

APPLIED STATISTICS FOR ENVIRONMENTAL SCIENCE WITH R

ABBAS F. M. ALKARKHI
WASIN A. A. ALQARAGHULI

Contents

Preface	ix	5.3 Common Steps for Hypothesis Testing	58
1. Multivariate Data		5.4 Hypothesis Testing for a Mean Value	61
Learning Objectives	1	5.5 Hypothesis Testing for Two Population Means	75
1.1 The Concept of Environmental Statistics	1	Further Reading	85
1.2 The Concept of Multivariate Analysis	1	6. Multivariate Analysis of Variance	
1.3 Configuration of Multivariate Data	2	Learning Objectives	87
1.4 Examples of Multivariate Data	2	6.1 Introduction	87
1.5 Multivariate Normal Distribution	9	6.2 Analysis of Variance in R	87
Further Reading	10	6.3 The Concept of Analysis of Variance	88
2. R Statistical Software		6.4 The Concept of Multivariate Analysis of Variance	100
Learning Objectives	11	Further Reading	112
2.1 Introduction	11	7. Regression Analysis	
2.2 Installing R	12	Learning Objectives	113
2.3 The R Console	15	7.1 The Concept of Regression Analysis	113
2.4 Expression and Assignment in R	16	7.2 Regression Models in R	114
2.5 Variables and Vectors in R	18	7.3 The Concept of Simple Linear Regression Model	114
2.6 Basic Definitions	22	7.4 Multiple Linear Regression Model	127
2.7 Plots in R	23	7.5 Hypothesis Testing for Multiple Linear Regression	128
2.8 RStudio	24	7.6 Adjusted Coefficient of Determination	129
2.9 Importing Data	26	7.7 Multivariate Multiple Linear Regression Model	131
Further Reading	27	Further Readings	132
3. Statistical Notions		8. Principal Components	
Learning Objectives	29	Learning Objectives	133
3.1 Introduction	29	8.1 Introduction	133
3.2 The Concept of Statistics	29	8.2 Principal Components Analysis in R	133
3.3 Common Concepts	30	8.3 Describing Principal Components	135
3.4 Data Gathering	31	8.4 Common Procedure for Computing Principal Components	136
3.5 Sampling Methods	31	8.5 Extract Principal Components from Correlation Matrix	136
Further Reading	33	8.6 Standardization	136
4. Measures of Center and Variation		8.7 Selecting the Number of Components	137
Learning Objectives	35	Further Reading	149
4.1 Introduction	35	9. Factor Analysis	
4.2 Measures of Center and Dispersion in R	36	Learning Objectives	151
4.3 Measures of Center	37	9.1 Introduction	151
4.4 Measure of Variation	42	9.2 Factor Analysis in R	151
4.5 The Concept of Covariance	43	9.3 General Model for Factor Analysis	152
4.6 Correlation Analysis	44	9.4 Common Steps for Factor Analysis	153
4.7 Scatter Diagram	49	Further Reading	171
4.8 Euclidean Distance	53	10. Discriminant Analysis	
Further Reading	55	Learning Objectives	173
5. Statistical Hypothesis Testing		10.1 Introduction	173
Learning Objectives	57	10.2 Discriminant Analysis in R	173
5.1 Introduction	57		
5.2 Statistical Hypothesis Testing in R	57		

10.3 Configuration of Discriminant Analysis Data	175	11.2 Cluster Analysis in R	191
10.4 The Concept of Discriminant Function	175	11.3 Measures of Distance	192
10.5 Allocation	177	11.4 Clustering Procedures	193
Further Reading	190	Further Reading	204
11. Clustering Approaches		Appendix	205
Learning Objectives	191	Index	227
11.1 What is Cluster Analysis?	191
