	S.ISHIGAI (Osaka University) K.KATO (Yasuda Fire and Marine Insurance Company)	
G-2-2	On the Mathematical Modelling of Maritime Traffic	G-2-9 .I
	M.CUNEO (IAN-CNR) M.PIATTELLI, G.TACCONI (Genoa University) A.TIANO (Modena University)	
G-2-3	Design and Implementation of Adaptive Autopilot for Ships	G-2-17. I
	Yang CHENGEN, Jia XINLE (Dalian Maritime University)	
SESSION G-3 [EXPERT SYSTEM & CAD/CAM I]		
G-3-1	An Integrated Approach to Marine Engineering Systems Design	G-3-1 .II
	Bård Meek-HANSEN (Norwegian Marine Technology Institute)	
G-3-2	Application of Artificial Intelligence(AI) Technology to Power Plant Design — Case Studies for a Marine Power Plant and a Land-use Cogeneration Plant —	G-3-9 .II
	S.AKAGI, K.FUJITA (Osaka University)	
G-3-3	Vessel : An Expert System for Ship and Machinery Condition Evaluation	G-3-17. II
	N.P.KYRTATOS, J.C.TSOLKAS (National Technical University of Athens)	
SESSION G-4 [EXPERT SYSTEM & CAD/CAM II]		
G-4-1	A Rational Method for Numerical Design of Marine Valves for Reducing Their Weight	G-4-1 .II
	M.IKAI, I.AYA (Ship Research Institute) S.AMADA (Gunma University)	
G-4-2	The Integration of Expert Systems in Ship Automation	G-4-7 .II
	John H.LIN (National Taiwan Ocean University)	

SESSION G-5 [OCEAN ENGINEERING & WAVE ENERGY CONVERSION]

Page .Vol.

- G-5-1 Robust Invariant Decoupling (RID) Control of the Underwater Manipulator Vehicle G-5-1 . II
I.K.MANDIC, J.MARASOVIC (University of Split)
I.HRBOKA (Shipbuilding Company "Split")
- G-5-2 Analysis of Batter Pile for Offshore Structure Subjected to Lateral Load .. G-5-9 . II
Y.L.TSAY (EBASCO-CTCI Corporation)
Ming-Te LIANG (National Taiwan Ocean University)
- G-5-3 Experimental Study on Energy Conversion from Wave Power; Single Valve with One-Way Air Flow Type G-5-15. II
K.ISHIDA, K.SAKADE, Y.NAKAGAWA, A.YASUDA
(Kobe University of Mercantile Marine)
- G-5-4 Characteristics of a Flap Type Wave Energy Converter G-5-23. II
S.SHIMODAIRA, M.ABE, H.MATSUNAGA, K.HASHINO
(The Kansai Electric Power Co.,Inc.)
M.KUROI (Hitati Zosen Corporation)
M.TAKATA (Kansai Design Company Ltd.)

SESSION G-7 [ENGINEERING OF MARINE STRUCTURES I]

- G-7-1 A Theoretical Study of the Morison Equation Used in Offshore Structures ... G-7-1 . III
Ming-Te LIANG (National Taiwan Ocean University)
- G-7-2 Fretting Wear of Titanium and Some Titanium Alloys in Seawater G-7-7 . III
M.TAKEUCHI, E.OSAKI (Shimonoseki University of Fisheries)
T.WATANABE (Nippon Steel Corp.)
J.SATO (Tokyo University of Mercantile Marine)

SESSION G-8 [ENGINEERING OF MARINE STRUCTURES II]

- G-8-1 Calculations of Maximum Work Loads on Some Coastal Structures G-8-1 . III
Chiou-Shui LEE, Jyh-Shyan CHERN
(National Taiwan Ocean University)
- G-8-2 A New Type Floating Caisson G-8-5 . III
G.D.GEORGIEV (Bulgarian Academy of Sciences Institute of Oceanology)
