VOLUME 4

EVALUATION OF AGEING STRUCTURAL RESPONSE AND PREDICTION OF LEAKAGE RATE OF VERCORS MOCK-UP. NEW IMPLEMENTATION OF THE NUMERICAL MODEL ........................................... 2222
Thémin Thibaud, Corvec Véronique, Ghavamian Shahrkoh

DELAMINATION BEHAVIOR OF CURVED POST-TENSIONED CONCRETE STRUCTURES ........................................... 2232
Choi Jongkwon, Bayrak Oguzhan, Hrynyk Trevor

REINFORCED UNDERGROUND CONCRETE DUCTBANKS AS A BETTER POWER TRANSMISSION ALTERNATIVE TO OVERHEAD POWER LINES IN EARTHQUAKE- AND FIRE-PRONE AREAS ....................................................................................................................... 2242
Takhiro Shabhood, Low Brian, Fujisaki Eric, Mosalam Khalid

SESSION: D5-S13: RESPONSE OF STRUCTURES, SYSTEMS, AND COMPONENTS 2

APPLICATION OF ANALYSIS FOR ASSEMBLY OF INTEGRATED COMPONENTS TO STEEL MEMBER CONNECTIONS TOWARDS SEISMIC SAFETY ASSESSMENT OF PLANT ........................................................................................................... 2252
Nishida Akemi, Nakajima Norihiko, Matsukawa Keisuke, Oshima Masami, Murakami Takahiro, Satoda Akira, Asano Yuya, Guo Zihong

STUDY ON A SIMULATION ANALYSIS FOR THE RESULTS OF SHAKING TABLE TEST UNDER CENTRIFUGE GRAVITY ............................................................................................................... 2262
Ishikawa Shinya, Furue Mamoru, Okochi Yasuo, Soma Kazuki, Adachi Naoko

PURPOSE-DESIGNED & QUALIFICATION STRUCTURAL SUPPORTS FOR ITER CRYOSTAT .................................................................................................................... 2272
Connasson Michele, Díaz Sebastien, Duc Jeanne, Boutron Laura, Patisson Laurent, Gjokaj Armand

NUMERICAL SIMULATION OF A TRANSPORTATION CASK AND TRANSMISSIBILITY DUE TO 0.3 M DROP AND VIBRATION ...................................................................................... 2282
Zargar Shoushtari Shokoufeh, Medina Ricardo, Ibarra Luis

EQUIVALENT LINEAR CALCULATION OF DYNAMIC CIVIL STRUCTURE RESPONSE: A NEW EFFICIENT AND ROBUST APPROACH ...................................................................................... 2292
Horvé-Secourgeon Guillaume, Razafimbelo Mihaja, Banci Fabien, Labbe Pierre
SESSION: D5-S11: SHEAR WALL ANALYSIS 3

BEYOND DESIGN SEISMIC CAPACITY OF SQUAT RC SHEAR WALLS: LESSONS LEARNT FROM PHASE 2 OF THE CASH BENCHMARK EXERCISE USING LS-DYNA
Hak Sanja, Mondie Yves, Bumann Urs, Szcesiak Tadeusz, Zimos Dimitrios

SHAKING TABLE TEST FOR ELASTIC DAMPING RATIO OF RC WALLS WITH ASPECT RATIO OF 0.6 AND 1.0
Yang Hyeonkeun, Kim Juhyung, Park Honggun

NON-CONTACT LAP SPlice CONNECTION OF SC WALL-HSC FLOOR SLAB
Seo Jungil, Yarmo Ami

NUMERICAL STUDY ON SEISMIC PERFORMANCE OF SHEAR WALL AFTER HIGH TEMPERATURE EXPOSURE
Tomofuji Hiroshi, Tsukada Takaaki, Sasaki Yuki, Fontana Mario

SESSION: D5-S14: RESPONSE OF STRUCTURES, SYSTEMS, AND COMPONENTS 3

A REPORT OF LATEST RESEARCH PROGRESS ON THE BEYOND DESIGN BASIS DESIGN CONSIDERATIONS FOR GEN III&IV NUCLEAR POWER PLANT
Shang Ziduan, Sun Yucang, Xiao Huang, Guo Hongliang, Chang Chenyu, Han Boyu, Wu Chunhua

NUCLEAR ISLAND BASEMATT ANALYSIS FOR GENERATION III NUCLEAR POWER PLANT
Shang Ziduan, Han Boyu, Wu Chunhua, Chang Chenyu

DESIGN, VALIDATION AND ERECTION OF A SHIELD FOR THE VENTILATION STACK OF THE INSTITUT LAUE LANGENVIN
Vezin JeanMarc, Cogo Patrice, Darbouret Olivier, Theint Kibaud

ASEISMIC PERFORMANCE EVALUATION OF A PGSSR PHTS PUMP
Lee Seonghyeon, Lee Jaehan, Kim Sungyun

REBAR CORROSION EFFECTS ON ULTIMATE STRENGTH OF UNREINFORCED OR CFRP REINFORCED NUCLEAR COOLING TOWER
Bui Trung, Liman Ali, Louhi Amine, Schmitt Nicolas

SESSION: D5-SS4: VERCORS EXPERIENCE - PREDICTING CONTAINMENT AGEING, FROM THE MOCKUP TO THE DIGITAL TWIN - PART 1

SPECIAL SESSION: VERCORS PROGRAM - WHAT IS GOING ON, WHAT WILL GO ON
Nieperon J.

SESSION: D5-S20: SOIL-STRUCTURE INTERACTION 8

ASSESSMENT OF THE LOCAL DISTRIBUTION OF SOIL SPRING STIFFNESS CONSIDERING FREQUENCY DEPENDENCE OF THE FOUNDATION, SITE, AND GROUND MOTION
Anderson Lisa, Carey Shawn, Amin Jayprakash

PRELIMINARY INVESTIGATION FOR SOIL-STRUCTURE INTERFACE BEHAVIOR: RESULTS OF EXPERIMENTS
Kurt Eje, Coleman Justin

SEISMIC DESIGN OF WELLS
Zuchowski Leic, Sebastien Ravet, Guillaume Nicolas, Cellinain Yannick

A STATISTICAL STUDY ON THE VARIATION OF SEISMIC RESPONSE PARAMETERS: PROBABILISTIC VS. DETERMINISTIC SOIL STRUCTURE INTERACTION ANALYSES OF NUCLEAR STRUCTURES ON SOFT SOIL CONDITIONS
Cadric Cagris, Ishlieroglu Yigit, Rathod Yogesh, Vaidya Nish, Kurmann Davide, Nsubaumir Olivier

PARTIAL CORRELATION AND DEPENDENCE BETWEEN SEISMIC FRAGILITIES OF MULTIPLE ADJACENT STRUCTURES WITH SIGNIFICANT SOIL-STRUCTURE INTERACTION EFFECTS
Talaat Mohamed, Kennedy Robert
SESSION: D5-S21: SEISMIC FRAGILITY ANALYSIS

A CASE STUDY ON THE STRUCTURAL ANALYSIS AND FRAGILITY CALCULATION DUE TO SEISMIC IMPACT
Bassam Asa, Koshab Ben, Ebrahimian Hamed, Tehrani Payman

HIGH FREQUENCY GROUND MOTION EFFECT ON THE SEISMIC INTEGRITY OF ANCHORAGE SYSTEM
Choi Inkil, Eom Seungyoun

CASE STUDY: CABLE TRAY SEISMIC FRAGILITY EVALUATION INVOLVING DUCTILE FAILURE OF A COLD-FORMED STEEL SECTION IN FLEXURE
Perkins Michael, Grant Frederic

FRAGILITY EVALUATION OF UNDERGROUND STRUCTURE CONSIDERING MULTI-FAILURE MODES
Nakamura Siusumu, Matsumoto Toshikatsu

SESSION: D5-SS5: VERCORS EXPERIENCE - PREDICTING CONTAINMENT AGEING, FROM THE MOCKUP TO THE DIGITAL TWIN - PART 2

SPECIAL SESSION: VERCORS EXPERIENCE: PREDICTING CONTAINMENT AGEING, FROM THE MOCKUP TO THE DIGITAL TWIN: EXPERIMENTAL CHARACTERIZATION OF AIRFLOW THROUGH CONCRETE CRACKS AND ITS APPLICATION TO VERCORS
BENCHMARK CONTAINMENT STRUCTURE
Huang Xu, Kwon Ohsoong, Benz Evan, Dury Julia

SPECIAL SESSION: VERCORS EXPERIENCE: PREDICTING CONTAINMENT AGEING, FROM THE MOCKUP TO THE DIGITAL TWIN: AIRTIGHTNESS AND CRACK MODELLING
Thiennint Thibaud

SPECIAL SESSION: VERCORS EXPERIENCE: PREDICTING CONTAINMENT AGEING, FROM THE MOCKUP TO THE DIGITAL TWIN: MODELING STRATEGIES: AIRTIGHTNESS AND STRUCTURAL BEHAVIOR
Ononen Ahti, Calonius Kim

SPECIAL SESSION: APPRAISAL OF THE VERCORS 2018 BENCHMARK
Nieperon J.

SESSION: D5-S17: SEISMIC RESPONSE OF STRUCTURE

RESPONSE SPECTRUM BROADENING METHODOLOGY
Li Dali

EQUIVALENT STATIC LOADS TO ENVELOP DYNAMIC TIME HISTORY ANALYSIS RESULTS
Razavi Hadi, McKay Kirsten, Ulku Evren

SEISMIC ANALYSIS OF A SAFETY-RELATED NUCLEAR STRUCTURE FOR PRELIMINARY DESIGN - A CASE STUDY
Pan Qin, Anderson Lisa, Moreschi Luis

EFFECTS OF BOUNDARY CONDITIONS ON PWR SNF ROD STIFFNESS AND STRESSES UNDER PINCHING LOADS
Eidelpes Elmar, Medina Ricardo, Ibarra Luis

PERFORMANCE-BASED EARTHQUAKE ENGINEERING METHODOLOGY FOR SEISMIC EVALUATION OF CABLE TRAY SYSTEMS FOR NUCLEAR POWER PLANTS
Mosalam Khalid, Huang Baofeng
DESIGN ISSUES, CODES AND STANDARDS

SESSION: D6-S1: SEISMIC DESIGN

INTEGRATED SEISMIC ANALYSIS AND DESIGN OF SMALL MODULAR REACTOR
FACILITIES USING SUBSTRUCTURE TECHNIQUES IN ANSYS......................................................2555
Leon Flores Giulio, Snyder Matthew, Parker Josh, Ullku Eren

SPATIAL COMBINATIONS OF SEISMIC RESPONSE SPECTRUM AND TIME-HISTORY
ANALYSIS RESULTS FOR DESIGN OF NUCLEAR STRUCTURES....................................................2565
Liu Yaxin, Nourzadeh Dan, Liu Wei, Han Xue

COMPARISON STUDY BETWEEN 2D REINFORCED CONCRETE ELEMENT DESIGN
METODOLOGIES USING AUTOMATED DESIGN SOFTWARE FOR NUCLEAR
STRUCTURES ...................................................................................................................................2576
Aishawi Ahmed, Phillips James, Tsukada Takaaki, Nitta Yassou

UPLIFT EVALUATION OF A PARTIALLY EMBEDDED STRUCTURE WITH NONLINEAR SSI........2586
Chatzigrigogos Charisias, Zachowski Loic, Anagnostopoulou Myrto, Najé Pierre-Lain

SESSION: D6-S2: COMPONENT DESIGN

INVESTIGATION OF MODIFIED NB-3600 BRANCH PIPING STRESS ANALYSIS.................................2596
Reinhard Wolf, Hunjan Hardeep

APPLICATION OF ENGINEERING PRACTICES FOR MANAGING DEGRADATION OF
PRESSURE RETAINING MECHANICAL COMPONENTS ......................................................................2606
Istar Ata

DESIGN OF ULTRA-HIGH PERFORMANCE FIBER REINFORCED CONCRETE CONTAINER
FOR HIGH-LEVEL WASTE ...................................................................................................................2615
Othman Hesham, Sabrah Tamer, Marzouk Hesham

COMPARATIVE SEISMIC EVALUATION OF CIRCULAR LIQUID STORAGE TANK
ACCORDING TO PRACTICAL DESIGN GUIDELINES AND STANDARDS ..........................................2624
Cho Sungsook, Choi Songyi, Park Woongki, So Gihwan

DISCRETE SEQUENTIAL OPTIMIZATION FOR STRUT-AND-TIE DESIGN .....................................2634
Mendoza-Chavez Gustavo, Chatzigrigogos Charisias, Hervé-Secourgeon Guillaume, Najé Pierre-Lain, Bottoni Marina

SESSION: D6-S3: FATIGUE AND THERMAL DESIGN

FURTHER TEST RESEARCH ON ENVIRONMENTALLY ASSISTED FATIGUE OF
AUSTENITIC STAINLESS STEEL UNDER SIMULATED PLANT-LIKE TRANSIENT .........................2644
Liang Binghong, Zhang Xu

COMPARISON BETWEEN THERMAL EVALUATIONS OF STEEL STRUCTURES USING THE
NEW AND THE OLD AISC N690 CODE METHODS ...........................................................................2649
Al-Shuwayq Tahs, Kennedy Ben, Varma Amit, Bhardwarj Saahastiranadh

CREEP-FATIGUE CRACK PROPAGATION IN CURRENT INTERNATIONAL CODES FOR
COMPONENTS AT ELEVATED TEMPERATURES IN NUCLEAR ENGINEERING:
COMPARISON, PROGRAMMING AND CASE STUDY ......................................................................2660
Xia Qiwei, Gong Jianguo, Lin Guopeng, Xuan Fuchen, Hei Baoping, Gao Fuhai, Gong Cheng

A SOFTWARE FOR EVALUATING CREEP-FATIGUE FAILURE OF CLASS 1 NUCLEAR
COMPONENTS BASED ON ASME III-5 HBB-T ..................................................................................2670
Gong Cheng, Gong Jianguo, Xuan Fuchen, Lin Guopeng, Wang Cheng, Mo Yafei, Zhang Tianyi, Gao Fuhai

SESSION: D6-S4: CODES AND LICENSING ISSUES

UK'S REGULATORY SAFETY ASSESSMENT OF NUCLEAR PLANTS PRESSURE PART
FAILURE - A MULTIDISCIPLINE VIEW ..............................................................................................2676
Alexiou Anastasios, Caud Jim, Smith Leslie, Lisbona Diego

RECENT DEVELOPMENTS IN ENSURING SEISMIC SAFETY OF NPPS POST-FUKUSHIMA: A
CANADIAN PERSPECTIVE ..................................................................................................................2689
Aziz Tarek, Stoyanov George
SAFETY, RELIABILITY, RISK AND MARGINS

SESSION: D7-S1: EXTERNAL HAZARD ASSESSMENT

OBJECTIVE QUANTIFICATION OF THE SEISMIC SOURCE MODEL FOR NUCLEAR SITES ...............................................................2708
Mosca Ilaria, Villani Mamsela, Baptie Brian, Courtney Tim

EVALUATION OF PLANT RISK BASED ON MULTI-EVENT MODEL .....................................................................................2718
Satoda Akira, Fujishima Seiichiro, Oshima Masami

PRELIMINARY STUDY ON THE QUANTIFICATION OF COMPONENT LEVEL FAILURE FREQUENCY BY MULTI-HAZARD ........................................................................................................2728
Kim Junghun, Kim Minhyo, Choi Inki

STUDY ON THE RELATIONS BETWEEN SUBSURFACE STRUCTURE AND VARIABILITY OF STRONG GROUND MOTIONS AT ADJACENT SITES ......................................................................................2734
Tokumitsu Ryoichi, Uchiyama Tatsuo, Yamamoto Yu

SESSION: D7-S2: SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES

DEVELOPMENT OF SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES FOR ENHANCEMENT OF COMPREHENSIVE SAFETY OF NUCLEAR POWER PLANTS, PART 10:
AVOIDANCE OF CLIFF EDGE FOR REACTOR VESSEL ...........................................................................................................2744
Yamano Hidemasa, Nishida Akemi, Choi Byunghyun, Takada Tsuyoshi

DEVELOPMENT OF SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES FOR ENHANCEMENT OF COMPREHENSIVE SAFETY OF NUCLEAR POWER PLANTS PART 7
SEISMIC PERFORMANCE REQUIREMENT OF NPP .......................................................................................................................2754
Muta Hitoshi, Ohitori Yasuki, Muramatsu Ken, Takada Tsuyoshi, Itoi Tatsuya

DEVELOPMENT OF SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES FOR ENHANCEMENT OF COMPREHENSIVE SAFETY OF NUCLEAR POWER PLANTS, PART 8:
IDENTIFICATION AND ASSESSMENT OF CLIFF EDGES OF NPP STRUCTURAL SYSTEM ................................................................2763
Nishida Akemi, Yamano Hidemasa, Choi Byunghyun, Takada Tsuyoshi, Itoi Tatsuya

DEVELOPMENT OF SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES FOR ENHANCEMENT OF COMPREHENSIVE SAFETY OF NUCLEAR POWER PLANTS - PART 11
CLIFF EDGES OF HUMAN BODY AGAINST STRONG SHAKING- .........................................................................................2772
Hida Takenori, Itoi Tatsuya, Takada Tsuyoshi

DEVELOPMENT OF SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES FOR ENHANCEMENT OF COMPREHENSIVE SAFETY OF NPPS - PART 6: CONCEPT OF CLIFF EDGES FOR NPP AGAINST EARTHQUAKES ........................................................................................................2782
Takada Tsuyoshi, Hida Takenori, Itoi Tatsuya, Nishida Akemi, Muramatsu Ken, Muta Hitoshi, Furuya Osamu, Minagawa Keisuke, Yamano Hidemasa

DEVELOPMENT OF SEISMIC COUNTERMEASURES AGAINST CLIFF EDGES FOR ENHANCEMENT OF COMPREHENSIVE SAFETY OF NUCLEAR POWER PLANTS PART 9 : AVOIDANCE OF CLIFF EDGE BY INTRODUCING SEISMIC ISOLATION ..........................................................................................2790
Minagawa Keisuke, Furuya Osamu, Takada Tsuyoshi, Fujita Satoshi

SESSION: D7-S3: FAULT DISPLACEMENT PRA

IMPROVEMENT OF FAULT DISPLACEMENT PRA METHODOLOGY AND EXAMPLE OF ITS APPLICATION TO AN ASSUMED NPP (1) ESTIMATION OF CDF DUE TO FAULT DISPLACEMENT .................................................................................................2800

IMPROVEMENT OF FAULT DISPLACEMENT PRA METHODOLOGY AND EXAMPLE OF ITS APPLICATION TO AN ASSUMED NPP (2) CONTROL POINT AND ITS RELEVANT UNCERTAINTIES OF PFDDA ...........................................................................................................2809
Yuyama Ayumi, Mihara Yoshinori, Tsutsuki Hideaki, Haraguchi Ryuuke, Ebisawa Katsumi
IMPROVEMENT OF FAULT DISPLACEMENT PRA METHODOLOGY AND EXAMPLE OF ITS APPLICATION TO AN ASSUMED NPP (3) THE VALIDATION STRATEGY OF FAULT DISPLACEMENT FRAGILITY EVALUATION METHODOLOGY .......................................................... 2818
Tsutsumi Hideaki, Mihara Yoshinori, Nikaido Yuji, Haraguchi Ryusuke, Sakai Toshiaki, Yayama Ayumi, Ebisawa Katsumi

UNCERTAINTIES RELATED TO STRUCTURAL MODEL OUTPUTS AS A FUNCTION OF THE ENGINEERING DEMAND PARAMETER AND OF THE COMPUTATIONAL METHOD ........................................ 2828
Richard Benjamin, Stocchi Alessandro

DEVELOPMENT OF THE METHODOLOGY FOR FAULT DISPLACEMENT FRAGILITY EVALUATION ............................................................................................................. 2838
Haraguchi Ryusuke, Mihara Yoshinori, Sakai Toshiaki, Yayama Ayumi, Tsutsumi Hideaki, Nikaido Yuji, Ebisawa Katsumi

SESSION: D7-S10: SEISMIC FRAGILITY ASSESSMENT 2

PARTIALLY CORRELATED FRAGILITIES USING DAMAGE CAPACITY APPROACH IN SEISMIC PRA ............................................................................................................... 2848
Jung Seokwon

SEISMIC FRAGILITY EVALUATION OF METAL FLAT-BOTTOM STORAGE TANKS WITH SHORT ANCHOR BOLT CHAIRS ........................................................................ 2858
Anup Abhinav, Hashimoto Philip, Lee Heojung, Kennedy Robert

SEISMIC FRAGILITY BASED ON CONDITIONAL MEAN SPECTRA FOR MULTIPLE EARTHQUAKE SCENARIOS .......................................................... 2867
Park Jihun, Jeon Seongha, Wonho Park, Kim Beomseok

PROBABILISTIC-BASED APPROACH FOR DEVELOPING SOIL LIQUEFACTION FRAGILITIES AT NUCLEAR POWER PLANT SITES ........................................... 2876
Houston Thomas, Mertz Greg, Maham Andrew

REINFORCED CONCRETE SHEAR WALL CAPACITY ADVANCES .................................................................................................................... 2886
Hardy Greg, Richards John, Graf Tim, Cuppa Riccardo

SESSION: D7-S4: SEISMIC PRA/PSA

EFFECTS OF AFТЕRSHOCKS ON SEISMIC RISK .............................................................................................................................. 2894
Fukushima Seichiro

INVESTIGATION ON THE FEASIBILITY OF CONDUCTING MANAGED SCOPE SEISMIC PROBABILISTIC RISK ASSESSMENTS .................................................................. 2904
Elbahey Samer, Richards John, Amico Paul, Hendrix Chris

DEVELOPMENT OF PROBABILISTIC SEISMIC RISK ASSESSMENT METHODOLOGY FOR SEISMICALLY ISOLATED NUCLEAR POWER PLANTS ...................................... 2913
Kim Minkyu, Hahn Daegi, Kim Junghan

OPTIMAL DISTRIBUTION ON SEISMIC PERFORMANCE OF SSOS OF A RESEARCH REACTOR USING SEISMIC PRA ................................................................................. 2921
Kwag Shinyoung, Hahn Daegi, Oh Jinho, Kim Minkyu

SESSION: D7-S5: SEISMIC HAZARD ASSESSMENT 1

ENHANCEMENT OF SELECTION METHOD FOR GROUND MOTION MODELS FOR PROBABILISTIC SEISMIC HAZARD ANALYSIS .................................................. 2929
Nakajima Masato

INTERPRETATION OF EQUATION OF MOTION TO IDENTIFY LOAD CATEGORY OF SEISMIC RESPONSE .................................................................................. 2939
Kai Satoru, Otani Akihito

IMPACT OF SCALING THE USNRC AND NBK DESIGN BASIS RESPONSE SPECTRA ON EVALUATION OF HIGH FREQUENCY SENSITIVE COMPONENTS .......................... 2949
Dar Amitabh, El-Dakhakhni Wael
