

# Superplasticity in Advanced Materials

Proceedings of an International Conference on Superplasticity in Advanced Materials, supported by The Commemorative Association for the Japan World Exposition (1970), The Japan Society for Research on Superplasticity, Amada Foundation for Metal Work Technology, Shimazu Science Foundation and Research Foundation for Materials Science, held in Osaka, Japan, June 3-6, 1991.

Edited by

**Shigenori Hori**

*Teikyo University, Utsunomiya,*

**Masaharu Tokizane**

*Ritsumeikan University, Kyoto*

and

**Norio Furushiro**

*Osaka University, Osaka*

A Publication of

**JSRS**

The Japan Society for Research on Superplasticity

## Table of Contents

Preface.....	v
<b>Fundamental Aspects of Superplasticity</b>	
Superplasticity : An Historical Perspective .....	3
<i>Terence G. Langdon</i>	
Future Directions for Superplasticity .....	13
<i>J. Wadsworth, T. G. Nieh and O. D. Sherby</i>	
Sliding along the Interphase Boundary in Austenite/Ferrite Duplex Stainless Steel Bicrystals .....	23
<i>S. Hashimoto, F. Moriwaki, T. Mimaki and S. Miura</i>	
On the Applicability of a Boundary Sliding Controlled Flow Process to Superplastic Deformation .....	33
<i>Subramshu S. Bhattacharya and K. Anantha Padmanabhan</i>	
Unusual Low Grain Boundary Sliding in Aluminium Alloy with Classical Features of Micrograin Superplasticity .....	39
<i>V. S. Levchenko, V. K. Portnoy and I. I. Novikov</i>	
Influence of Microstructural Evolution on Region I of the Superplastic Zn-22 Wt% Al Alloy .....	45
<i>G. S. Murty</i>	
Effect of Strain Rate Sensitivity on Non-Uniform Deformation in Superplastic Materials .....	51
<i>T. Okabe and T. Hatayama</i>	
Accommodation Mechanism and Dispersoid-Free Zones in Al 7475 after Superplastic Forming .....	57
<i>U. Koch, W. Bunk and P. J. Winkler</i>	
Geometrical Aspects of the Development of Superplastic Deformation .....	63
<i>M. G. Zelin and M. V. Aleksandrova</i>	

Effect of Specimen Shape on Flow Stress  
in Superplastic Materials .....69  
*Y. Takayama, N. Furushiro, T. Tozawa and H. Kato*

Influence of Specimen Notch Effect on the Superplastic  $m$ - $\delta$   
Relationaships of Zn-0.6%Cu-0.1%Ti Alloy .....75  
*Chin Liu, Pengcheng Si, Di Chang and Jun Wong*

Effects of Strain Rates on the Superplastic  $m$ - $\delta$  Relationships  
of HPb59-1 Brass .....81  
*Chin Liu, Di Chang, Chunfu Liang and Jie Liu*

Effects of Temperatures on the Superplastic  $m$ - $\delta$  Relationships  
of HPb59-1 Brass .....87  
*Chin Liu, Di Chang, Chunfu Liang and Zhuming Shen*

### **Microstructural Dynamics in Superplasticity**

Microstructure Dynamics in Superplastic Dcformation .....95  
*R. Z. Valiev and M. G. Zelin*

Microstructural Aspects of Plastic Stability  
during Superplastic Deformation .....105  
*Michel Suery and Bernard Baudelet*

Structural Peculiarities of Aluminium Alloy after Superplastic  
Deformation at Anomalous High Strain Rate .....121  
*I. I. Novikov, V. K. Portnoy, V. M. Iljenko and V. S. Levchenko,*

Microstructural Coarsening and its Effect on Localization  
of Flow in Superplastic Deformation .....127  
*C. H. Hamilton, H. M. Zbib, C. H. Johnson and S. K. Richter*

Effect of Pre-Deformation on Continuous Recrystallization  
In 7475 Al Alloy .....133  
*Eiichi Sato, Kiminori Gemba and Kazuhiko Kuribayashi*

Microstructural Change and its Influence on Stress-Strain  
Behavior of Superplastic Materials .....139  
*D. R. Lesuer, C. K. Syn, K. L. Cadwell and S. C. Mance*

A Comparative Study of the Superplastic Behavior  
of Two Dynamically Recrystallizing Alminum–Lithium Alloys .....145  
*R. E. Goforth, M. N. Srinivasan and N. Chandra*

Improvement of Superplasticity by Prior Warm–Working  
in 7075 Aluminum Alloy .....151  
*Taku Sakai and Manabu Nakai*

Effect of Thermo–Mechanical History on the Internal Friction  
and Superplasticity of Al–6Cu–0.5Zr Alloy .....157  
*Takao Endo, Motoyasu Hirano and Kenji Yoshida*

Dynamic Recrystallization during Superplastic Flow  
of Materials .....163  
*G. A. Salishchev, R. M. Galeyev and R. M. Imaev*

### **Cavitation in Superplastic Deformation**

Cavitation Behavior during Superplastic Deformation .....171  
*Atul H. Chokshi*

Cavitation and Cavity Suppression during Multiaxial  
Deformation of Superplastic Materials .....181  
*John Pilling*

### **Superplasticity in Ceramics**

Microstructural Design of Superplastic Ceramics .....193  
*I–Wei Chen*

Superplastic Flow in Nanograin Ceramics .....195  
*Reijo Lappalainen and Rishi Raj*

Superplasticity of Functional Ceramics .....205  
*Fumihiko Wakai, Yasuharu Kodama, Norimitsu Murayama,  
Shuji Sakaguchi, Tanguy Rouxel, S. Sato and To–oru Nonami*

A Comparison of the Tensile and Compressive Creep Behavior  
of a Superplastic Yttria–Stabilized Tetragonal Zirconia–  
20 wt% Alumina Composite .....215  
*David M. Owen and Atul H. Chokshi*

On the Superplastic Deformation Modes of Y-TZP under Uniaxial Tension .....	221
<i>Yoshinobu Motohashi, Takehiro Sekigami, Takaaki Sakuma and Miyajiro Ohmori</i>	
High-Temperature Deformation in $Al_2O_3$ - $ZrO_2$ .....	227
<i>Kazuki Okada, Yu-ichi Yoshizawa and Taketo Sakuma</i>	
Effect of Initial Porosity on the Superplastic Behavior of Y-TZP in Vacuum .....	233
<i>I. A. Akmoulin, M. Djahazi and J. J. Jonas</i>	
Prediction of Ceramic Properties after Superplastic Deformation by Means of Computer Simulation .....	239
<i>O. N. Akmoulina, E. N. Chumachenko, A. N. Skorokhodov and O. M. Smirnov</i>	
Grain Boundary Sliding in Superplastic Deformation of Ceramic Materials .....	245
<i>Norio Furushiro, Tsuneyuki Tanizawa, Kotaro Akashiro and Satoshi Takeshita</i>	
The Strain-Enhanced Grain Growth in Tetragonal Zirconia Polycrystal during Superplastic Deformation .....	251
<i>Yu-ichi Yoshizawa and Taketo Sakuma</i>	
Superplastic Ceramic Composites .....	257
<i>T. G. Nieh and J. Wadsworth</i>	
Superplastic Behaviour of Fine-Grained Zirconia .....	263
<i>J. J. Blandin, A. Varloteaux and M. Suery</i>	
Diffusion Controlled and Interface-Reaction Controlled Deformation in Fine-Grained Alumina and Y-TZP .....	269
<i>Yasunori Okamoto, Masato Inoue, Takeshi Shiono, Kunio Hayashi and Tomozo Nishikawa</i>	
Observation of Superplastic Flow in $YBa_2Cu_3O_{7-x}$ Superconductors Containing Silver .....	275
<i>Jondo Yun, Martin P. Harmer, Ye T. Chou and Om P. Arora</i>	
Extrusion Behavior of a Superconductor Ceramic in a Superplastic Metal Matrix .....	281
<i>J. E. Moreno, N. Floriano and G. Torres-Villasenor</i>	

## Superplasticity in Intermetallics

- Deformation Microstructure in Superplastic Intermetallics .....289  
*Shuji Hanada*
- Superplastic Deformation in Titanium Aluminides  
and Modeling of Transient Deformation .....299  
*A. K. Ghosh and C-H. Cheng*
- Superplasticity in Ti-Rich TiAl .....311  
*Takashi Maeda, Minoru Okada and Yoshiaki Shida*
- Superplastic Deformation Behavior of Mechanically  
Alloyed TiAl-Ti<sub>3</sub>Al Intermetallic Compounds .....317  
*Kei Ameyama, Akihiko Miyazaki and Masaharu Tokizane*
- Superplasticity in Fine Grained Nickel Silicide .....323  
*Susan L. Stoner and Amiya K. Mukherjee*
- Superplasticity in L1<sub>2</sub> Type Ni<sub>3</sub>(Si,Ti) Intermetallics .....329  
*Takayuki Takasugi, Susumu Rikukawa and Shuji Hanada*

## Superplasticity in Metal Composites

- High Strain Rate Superplasticity in Whisker-Reinforced  
Aluminum Composites .....339  
*T. G. Nieh and J. Wadsworth*
- High Temperature Deformation and Microstructure  
in WC-Co Cemented Carbides .....349  
*T. Sakuma and H. Hondo*
- Processing of Zn-22Al/Al<sub>2</sub>O<sub>3</sub> Composite Sintered Sheets  
and Mechanical Characteristics .....355  
*Hiroaki Ohsawa and Muneharu Yoshizawa*
- Application of Superplasticity for Fabrication  
of Metal Matrix Composite .....361  
*Yasuo Uchiyama and Masayuki Hasaka*
- Processing of 6061 Aluminum Matrix Composites Reinforced  
with Si<sub>3</sub>N<sub>4</sub> Whisker and their Superplastic Behavior .....367  
*Mamoru Mabuchi, Tsunemichi Imai and Katsushi Kubo*

Superplasticity in $\text{Si}_3\text{N}_4$ Whisker Reinforced 7064 Aluminium Alloy Composite .....	373
<i>Tsunemichi Imai, Mamoru Mabuchi and Yoshihisa Tozawa</i>	
Superplastic Behavior and Microstructural Characterization of a $\beta\text{-Si}_3\text{N}_4$ Whisker Reinforced 2124 Aluminium Composite .....	379
<i>Gilles L'Espérance, Tsunemichi Imai and Bande Hong</i>	
High Strain Rate Superplasticity in Particulate Aluminum Composite .....	385
<i>Mamoru Mabuchi, Kenji Higashi, Yoshihiro Okada, Shinji Tanimura, Tsunemichi Imai and Katsushi Kubo</i>	
Elevated Temperature Deformation of SiC Whisker/ Zn-22%Al Alloy Composites .....	391
<i>Jun Su Kim, Junichi Kaneko and Makoto Sugamata</i>	
New Compounding Method for the Composite Material Using the Particulate Superplastic Al-Li Alloy and SiC Powders .....	399
<i>Munetake Satoh, Kei Miyanami, Kenji Higashi, Shinji Tanimura and Hideo Yoshida</i>	
Fatigue Properties of SPF/DB Joints in Titanium Alloys .....	405
<i>Yoshiharu Mutoh, Masaru Kobayashi, Yoshiharu Mae and Toyochi Satoh</i>	

### Superplasticity in Metals

The Deformation Mechanisms of Low Temperature Superplasticity in Al-Mg Alloys .....	413
<i>Terry R. McNelley and Peter N. Kalu</i>	
Influence of Zirconium on Superplastic Deformation at 573K for an Al-10wt% Mg Alloy .....	423
<i>Hideshi Aiko and Norio Furushiro</i>	
Evaluation on Superplasticity in Al-Zn-Mg and Al-Li Base Alloys .....	429
<i>Hang-Ping Pu, Shun-Hsing Yen, Jacob C. Huang and Po-We Kao</i>	
Superplastic Behaviour of Spray Cast 7475 Aluminium Alloy .....	435
<i>S. A. McCoy, J. White and N. Ridley</i>	

Superplasticity of Rapidly Solidified 7XXX Aluminum Alloy .....	441
<i>Shin-ichi Matsuda, Yoshimasa Okubo and Hideo Yoshida</i>	
Superplastic Deformation Characteristics of 5083 Aluminium Alloy .....	447
<i>H. Iwasaki, K. Higashi, S. Tanimura, T. Komatsubara and S. Hayami</i>	
Superplastic and Recrystallisation Behaviour of a Commercial Al-Mg Alloy 5083 .....	453
<i>H. Imamura and N. Ridley</i>	
Deformation Behaviour of Two Commercial Superplastic Alloys .....	459
<i>Subramshu S. Bhattacharya and K. Anantha Padmanabhan</i>	
Superplastic Deformation in a High Temperature Ti-Alloy IM1834 .....	465
<i>A. Wisbey and P. G. Partridge</i>	
Production of Fine Grained Titanium Alloys for Superplastic Forging by Means of Controlled Recrystallization .....	471
<i>I. A. Akmoulin and J. J. Jonas</i>	
Compression Test of Ti-6Al-4V Alloy under Transformational Superplasticity Condition .....	479
<i>Kinji Sato, Tomio Kajikawa and Kazuhide Ugajin</i>	
Superplasticity of PM Nickel-Base Superalloy .....	485
<i>Shiomi Kikuchi</i>	
Superplastic Two-Phase Mg-Li Alloys .....	491
<i>Kenji Higashi, O. D. Sherby, G. Gonzalez-Doncel and J. Wolfenstine</i>	
Possibility of Grain Refinement for Superplasticity of Mg-Al Alloys by Zirconium Additions .....	497
<i>Hirohiko Takuda, Shiomi Kikuchi, Hitoshi Fujimoto and Natsuo Hatta</i>	
Aluminum Effects on the Microstructure and the Superplasticity of Ultra-High Carbon Steels Processed by DETWAD .....	503
<i>Dong-Wha Kum, Hyung Kang and Soon H. Hong</i>	

Pretreatment for Superplasticity of SKD11 Steel and its Deformation Characteristics .....	509
<i>Mo Jianping, Ye Mao and Yuzo Hosoi</i>	
Superplastic Behavior of SKD11-P/M Steel .....	515
<i>Mo Jianping, Kazuya Miyahara and Yuzo Hosoi</i>	
Thermomechanical Treatment for Superplasticity of 20Cr-10Ni-High N Austenitic Stainless Steel .....	521
<i>Kiyoshi Mineura</i>	
Influences of Al Content and Cr Addition on the Superplasticity of Cu-Al-Ni Shape Memory Alloy .....	527
<i>Masamichi Miki and Yoshikiyo Ogino</i>	
A Study of Superplasticity of CuZnAlZr Shape Memory Alloy .....	533
<i>Lin Fayu and Huang Chuzhen</i>	

### **Superplasticity at High Strain Rates**

Thermomechanical Stability of Nanocrystalline Microstructures and their Role in Enhancing Superplastic Deformation .....	541
<i>Merrilea J. Mayo</i>	
The Role of Subgrain Boundaries during the Initial Stage of High Rate Superplastic Deformation of a PM Aluminium Alloy .....	551
<i>Kenji Matsuki, Hiroaki Matsumoto, Mitsugu Tokizawa and Yotaro Murakami</i>	
High Strain Rate Superplasticity and its Deformation Mechanism in Aluminum Alloys .....	557
<i>Norio Furushiro, Shigenori Hori and Yoshiharu Miyake</i>	
High Strain Rate Superplasticity of a 25%Cr-7%Ni-3%Mo-0.14%N Duplex Stainless Steel .....	563
<i>Yasuhiro Maehara</i>	
Positive Exponent Strain-Rate Superplasticity in Mechanically Alloyed Aluminum .....	569
<i>K. Higashi, T. Okada, T. Mukai and S. Tanimura</i>	

Deformation Characteristics in P/M Aluminum Alloys  
at High Temperatures .....575  
*K. Higashi, S. Itsumi, M. Hoshikawa, Y. Matsumura,  
T. Ito, S. Tanimura and H. Yoshida*

Superplasticity of Mechanically Alloyed Aluminum  
at High Strain Rate .....581  
*Kazunari Shinagawa, Tetsuo Morioka and Kozo Osakada*

Texture Evolution during High Rate Superplastic  
Elongation in Mechanically Alloyed Aluminum .....587  
*Zhe Jin and Thomas R. Bieler*

Development of a New Superplastic Aluminium Alloy .....593  
*Philippe Fernandez*

### **Analysis and Application of Superplastic Forming**

Fundamental Questions Concerning the Application of Superplastic  
Forming and Superplastic Forming/Diffusion Bonding .....601  
*H. E. Friedrich and P. -J. Winkler*

Application of Superplastic Forming for Aerospace Components .....611  
*Takayuki Tsuzuku, Akio Takahashi and Akira Sakamoto*

A Review of the Mechanical Properties after Superplastic  
Forming and Diffusion Bonding .....621  
*D. S. McDermid, P. G. Partridge and A. Wisbey*

Researches on Superplasticity and Forming  
in the National R & D Projects .....633  
*Ken-ichi Matsuno and Yoshinori Nakazawa*

Effect of Strain Rate Path on Stretch Flange Formability  
of Zn-22Al Superplastic alloy Sheet .....643  
*Masaaki Watanabe and Hisashi Nishimura*

Superplastic Forming and Diffusion Bonding  
of Aluminum Alloy 7475 Sheet in Air .....649  
*M. Hirohashi, Y. Park and H. Asanuma*

The Superplasticity of T15-P/M High Speed Steel and its Forming .....	655
<i>Zhu Fuxian, Liu Zhaoxue, Mo Jianping and Zhang Qiang</i>	
Diffusion Bonding/Superplastic Forming of Ti6Al4V/SUS 304/Ti6Al4V .....	661
<i>T. H. Chuang, S. Y. Chang, J. H. Cheng, H. P. Kao and S. E. Hsu</i>	
New Aluminium Alloys for SPF and SPF/DB Application .....	667
<i>G. Broden and B. Plege</i>	
Superplastic Deformation and Diffusion Bonding of an Al-Li Alloy Containing 20 wt% Particulate SiC .....	669
<i>D. V. Dunford, S. M. Flitcroft, D. S. McDermid and P. G. Partridge</i>	
A New Superplastic Aluminium Alloy, FORMALL <sup>R</sup> 570 .....	675
<i>Philippe Fernandez</i>	
Zn-5%Al-0.3%Mg Superplastic Alloy Grooved Drum .....	681
<i>Gao Lun</i>	
On the Room Temperature Formability and Tensile Superplastic Behaviour of an Al-Ca-Zn Alloy .....	687
<i>Krishnamurti Swaminathan and K. Anantha Padmanabhan</i>	
The Diffusion Bonding of Ti-6Al-4V Titanium Alloy under Superplastic Condition .....	693
<i>Zong Yuan Zhang, Cheng He Cai and Zhao Rong Lin</i>	
The Application of Superplastic Forming to the Diffusion Bonding of Dissimilar Materials .....	699
<i>P. G. Partridge, A. Wisbey and D. V. Dunford</i>	
Superplastic Forming/Diffusion Bonding Combined Technology of Curved Panel of Titanium Alloy .....	705
<i>Zhiqiang Li and Huihong Guo</i>	
Formability Investigation of Superplastic Al-Li Alloy Sheet - Part I .....	709
<i>P. S. McAuliffe and D. J. Chellman</i>	

Assessment of Superplastic Al–Li Alloy Sheet in Airframe Structural Applications – Part II .....	717
<i>P. S. McAuliffe and D. J. Chellman</i>	
Mechanical and Microstructural Characteristics in an Al–Li–Zr Alloy and Implications in Commercial Forming Processes .....	725
<i>C. H. Hamilton and B. Ren</i>	
Economic Aspects of Superplastic Forming (SPD) .....	731
<i>Y. N. Raikov, A. G. Vorobjov and L. I. Perepelitsina</i>	
Superplasticity in Bulk Forming Metals and Ceramics .....	737
<i>O. A. Korabelnikov and O. M. Smirnov</i>	
Applications of the Finite Elements Method for Analysis of Superplastic Deformation .....	743
<i>M. A. Tsepin, A. N. Yershov, A. R. Tayupov and O. M. Smirnov</i>	
The Treatment of Hard–to–Deform Materials in the State of Superplasticity .....	749
<i>Oskar D. Kaibyshev</i>	
The Treatment of Contact Interaction of the Instrument and Plastic –to–Deform Object through the Layer of Superplastic Metals .....	759
<i>N. P. Barykin and O. D. Kaibyshev</i>	
Variable Optimum Strain–Rate for Dynamically Recrystallizing Aluminum–Lithium Alloys .....	765
<i>N. Chandra, S. C. Rama and R. E. Goforth</i>	
The Properties and Applications of Currently Exploited Superplastic Aluminium Alloys .....	771
<i>R. Grimes and R. G. Butler</i>	
An Optimal Extrusion of Rate Sensitive Materials .....	777
<i>Jong S. Lee, Sung S. Hong and Nam C. Cho</i>	
Superplastic Forming of Ti6Al4V at Lower Temperatures Using Hydrogen.....	783
<i>Gerhard Hirt and Peter J. Winkler.</i>	

Diffusion Bonding of 1.6% High Carbon Steels with Very Fine Grains .....	789
<i>Hiroshi Kato and Keiji Yoshikawa</i>	
Peel Strength of Diffusion Bonded Joints in 8090 Alloy .....	795
<i>D. V. Dunford and P. G. Partridge</i>	
Development of a SPF-Aluminum Aircraft Structure .....	801
<i>B. Plege and Ch. Schleinzer</i>	
Numerical Simulation of Superplastic Forming under Axisymmetric and Plane Strain Conditions .....	807
<i>Hiroaki Sato, Takayuki Tsuzuku and Akio Takahashi</i>	
Superplastic Material Rheology Affected by Structure Evolution .....	813
<i>Oleg M. Smirnov</i>	
Computer-Controlled Deep-Drawing Process for Superplastic Materials .....	819
<i>Kentaro Soeda, Ken-ichi Manabe and Hisashi Nishimura</i>	
Development on Construction Technology for Under-Surface Lunar Base Using Superplastic Alloy .....	825
<i>Toshio Saito, Takatoshi Ogawa, Yasushi Nakayama Katsutoshi Asai and Kenji Higashi</i>	
Impulse-controlled Superplastic Forging for Manufacturing Precision Machinery Parts .....	831
<i>Minami Kimura and Masaru Kobayashi</i>	
Process Modeling of Superplastic Forming Using Four Different Computational Methods .....	837
<i>N. Chandra, S. C. Rama and R. E. Goforth</i>	

### Summary

Summary and Topics of ICSAM-91 .....	847
<i>Terence G. Langdon and Jeffrey Wadsworth</i>	

<i>Author index</i> .....	853
