TABLE OF CONTENTS

List of Figures ..... *xi*
List of Tables ..... *xv*
Preface ..... *xvii*

Chapter 1 Introduction to Biofuels **1**
1.1 An Introduction 2
1.2 History of Biofuels 3
1.3 Biofuels and Light in the Early Years 6
1.4 1890 – 1916: Biofuels in Germany 7
1.5 1906 Repeal on Biofuel Tax in The US 8
1.6 1907 – 1930S: British and The Biofuels 9
1.7 Biofuels Programs 1900 – 1930S in France 10
1.8 Biofuels and its Categories 10
1.9 Case Study: The Smallholder Model of Biofuel Production in Tanzania 20
References 23

Chapter 2 Chemistry of Biofuels **25**
2.1 Introduction 26
2.2 Biofuels: First-Generation 28
2.3 Biofuels: Second-Generation 31
2.4 Biodiesel and Diesel 39
2.5 Ethanol, Butanol, and Gasoline 43
2.6 Case Study: Green Chemistry - Biodiesel Made With Vegetable Oil ... 46
References 50

Chapter 3 Classification of Biofuels **51**
3.1 Introduction to Biofuels 52
3.2 Division and Categorisation of Biofuels 53

3.3 First Generation Biofuels 57
3.4 Second Generation Biofuels 61
3.5 Third Generation Biofuels 67
3.6 Types of Biofuels that Make the Difference 70
3.7 Case Study: Renewable and Sustainable Fuel From the Prairie 76
References 80

Chapter 4 First Generation Biofuels 81
4.1 Introduction 82
4.2 Food Crops as Source of Origin 83
4.3 Current Status of Biofuels Worldwide 88
4.4 Constraints and Concerns 88
4.5 Burning of Fuels: A Concern For Environment 89
4.6 Algal Biofuel 90
4.7 First Generation Biofuels 93
4.8 Increasing Demand of Sustainable Biofuels 95
4.9 First Generation Biofuels: History 97
4.10 Conclusion 98
4.11 Case Study 100
References 104

Chapter 5 Second Generation Biofuels 107
5.1 Introduction 108
5.2 Second Generation Biofuels 110
5.3 Potential Feedstock For Second Generation Biofuels 111
5.4 Conversion Processes For Second Generation Biofuels 114
5.5 Production Economics of Second Generation Biofuels 124
5.6 Advantages of Second Generation Biofuels 125
5.7 Disadvantages of Second Generation Biofuels 126
5.8 Case Study: Biofuels Generation In Bangladesh 126
References 129

Chapter 6 Third Generation Biofuels 133
6.1 Introduction 134
6.2 Third Generation Biofuel 135

6.3 Third Generation Biofuel Feedstock 136
6.4 Cultivation of Third Generation Biofuels 140
6.5 Biofuel Production From Microalgae 142
6.6 Advantages of Algae Biofuel 151
6.7 Disadvantages of Algae Biofuel 152
6.8 Case Study: Biofuels in China 152
References 157

Chapter 7 Use of Biofuels for Various Drives 159
7.1 Sustainability Drives Global Biofuel Policy and Technology 160
7.2 The Growth of Biofuels 160
7.3 Renewable Fuels Standard (RFS2) 161
7.4 Biofuel Uses 164
7.5 Transportation 164
7.6 Power Generation 172
7.7 Heat 176
7.8 Exploring Biofuel Uses Can Help Slow Climate Change 178
7.9 Case Study: Experiences Of Biofuel Production in Selected Countries 180
References 184

Chapter 8 Advantages and Disadvantages of Biofuels 185
8.1 Introduction 186
8.2 The History of Biofuels 189
8.3 Categories of Biofuels 190
8.4 Biofuels Production Technologies 193
8.5 Evaluation of Biofuels 194
8.6 Impacts of Biofuels 197
8.7 Advantages and Disadvantages of Biofuels 199
8.8 Risks of Using Biofuels 202
8.9 Current Uses of Biofuels 203
8.10 Future of Biofuels 203
8.11 Case Study: Biofuels In Brazil 205
References 209

Chapter 9 Applications of Biotechnology to Renewable Fuel Production 211

9.1 Introduction 212

9.2 Application of Biotechnology 215

9.3 Biotechnology and The Fossil Fuel Industry 220

9.4 Recycling Organic Waste 221

9.5 Energy, Renewable Fuel Sources in the Future and the International Balance of Trade 222

9.6 Advancement in Biofuel Production 223

9.7 Application of Biotechnology in Biofuel Production 228

9.8 Case Study: Role of Modern Biotechnology in Sustainable Development: Addressing Socio-Political Dispute of GMOS that Influences Decision-Making in Developing Countries 232

References 236

Chapter 10 Future of Bio Fuels in Fuel Production 239

10.1 Introduction 240

10.2 Affordability of Bio Fuels 246

10.3 Impact of Bio Fuels on The Environment 247

10.4 Can Biofuels Ever Replace Fossil Fuels? 250

10.5 Should Government Play a Role in Developing Biofuels? 254

10.6 Case Study: Biofuel Futures in Road Transport - A Modelling Analysis For Sweden 257

References 261
