

Matthias Kuehle-Weidemeier (ed.)

WASTE-TO-RESOURCES 2019
VIII INTERNATIONAL SYMPOSIUM
MBT, MRF AND RECYCLING

Resources and Energy from Waste

Proceedings

14th -16th of May 2019

Organisers

Gold Sponsor

Silver Sponsor

Content

I MBT and Recycling

- Potential of waste management to achieve the recycling rates of the EU Waste Framework Directive** 1
Bertram Zwisele, Carsten Böhm, ARGUS – Statistik und Informationssysteme in Umwelt und Gesundheit GmbH, (Statistics and Information Systems in Environment and Public Health), Berlin, Germany
- Recycling Region Harz – The Education Offensive** 14
Petra Hauschild and Jürgen Poerschke, University of Applied Sciences in Nordhausen, Germany
- Zero Waste: Material recovery instead of incineration and landfilling of MBT output fractions. The way it technically and economically works** 21
M. Kuehle-Weidemeier, ICP Ingenieurgesellschaft Prof. Czurda & Partner mbH, Karlsruhe / Wasteconsult international, Langenhagen, Germany

II Climate protection by circular economy

- Recycling Instead of Landfilling – a Contribution to Climate Protection** 38
Werner P. Bauer, WtERT Germany GmbH, Munich, Germany
- Waste management and climate protection internationally – Cooperation for sustainable waste management in Brazil** 49
Cora Buchenberger, Christiane Pereira, Klaus Fricke, Technische Universität Braunschweig, Leichtweiß-Institut für Wasserbau, Abteilung Abfall- und Ressourcenwirtschaft, Braunschweig, Germany
- GHG reduction in waste management in Brazil: Life cycle and IPCC approaches and its preliminary results** 57
Hélinah Cardoso Moreira, Jürgen Giegrich, Tathiana A. Seraval, Flávio Ravier Viana de Assis, Deutsche Gesellschaft für die Internationale Zusammenarbeit – GIZ GmbH, Brasília, Brasil, Institute for Energy and Environmental Research – ifeu-Institut, Heidelberg, Germany, Methanum Energy and Waste - Belo Horizonte, MG, Brasil

III Current plants and system concepts

- Taking Waste Management in Hamburg to the Next Level – Construction of a Centre for Resources and Energy** 71
Heinz-Gerd Aschhoff, Ronja Grumbrecht and Verena Höck, adtreinigung Hamburg, Germany
- New Material-From-Waste facility in PARIS 17** 83
Christophe CORD'HOMME, CNIM Group, Paris, France

1.5 years experience with 1,000 t/d MBT in Mumbai (India)	95
<i>Aurel Lübke and Bernhard Gamerith, Compost Systems, Wels, Österreich</i>	
<u>IV Concepts for circular economy</u>	
DERIVING LESSONS FOR SOLID WASTE MANAGEMENT SECTOR IN INDIA FROM EXPERIENCES OF GERMANY	107
<i>Sugandh.S., Weichgrebe.D, Institute for Urban Water Management and Waste Technology, Gottfried Wilhelm Leibniz University Hannover, 30167 Hannover, Germany</i>	
<u>V Liquefaction and carbonation of waste</u>	
Hydrothermal Carbonization (HTC) and Vaporthermal Carbonization (VTC). Key technologies in global waste management	109
<i>Alfons Kuhles, GRENOL GmbH, Ratingen, Germany</i>	
How to REACH Circular Economy – Liquid Resources from SRF to Feed BASF Production	119
<i>Nicole Karpensky and Christian Haupts, RECENSO GmbH, Remscheid, Germany</i>	
<u>VI Waste analysis</u>	
Real-time analytics to determine the quality of input in waste pre-treatment plants.	130
<i>Thomas Weißenbach, Roland Pomberger, Renato Sarc, Chair of Waste Processing Technology and Waste Management, Montanuniversitaet Leoben, Austria</i>	
<u>VII Production, optimization and utilization of alternative fuels</u>	
Production of alternative fuels from municipal solid waste in Latin America – Possibilities and Challenges	139
<i>Rafaela Craizer, BlackForest Solutions GmbH, Berlin, Germany</i>	
Sorting process and energy recovery possibilities of hospital waste in Brazil by the hospital association in Porto Alegre	151
<i>Silvia Kohlmann, envitecpro GmbH, Rostock, Germany</i>	
Biological Drying of MSW for RDF production in MBT plants with membrane covered boxes plus biofilter	159
<i>Axel Huber, STRABAG Umwelttechnik GmbH, Dresden, Germany</i>	
USE OF SRF (SOLID RECOVERED FUEL) AND RDF (REFUSE DERIVED FUEL) IN EUROPE – RECORD project	169
Literature review and administrative situations encountered in the field	
<i>LE BIHAN Mathilde, MICHEL Frédéric, DE CAEVEL Bernard, RDC Environment, Brussels, Belgium</i>	

Small and medium size power plants for a decentralized treatment of RDF and industrial waste	181
<i>Christian Eder, Wehrle Werk AG, Germany</i>	
Waste materials effect the implementation of new exhaust gas purification techniques in plants of the Austrian cement industry	192
<i>Gerd Mauschwitz, Thomas Laminger, TU Wien, Austria</i>	
Separation of the Fine Fraction to Improve the SRF Quality - Possibilities and Effects	201
<i>Alexander Curtis, Roland Pomberger, Renato Sarc, Chair of Waste Processing Technology and Waste Management, Montanuniversitaet Leoben, Leoben, Austria</i>	
Co-processing as a tool for Sustainable Waste Management in Brazil	213
<i>Christiane Pereira, Cora Buchenberger, Klaus Fricke, Olga Kasper, Hubert Baier, Alaim Silva de Paula, Technische Universität Braunschweig, Leichtweiß-Institut für Wasserbau, Abteilung Abfall- und Ressourcenwirtschaft, Braunschweig, Germany</i>	
Comparison of temperature driven and oxygen concentration driven aeration method during biodrying of mixed municipal solid waste	225
<i>Vojtěch Pilnáček, -Institute for Environmental Studies, Faculty of Science, Charles University in Prague, Czech Republic</i>	
Optimizing secondary fuel combustion in cement production by NIR spectroscopy	239
<i>Leo Fit, Jost Lemke, Reinhard Teutenberg, Samuel Zühlsdorf, thyssenkrupp Industrial Solutions AG, Beckum, Germany</i> <i>Carsten Steckert, LLA Instruments GmbH & Co. KG, Berlin, Germany</i>	
<u>VIII Fire safety and occupational safety in waste treatment and recycling plants</u>	
Mould and Dust at Workplaces in Waste Management – State of the Art in 2019	245
<i>Thomas Missel, Laboratory for Occupational and Environmental Hygiene, Isernhagen / Hanover, Germany</i>	
<u>IX Organic waste fractions and anaerobic waste treatment</u>	
Food Waste Statistics in Slovenia	256
<i>Statistical Office of the Republic of Slovenia, Ljubljana, Slovenia</i>	

Quantitative Survey of Organic Waste Generated In Oman and the Feasibility for Usage in Biogas Production Plants. 269

Al-Hosni, Suad, Oman Environmental Services Holding Company (be'ah), Al Azaiba, Muscat, Sultanate of Oman

Mechanical wet pre-treatment efficiency of OFMSW for biogas production 282

Alice do Carmo Precci Lopes, Wolfgang Müller, Anke Bockreis, Universität Innsbruck, Innsbruck, Austria

X Biogas

Biological desulphurisation filter for biogas 291

Claus Bogenrieder and Andreas Maile, Züblin Umwelttechnik GmbH, Stuttgart; STRABAG Umwelttechnik GmbH, Düsseldorf

Regional concepts for a direct valorization of biogas - Case studies in Austria and Canada 305

Kübler, Hans; Pellegrini, Roland; Rahn, Torsten; Schulte, Stephan, BTA International GmbH, Pfaffenhofen an der Ilm, Germany

XI Lechate from waste treatment

Treatment of Waste Derived Liquids 314

Bernd Fitzke, Frank Natau, WEHRLE Umwelt GmbH, Emmendingen, Germany

XII Plastics and other waste fractions

First Investigation of the Occurring Stresses During the Collection, Transport and Unloading of Waste Electrical and Electronic Equipment 327

Ralf Brüning and Julia Wolf, Dr. Brüning Engineering UG, Brake, Germany

XIII Processing and recycling of mineral waste

Use of air-separation tables for density sorting of waste materials 334

A.P. Kindler, J.J. Cebrian de la Torre and M. Trojosky, Allgaier Process Technology GmbH, Forschung und Entwicklung, Uhingen, Germany

Waste glass reuse in geopolymer binder prepared by combining fly ash and metakaolin 341

Abdelhadi BOUCHIKHI, Mahfoud BENZERZOUR, Nor-Edine ABRIAK1, Walid MAHERZI, Yannick MAMINDY-PAJANY, IMT Lille Douai, LGCgE-GCE, Douai, France, Université de Lille, France
