Contents

<i>Preface</i>	xi
<i>Acknowledgements</i>	xiii
<i>Authors</i>	xv
1 Introduction	1
1.1 <i>Uses of drystone retaining walls</i>	3
1.2 <i>Construction styles</i>	4
1.3 <i>Sustainability</i>	5
1.3.1 <i>Qualitative consideration of the sustainability of drystone retaining walls</i>	6
1.3.1.1 <i>Transportation of materials</i>	6
1.3.1.2 <i>Socioeconomic issues</i>	6
1.3.1.3 <i>Durability</i>	7
1.3.1.4 <i>Reusing the materials</i>	8
1.3.2 <i>How to measure the sustainability of drystone walls</i>	8
1.3.2.1 <i>Life cycle assessment</i>	8
1.3.2.2 <i>Comparison of drystone retaining wall with two conventional modern technologies</i>	12
1.4 <i>Summary</i>	18
2 An introduction to the behaviour of simple earth retaining structures	19
2.1 <i>The behaviour of soil</i>	19
2.2 <i>The fundamental requirements of a gravity retaining wall</i>	23
2.3 <i>Earth pressure calculations</i>	25
2.4 <i>Limit equilibrium analysis</i>	30
2.4.1 <i>Sliding</i>	33
2.4.2 <i>Bearing and overturning check</i>	36

2.4.3	<i>Effects of varying the geometry</i>	41
2.4.4	<i>The effect of loading on the ground surface</i>	43
2.5	<i>Yield analysis</i>	43
2.6	<i>Summary</i>	49
3	Behaviour of drystone retaining structures	51
3.1	<i>Transmission of forces within a drystone wall</i>	51
3.2	<i>The effect of loading at the ground surface</i>	52
3.3	<i>The effect of the rough back face</i>	52
3.4	<i>Overturning behaviour</i>	53
3.5	<i>Wall deformations and their implications</i>	55
3.6	<i>Bulging</i>	61
3.6.1	<i>Two-dimensional bulging</i>	61
3.6.2	<i>Three-dimensional bulging</i>	62
3.7	<i>Tensile strength</i>	63
3.8	<i>Vertically orientated stones and bending resistance</i>	65
3.9	<i>Construction styles using rounded stones</i>	66
3.10	<i>The effects of a tightly constructed face</i>	67
3.11	<i>Summary</i>	68
4	Analysis and design	69
4.1	<i>Ensuring safety</i>	69
4.2	<i>The distinction between analysis and design</i>	70
4.3	<i>The distinct element method</i>	70
4.4	<i>Limit equilibrium analysis</i>	73
4.4.1	<i>Monolithic wall analysis</i>	73
4.4.1.1	<i>Wall stability against sliding</i>	74
4.4.1.2	<i>Wall stability against overturning</i>	75
4.4.2	<i>Multiblock wall analysis</i>	75
4.5	<i>Yield design analysis</i>	77
4.6	<i>Design charts</i>	83
4.6.1	<i>Utilisation of design charts</i>	84
4.6.2	<i>Graphical comparison between the results of limit equilibrium and yield design</i>	85
4.7	<i>Summary of analytical methods</i>	86
5	Construction	87
5.1	<i>Building in drystone</i>	87
5.1.1	<i>Environment</i>	87
5.1.2	<i>Material</i>	87

	5.1.2.1	<i>Geological considerations</i>	88
	5.1.2.2	<i>The supply of stone</i>	89
5.2		<i>Building a drystone retaining wall</i>	89
	5.2.1	<i>The different elements of a drystone wall</i>	89
	5.2.1.1	<i>Arrangement of stone</i>	89
	5.2.1.2	<i>The parts of a wall</i>	94
	5.2.1.3	<i>Categories of stones in the wall</i>	96
	5.2.1.4	<i>The faces of a stone</i>	99
	5.2.2	<i>Organisation of the construction site</i>	99
	5.2.2.1	<i>Preliminary site preparation</i>	99
	5.2.2.2	<i>Foundation preparation and earthmoving</i>	101
	5.2.2.3	<i>Delivery to site and sorting of materials</i>	103
	5.2.2.4	<i>Preparation of the surface of the foundation</i>	104
	5.2.2.5	<i>Dimensional control</i>	108
	5.2.3	<i>Construction rules</i>	110
	5.2.3.1	<i>Determination of the batter</i>	110
	5.2.3.2	<i>General principles of construction</i>	111
	5.2.4	<i>Raising the wall</i>	113
	5.2.4.1	<i>Foundations</i>	113
	5.2.4.2	<i>The wall itself</i>	115
	5.2.4.3	<i>The coping</i>	121
	5.2.4.4	<i>The backfilling</i>	122
	5.2.4.5	<i>End of the work</i>	123
5.3		<i>Summary</i>	123
		<i>Acknowledgements</i>	123
6		Assessment	125
6.1		<i>The scope and purposes of assessment</i>	126
	6.1.1	<i>Definition of function</i>	126
	6.1.2	<i>Definition of need</i>	128
	6.1.3	<i>Definition of information required</i>	130
6.2		<i>Methods of assessment – observation and interpretation</i>	131
	6.2.1	<i>The stone itself</i>	131
	6.2.2	<i>Geometry</i>	133
	6.2.3	<i>Details of the construction</i>	134
	6.2.4	<i>Defects</i>	139
6.3		<i>Summary</i>	143
		<i>Appendix: Design charts – to enable initial sizing</i>	147
		<i>References</i>	159
		<i>Index</i>	163
