Machine Translation

15th China Conference, CCMT 2019
Nanchang, China, September 27–29, 2019
Revised Selected Papers
# Contents

Improving Bilingual Lexicon Induction on Distant Language Pairs ........................................ 1
  Wenliao Zhu, Zhihao Zhou, Shujian Huang, Zhenya Lin,
  Xiangsheng Zhou, Yaofeng Tu, and Jiajun Chen

Improving Quality Estimation of Machine Translation by Using
Pre-trained Language Representation .............................................................. 11
  Guoyi Miao, Hui Di, Jinan Xu, Zhongcheng Yang, Yufeng Chen,
  and Kazushige Ouchi

Incorporating Syntactic Knowledge in Neural Quality Estimation
for Machine Translation ................................................................................. 23
  Na Ye, Yuanyuan Wang, and Dongfeng Cai

Independent Fusion of Words and Image for Multimodal
Machine Translation ...................................................................................... 35
  Junpeng Ma, Shihao Qin, Minping Chen, and Xia Li

Neural Machine Translation with Attention Based on a New Syntactic
Branch Distance ............................................................................................. 47
  Ru Peng, Zhitaoh Chen, Tianyong Hao, and Yi Fang

Phrase-Based Chinese-Vietnamese Pseudo-Parallel Sentence
Pair Generation ............................................................................................... 58
  Jiaxin Zhai, Zhengtao Yu, Shengxiang Gao, Zhenhan Wang,
  and Liqi Peng

Quality Estimation with Transformer and RNN Architectures ......................... 69
  Yulin Zhang, Chong Feng, and Hongzheng Li

NICT’s Machine Translation Systems for CCMT-2019 Translation Task .......... 77
  Kehai Chen, Rui Wang, Masao Utizama, and Eiichiro Simita

NiuTrans Submission for CCMT19 Quality Estimation Task .......................... 82
  Ziyang Wang, Hui Liu, Hexuan Chen, Kai Feng, Zeyang Wang, Bei Li,
  Chen Xu, Tong Xiao, and Jingbo Zhu

Tencent Minority-Mandarin Translation System ............................................. 93
  Bojie Hu, Ambyer Han, Zheyang Zhang, Shen Huang, and Qi Ju
Muyun Yang, Xixin Hu, Hao Xiong, Jiayi Wang,
Yiliyaer Jiaermuhamaiti, Zhongjun He, Weihua Luo, and Shujian Huang

Author Index ....................................................................................... 129
