

**Building Community Resilience for Flood Disaster
in the West Malaka Subdistrict of Malaka District in the West Timor Island
East Nusa Tenggara Province, Indonesia**

Dissertation

zur Erlangung des akademischen Grades doctor rerum naturalium (Dr.rer.nat.)

vorgelegt dem Rat der Chemisch-Geowissenschaftlichen Fakultät
der Friedrich-Schiller-Universität Jena

von M.Sc Apolonia Diana Sherly da Costa (Dipl. Geogr.)
geboren am 24.07.1988 in Baucau, Ost-Timor, Indonesien

I Chapter 1: Introduction to the Study	1
1.1 Overview of Human Geography as the Umbrella for Building Community Resilience for Flood Disaster in the Early Twenty-First Century	1
1.2 Background of the Study	4
1.3 Research Objectives and Research Questions	10
1.4 The Importance of the Study	10
1.5 Outline of the Study	11
1.6 Focus of the Study	15
1.7 Summary	25
II Chapter 2: Review of Related Literature	27
2.1 Discussion of Resilience and Building Resilience	27
2.2 Theoretical Approach to Community Resilience in the Context of Human-Social Geography	28
2.3 Understanding the Global Challenge and Coping with Flood	29
2.4 Vulnerability and Resilience-Exposure: A Perspective on the Flooding Disaster in West Malaka Subdistrict, East Nusa Tenggara Province, Indonesia	33
2.5 Disaster and the Critical Risk Assessment in West Malaka Subdistrict, East Nusa Tenggara Province, Indonesia	35
2.6 The Notion of Resilience	38
2.7 Understanding Sustainable Actions as General Framework and Specific Framework on Sustainable Livelihood Resources for Building Community Resilience for Flood Disaster	40
2.7.1 Understanding of Sustainable Actions as General Framework on the Economic and Policy Main Arena	40

2.7.2	Understanding Sustainable Actions as a Specific Framework for Community Livelihood Assets on Resilience.....	45
2.8	Sustainable Community Livelihood Resources and the Building of Community Resilience	49
2.8.1	Improve Human Capital to deal with a Flooding Disaster.....	49
2.8.2	Fostering Education on the Community’s Natural Capital and the Availability of Natural Capital in order to Build a System of Resiliency.....	50
2.8.3	Provide and Discuss the Information of the Use of Physical Capital	51
2.8.4	Empowering Economic Capital	52
2.8.5	Enlightening the Community – Ensuring Social Capital	53
2.8.6	Revitalization and Enlightenment of the Community’s Cultural Capital and Community’s Religion Capital.....	60
2.8.7	Educate and Promote the Importance of the Role of Political Capital for Building Community Resilience.....	70
2.8.8	Assess the Legal or Law Capital by Involving Community as a Decision Maker.....	70
2.9	Summary and Discussion.....	74
III Chapter 3: Research Site		77
3.1	Research Site in Overviews	77
3.2	The History of Geographic Site in West Malaka Subdistrict of East Nusa Tenggara Province, Indonesia	82
3.3	Physical and Social Characteristics of the Research Site	84
3.3.1	Population and Administration Data	86
3.3.2	Topography	86
3.3.3	Climate	88
3.4	Physical and Social Characteristics of the Benanain River (An Overview).....	89
3.4.1	The Sites of Benanain River	89
3.4.2	The Physical Overview of the Upstream, Middle-Stream, and Downstream Area of the Benanain River Watershed	90
3.4.3	The Social Overview of the Upstream, Middle-Stream, and Downstream Area Of the Benanain River Watershed	91
3.5	Summary and Discussion.....	93
IV Chapter 4: Research Methodologies.....		95
4.1	Discussion of the Research Methodology.....	95
4.2	Research Methodology of the Study	97
4.2.1	Research Outline	97
4.2.2	Data Requirement and Data Source	99
4.2.3	Data Collection.....	99
4.2.4	Fieldwork Equipment	100
4.2.5	Technique of Sampling	102
4.2.6	Research Method of Collecting the Data	102
4.2.7	Survey and Interviews and Research Questionnaire	103

4.2.8	Focus Group Discussion (FGD)	104
4.2.9	Stakeholder Meetings (SMEs)	105
4.2.10	Reflection and Assessment on Focus Group Discussion (FGD) And Stakeholder Meetings (SMEs)	107
4.3	Summary	109
 V Chapter 5: The Social Economic Data of the Households in the Research Site ..		110
5.1	The Components of the Households' Social and Economic Data	110
5.1.1	Gender	110
5.1.2	Age	114
5.1.3	Educational Level.....	116
5.1.4	Job (Source of Income)	119
5.1.5	Religion	122
5.3	Summary and Discussion.....	125
 VI Chapter 6: Building Community Resilience or <i>Nonagon Resources</i> through Survey and Interviews in the Research Site.....		127
6.1	Five Assets of Community Resilience (<i>Pentagon Resources</i>)	128
6.1.1	Introduction and Understanding of the Human Assets in Building Community Resilience	129
6.1.2	Natural Assets	137
6.1.3	Physical Assets	147
6.1.4	Social Assets	158
6.1.5	Economic Assets	160
6.2	Additional Applicable Assets of Community Resilience	167
6.2.1	Cultural Assets	169
6.2.2	Religion Assets	173
6.2.3	Law or Legal Assets	183
6.2.4	Political or Policy Assets	194
6.2	Summary and Discussion.....	199
 VII Chapter 7: Community-Based Disaster Risk Management		204
7.1	Introduction to the Preliminary Study of the Flood Characteristics and Community Assets	204
7.2	Disaster Risk Assessment and Discussion	208
7.3	Human Risk Perception in Relation to Flood Characteristics (Interviews)	209
7.3.1	Periodic Flooding	213
7.3.2	Duration of Flood.....	219
7.3.3	Flood Depth.....	223
7.3.4	Flood Distribution (River Buffer) in the Study Area	227
7.4	Community Assets on Resilience for Flood Risk and Flood Risk Profile	234

7.4.1 Lasaen Village as one of the highest prone in the Study Area	234
7.4.2 Umaloor Village as one of the highest prone in the Study Area	242
7.4.3 Besikama Village as one of the highest prone in the Study Area	249
7.5 The Distribution of Human Assets of Resilience Impacted by the Flood Risk in the Study Area	254
7.6 The Distribution of Natural Assets of Resilience Impacted by the Flood Risk in the Study Area	256
7.7 The Distribution of Physical Assets of Resilience Impacted by the Flood Risk in the Study Area	257
7.8 The Distribution of Social Assets of Resilience Impacted by the Flood Risk in the Study Area	259
7.9 The Distribution of Economic Assets of Resilience Impacted by the Flood Risk in the Study Area	261
7.10 The Distribution of Cultural Assets of Resilience Impacted by the Flood Risk in the Study Area	262
7.11 The Distribution of Religion Assets of Resilience Impacted by the Flood Risk in the Study Area	264
7.12 The Distribution of Law or Legal Assets of Resilience Impacted by the Flood Risk in the Study Area	265
7.13 The Distribution of Political Assets of Resilience Impacted by the Flood Risk in the Study Area.....	267
7.14 Summary and Discussion	269
VIII Chapter 8: Sustainable Livelihood Development Model	276
8.1 A Perceivable Ecological Integrity in Sustainable Livelihood Development Model	276
8.2 Three Components of the Sustainable Livelihood Development Model	277
8.3 Summary and Discussion.....	285
IX Chapter 9: The Assessment of Building Community Resilience Adjustment for Community Sustainable Development through Focus Group Discussion (FGD) and Stakeholders Meetings (SMEs)	288
9.1 The Assessment of Community Assets for Sustainable Development	290
9.2 Measuring Community Resilience Adjustment on Community Sustainable Action...	290
9.2.1 Human Resilience Adjustment (HRA): Assessment of Participative Talk on the Building Community Resilience	295
9.2.2 Natural Resilience Adjustment (NRA)	298
9.2.3 Physical Resilience Adjustment (PRA)	301
9.2.4 Social Resilience Adjustment (SRA)	303
9.2.5 Economic Resilience Adjustment (ERA)	306
9.2.6 Cultural Resilience Adjustment (CRA)	309

9.2.7 Religion Resilience Adjustment (RRA)	312
9.2.8 Law or Legal Resilience Adjustment (LRA)	314
9.2.9 Political or Policy Resilience Adjustment (PoIRA)	316
9.3 Summary and Discussion	318
X Chapter 10: Final Discussion, Conclusion of the Study and Recommendation for Further Study	326
10.1 Final Discussion	326
10.2 Conclusion of the Study: Findings Relating to Research Question and Research Objective 1 and 2	329
10.2.1 Findings of the Research Question and Research Objective 1: The Nine Assets or the <i>Nonagon</i> Resources on Building Community Resilience	332
10.2.2 Findings of the Research Question and Research Objective 2: The Community Risk Perception About the Risk Factors of Flooding (Flood Characteristics)	334
10.3 Recommendation for further Study	341
10.4 Summary	342
References	343
