

# Application of Structural Geology to Mineral and Energy Resources of the Central and Western United States

Edited by CHARLES H. THORMAN

Papers presented at a workshop sponsored by the U.S. Geological Survey,  
October 9-10, 1990, Colorado School of Mines, Golden, Colorado

U.S. GEOLOGICAL SURVEY BULLETIN 2012

# CONTENTS

[Letters designate chapters]

- (A) Microstructures in the Cambrian Bonnetterre Formation, Lamotte Sandstone, and basal clastic rocks of southeast Missouri and northeast Arkansas—Implications of regional sulfide occurrence in stylonolites and extensional veinlets for ore genesis, by S.F. Diehl, M.B. Goldhaber, C.D. Taylor, H.S. Swolfs, and C.A. Gent.
- (B) Tectonic controls on deposition and source-rock properties of the Woodford Shale, Anadarko Basin, Oklahoma—Loading, subsidence, and forebulge development, by Timothy C. Hester, James W. Schmoker, and Howard L. Sahl.
- (C) Sequential Laramide deformation of the Rocky Mountain foreland of southwestern Montana, Wyoming, and north-central Colorado, by William J. Perry, Jr., Douglas J. Nichols, Thaddeus S. Dyman, and Christopher J. Haley.
- (D) Influence of crustal structure on the course of the Arkansas River, south-central Colorado, by Ken Watson, Daniel H. Knepper, Jr., and Michael W. Webring.
- (E) Implications of gravity and seismic reflection data for Laramide mountain ranges and basins of Wyoming and southern Montana, by Stephen L. Robbins and John A. Grow.
- (F) Pre-late Eocene structures and their control of gold ore at the Drum Mine, west-central Utah, by C.J. Nutt and C.H. Thorman.
- (G) High-precision  $^{40}\text{Ar}/^{39}\text{Ar}$  geochronology, volcanic stratigraphy, and mineral deposits of Keg Mountain, west-central Utah, by Michael A. Shubat and Lawrence W. Snee.
- (H) Structural setting of the Chief Mining District, eastern Chief Range, Lincoln County, Nevada, by Peter D. Rowley, Lawrence W. Snee, Harald H. Mehnert, R. Ernest Anderson, Gary J. Axen, Kelly J. Burke, F. William Simonds, Ralph R. Shroba, and Stephen D. Olmore.
- (I) Extensional geometry in the northern Grant Range, east-central Nevada—Implications for oil deposits in Railroad Valley, by Karen Lund and L. Sue Beard.
- (J) Late Paleozoic structure of the southern part of the Uinta Basin, Utah, from seismic reflection data, by Christopher J. Potter, Rex Tang, and Timothy J. Hainsworth.
- (K) Audio-magneto-telluric investigation at Turkey Creek caldera, Chiricahua Mountains, southeastern Arizona, by Robert M. Senterfit and Douglas P. Klein.
- (L) Ash-flow calderas as structural controls of ore deposits—Recent work and future problems, by Peter W. Lipman.
