Game Design

A Design of Multifunctional Interfaces to Control Game Screens ............ 3
   Carolina Enríquez and Danilo Saravia

Who Is at the Center?: Designing Playful Experiences by Using Player-Centered Approach .................................................. 11
   Cenk Köknar

Developing Design Frameworks and Applications for Future Technologies Through Video Game Representations ........................................ 22
   Amelia Lambeth, Maribeth Gandy Coleman, and Laura Levy

Benevolent Deception in Exergame Design ........................................ 35
   Xiuping Li, Danqing Shi, and Sheng Wang

Unfathomed Voyager: The Design of Real-Life Cooperation Game ............ 47
   Boyi Liu and Matthew Bofenkamp

Fostering Interactivity Through Analogue Principles Applicable to Design of Virtual Reality Games .............................................. 57
   Jaroslav Vančát and Daniel Říha

“Naughty AlphaGo”: Transforming the Game of Computer Go into an Emotional Tangible Playground .............................................. 67
   Shuchang Xu, Yilin Zhu, Chunhui Yang, and Danqing Shi

Gaming Experience

Playful-Consumption Experience and Consumer Videogame Engagement in the Lens of S-R Model: An Empirical Study .......................... 85
   Amir Zaib Abbasi, Ding Hooi Ting, Helmut Hlavacs, Muhammad Shahzeb Fayyaz, and Bradley Wilson

Affective Video Games: A Systematic Mapping Study .......................... 105
   Christian Delgado, Diego M. López, and Carolina Rico-Olarte

Analysis of Motivation Model Using Real User Data from Social Games for Smartphones Extended to Social Factors Based on Maslow’s Hierarchy of Needs ............................................................... 114
   Masanari Himeno and Shunichi Tano
Increasing Motivation for Playing Blockchain Games
Using Proof-of-Achievement Algorithm ........................................ 125
Kosuke Komiya and Tatsuo Nakajima

Video Game Playing Enhances Young Children’s Inhibitory Control .... 141
Xiaocen Liu, Mengying Liao, and Donghui Dou

Yuri Game: Romance and Characterization in Gameplay .................. 154
Yueqian Liu

Conceptualizing Fidelity for HCI in Applied Gaming ..................... 165
Heide Lukosch, Stephan Lukosch, Simon Hoermann, and Robert W. Lindeman

The Strategic Use of Smartphone Features to Create
a Gaming Experience of Mystery: The Mind Alone Case ................ 180
Vicente Martin Mastrocola

Digital Game Enjoyment: A Literature Review ............................. 191
Owen Schaffer and Xiaowen Fang

Social Spending: An Empirical Study on Peer Pressure
and Player Spending in Games .................................................. 215
William Wang and Loutfouz Zaman

The Effects of Immersion in a Virtual Reality Game:
Presence and Physical Activity .............................................. 234
Shengjie Yao and Gyoung Kim

Serious Games

Development and Usability of a Low-Cost Kinect Game
to Promote Movement Competence in Children with
and Without Intellectual Disability ......................................... 245
Toyin Ajisafe, Rahul Bethi, Scott A. King, and Ajay Katangur

Games for a Good Cause: Serious Games in Social Development
and Medical and Rehabilitation Therapy ................................... 265
Badar Al Lawati

Realizing User Privacy and Security Issues in Edutainment e-Solutions .... 278
Osama A. Alsaadoun and Badar Al Lawati

How a Tangible User Interface Contributes to Desired
Learning Outcomes of the Virtual River Serious Game ............... 288
Robert-Jan den Haan, Jelle van Dijk, Fedor Baart,
Mascha van der Voort, and Suzanne Hulscher
Digital Empathic Games and Their Relation with Mortality: Analysis of Discussion Forums

Danilo Barros dos Santos, Cristiano Maciel, Vinicius Carvalho Pereira, and Eunice Pereira dos Santos Nunes

To the Mun: Kerbal Space Program as Playful, Educational Experience

Stephen Mallory

Interaction Techniques in Three-Dimensional Virtual Environments Based on Games to Support Chronic Diseases Treatment: A Systematic Review

Eunice P. dos Santos Nunes, Gabriel A. Gutierrez, Dayany A. C. Santos, José Viterbo, Daniela Trevisan, Cristiano Maciel, and Luciana C. Lima de Faria Borges

Developing Entrepreneurship Skills with a Serious Game

Carlos Vaz de Carvalho, Ricardo Costa, Pedro Bessa, Leire Monterrubio, and Jaione Santos

Research on the Design to Alleviate University Students’ Oppressive Emotions Through the Use of Serious Games

Dian Zhu, Ting Han, Jingran He, Zishan Song, and Chufan Jin

Gamification

Gamification Framework: The Contribution of User Centered Design, Social Media Applications, Gaming and Psychology Concepts and Frameworks

Abdullah Azhari

Small Business Owners Handle Website Design Effectively Using Gamification

Klaudia Fisheku, Fan Zhao, and Eugene Hoyt

Gamification in Mobile Application Development Education

Yuchen Gui, Fan Zhao, and Eugene Hoyt

Gamification of In-Flight Entertainment (IFE) to Motivate People to Relax: A Case Design

Tao Shen, Yuchen Weng, and Ting Han

“Who’s Texting?” – Playful Game Experiences for Learning to Cope with Online Risks

Tarja Susi and Niklas Torstensson
Encourage Self-exploration Through an Interactive Chinese Scroll Painting Design ................................................. 442
   Nan Wang, Jiayin Li, Qingyuan Shi, Danqing Shi, and Haipeng Mi

Rewards in Gamification .................................................. 453
   Fan Zhao and Dahai Guo

Author Index ................................................................. 463
