Contents

| | |
|--|-----|
| Preface | xi |
| International Overviews | |
| An Overview of Environment Canada's National Incinerator Testing and Evaluation Program (NITEP) <i>Abe Finkelstein</i> | 1 |
| Session 1A: Combustion I | |
| The Effect of Sulfur Compounds on the Formation Mechanism of PCDD and PCDF in Municipal Waste Combustors <i>Brian K. Gullett</i> | 16 |
| Role of Soot in the Transport of Chlorine in Hydrocarbon - Air Diffusion Flames <i>S. Venkatesh</i> | 35 |
| Control and Simulation of System Behaviors of Batch-Fed Solid Waste Incinerators <i>Jing T. Kuo</i> | 55 |
| Experimental Techniques to Study the Combustion Characteristics of Two Plastics Commonly Found in Municipal Wastes <i>Yiannis A. Levendis</i> | 72 |
| Session 1B: Ash Characterization | |
| An International Perspective on Ash from Municipal Waste Incinerators <i>A.J. Chandler</i> | 87 |
| Residue Leaching and Management Issues: An International Perspective (Abstract) <i>D.S. Kosson</i> | 95 |
| Major Findings of the U.S. EPA/CORRE MWC Ash Study <i>Haia K. Roffman</i> | 96 |
| A Summary of the National Incinerator Testing and Evaluation Program Ash Characterization and Solidification Studies (Abstract) <i>S.E. Sawell</i> | 124 |

Session 1C: Recent Dry Flue Gas Cleaning Experience I

- Overview of Air Pollution Controls for Municipal Waste Combustors *J.R. Donnelly* 125
- Toxic Metal Emissions from MWCs and Their Control
Theodore G. Brna 145
- Determination of Efficiency of Flue Gas Cleaning Systems on Municipal Solid Waste Incinerators in Denmark (Abstract)
Peter Blinksberg 162
- Two-and-a-Half Years Operating Experience at the Warren County Energy Resource Recovery Facility (Abstract)
Claus Jorgensen 164

Session 2A: Combustion II

- Development of Natural Gas Injection Technology for NO_x Reduction from Municipal Waste Combustors *Hamid A. Abbasi* 165
- Improving Combustion Conditions at RDF Facilities
Joseph J. Bacchi 182
- Montgomery County South Incinerator Test Project: Formation, Emission, and Control of Organic Pollutants *James D. Kilgroe* 190

Session 2B: Ash Treatment/Utilization I

- The U.S. EPA Program for Evaluation of Treatment and Utilization Technologies for Municipal Waste Combustion Residues *Carlton C. Wiles* 205
- A Comparison of Five Solidification/Stabilization Processes for Treatment of Municipal Waste Combustion Residues
Part I - Physical Testing *Teresa Holmes* 228
- A Comparison of Solidification/Stabilization Processes for Treatment of Municipal Waste Combustor Residues
Part II - Leaching Properties *David S. Kosson* 248

Session 2C: Recent Dry Flue Gas Cleaning Experience II

Operating Experience, and Emission Rates of Scrubber Baghouses, Scrubber ESPs, and Furnace Injection of Lime at RDF Facilities
J. Michael Smith 263

Comparison of SD/FF versus SD/ESP Systems for Acid Gas, Particulate, and CDD/CDF Control (Abstract) *David M. White* 268

Reduction of Dioxin and Heavy Metals by Semi-Dry Scrubber and Baghouse from MSW Incinerator *E. Shibuya* 269

Session 3A: Combustion III

Results and Future Plans for the ASME Research Committees' Program on Research of Fireside Problems in Municipal Waste Combustors (Abstract) *Robert E. Sommerland* 281

Conventional Refractory Lined Incinerator Upgrading to Meet the Requirements of the 1990s (Abstract) *Robert O'Connor* 282

Session 3B: Ash Disposal I

Assessment of the Environmental Impact of MSWI Ash Disposal in Bermuda (Abstract) *Ole Hjelm* 283

Incinerator Ash Disposal in the Tampa Bay Region
James C. Andrews, Jr. 284

Session 3C: Wet and Dry Flue Gas Cleaning Experience

Effective Control of Mercury and Other Pollutants from MWC Facilities by EDV Technology (Abstract) *Gerwyn Jones* 299

Gas Cleaning in Connection with Waste Incineration
Bjorn Lindquist 300

The Joint EC/EPA Mid-Connecticut Test Program: A Summary (Abstract) *J.D. Kilgroe* 312

Session 7B: Ash Treatment/Utilization II

- Environmental Issues Associated with the Use of MSW Combustor Ash in Asphalt Paving Mixes (Abstract) *Warren Chesner* 608
- Compactability of MSW Ash and Wastewater Sludge Mixtures for Landfill Codisposal *Jean Benoit* 609
- Processed Ash Demonstration Project *Douglas G. Mehan* 627
- The Neutralysis System *Robert S. Merdes* 642

Session 7C: Mercury Control

- Municipal Waste Combustors: A Survey of Mercury Emissions and Applicable Control Technologies *David M. White* 652
- Controlling Mercury Emissions from RDF Facilities (Abstract) *Gary Pierce* 663
- Mercury Emission Control *Christer Andersson* 664
- Control of Mercury and Dioxin Emissions from United States and European Municipal Solid Waste Incinerators by Spray Dryer Absorption Systems *B. Brown* 675

Session 8A: Municipal Waste Management II

- Municipal Solid Waste Incineration in the United Kingdom *D.W. Scott* 706
- Can a Waste Combustion Plant Improve the City Air Quality? (Abstract) *Antonio Bonomo* 723
- A Case Study of an Intergovernmental Success Story *John S. Hadfield* 724

Session 8B: Ash Leaching

- Analysis of Laboratory and Field Leachate Test Data for Ash from Twelve Municipal Solid Waste Combustors *Carol A. Andrews* 739

Leaching Behavior of Residues from Mass Burn and Refuse Derived
Fuel Incinerators *D.W. Sundstrom* 759

Chemical Composition of Ash-Monofill Leachates - Actual Field
Data *Haia K. Roffman* 775

Session 8C: Novel/Emerging Flue Gas Cleaning Technology II

Pilot Plant Tests to Obtain HCl and Hg Reduction in Emissions
Produced by a Municipal and Hospital Solid Waste Combustor
(Abstract) *Aulo Magagnoli* 795

Dry Scrubbing of Metals from Flue Gas (Abstract) *S.M. Crosley* 796

Retrofit Acid Gas Emission Control for Municipal Waste
Incineration: Application of Dry Sorbent Injection (Abstract)
Jan T. Zmuda 797

Session 9A: Sampling and Analysis I

Mercury Emission Monitoring on Municipal Waste Combustion
Hartmut Braun 798

A New Method for Sampling Halogenated Dioxins and Related
Compounds in Flue Gases *S. Marklund* 814

Characterization of Incinerator Stack Gas and Particle Emissions
Using a Plume Simulating Dilution Sampler (Abstract)
John A. Cooper 819

Session 9B: Economic and Social Issues

Municipal Solid Waste Incinerator Impacts on Residential Property
Values and Sales in Host Communities *Chris Zeiss* 821

Host Community Agreements: Terms and Trends (Abstract)
Margaret E. Gotthold 840

Session 9C: MSW Characteristics and Downstream Effects

Methodology for Size and Category Classification of MSW and the
Downstream Effects *J-P. Aittola* 841
