

PROCEEDINGS OF THE FIRST INTERNATIONAL CONFERENCE ON TAILINGS  
& MINE WASTE '94 / FORT COLLINS, COLO. / USA / 19-21 JANUARY 1994

# Tailings & Mine Waste '94

**A.A. BALKEMA / ROTTERDAM / BROOKFIELD / 1994**

## Table of contents

Preface	IX
<i>Keynote lectures</i>	
Construction activities in flood plain tailings <i>J.A.Marjerison</i>	3
Hydrogeotechnics of clay liners for waste disposal <i>C.D.Shackelford</i>	9
Tailings transport and deposition <i>J.M.Link</i>	23
An assessment of hydrogeochemical computer codes applied to modeling post-mining pit water geochemistry <i>D.A.Bird, W.B.Lyons &amp; G.C.Miller</i>	31
<i>Regulatory framework</i>	
Legal framework for selection of cleanup standards at mining waste sites <i>G.L.Wurtzler</i>	43
The failure of CERCLA in addressing mine waste <i>A.J.Krause &amp; R.M.Eddy</i>	53
Regulatory and legislative developments in the management of waste generated by the mining industry and the impact of those developments on mining operations <i>R.Vinson</i>	61
An overview of regulatory requirements for discharge of stormwater runoff from active and inactive metal mining sites <i>T.Knostman</i>	69

## *Remediation and reclamation*

Soil and groundwater cleanup takes the gamble out of casino <i>T.S.Norman</i>	79
Planning to avoid CERCLA reclamation of mine waste <i>R.R.von Oppenfeld &amp; E.L.Hiser</i>	89
Remediation options for the Walker Mine site <i>N.L.Jackson, C.Oberholtzer, M.Henderson &amp; B.Croyle</i>	97
Geochemical processes within the Warm Springs Ponds, Anaconda, Montana <i>A.Evans, Jr &amp; R.L.Williamson</i>	109
In-situ x-ray fluorescence analysis at a mine site <i>L.Fluk, J.Pfeil &amp; B.Hooker</i>	119
Geotechnical aspects of dam safety improvements for two water treatment detention ponds – Warm Springs Ponds Operable Unit, Montana, USA <i>S.J.Pierce, D.M.Yadon, D.J.Miller &amp; A.C.Jewell</i>	127
The effects of limnological parameters on lime slurry treated water in large detention ponds <i>R.L.Williamson &amp; A.Evans, Jr</i>	137
Role of ecological risk assessment in reducing uncertainties in remedial decisions at mining waste sites <i>G.A.Pascoe</i>	147
Biological and chemical evaluation of remediation performed on metal bearing soils <i>J.C.Greene &amp; J.J.Barich, III</i>	157
Inplace tailings closure – The effective alternative <i>A.E.Lewis-Russ &amp; N.S.duPont</i>	167
 <i>Liners and covers</i>	
Using electrical resistivity for compaction control of compacted soil liners <i>Z.S.Abu Hassanien &amp; C.H.Benson</i>	177
Covering tailings – Some theoretical and practical aspects <i>C.Strachan</i>	189

<i>Design of tailings and mine waste facilities</i>	
Construction of access ramps and reclamation covers upon tailings impoundment surfaces <i>R.J.Frechette</i>	195
Leach pad liner stability on slopes – Two case histories <i>D.A.Poulter</i>	205
SPT/CPT correlations for mine tailings <i>B.F.Ulrich &amp; J.M.O.Hughes</i>	215
Operation of co-disposal of coal mine washery wastes <i>D.J.Williams &amp; M.J.Gowan</i>	225
Suspension of mined tailings in a gelled fluid <i>J.D.Grenia</i>	235
 <i>Groundwater modelling and surface water quality</i>	
The limnology of future pit lakes in Nevada: The importance of shape <i>W.B.Lyons, G.A.Doyle, R.C.Petersen &amp; E.E.Swanson</i>	245
4-D modeling in time of a heated injection fluid <i>M.E.Lovejoy &amp; J.Fairchild</i>	249
 Author index	 259
