Proceedings of the Sixth Conference on Medical Informatics
Beijing, China, 16–20 October, 1989 and
Singapore, Republic of Singapore, 11–15 December, 1989

Edited by

BARRY BARBER
NHS Information Management Centre
Birmingham, U.K.

DEXIAN CAO
Dept. of Medical Computer Applications
Cancer Institute and Hospital
Chinese Academy of Medical Sciences
Beijing, China

DULIE QIN
Dept. of Biomedical Engineering
Capital Institute of Medicine
Beijing, China

GUSTAV WAGNER
Deutsches Krebsforschungszentrum
Heidelberg, Federal Republic of Germany

Part 2

NORTH-HOLLAND
AMSTERDAM - NEW YORK - OXFORD - TOKYO
Session 31: Computer Support of Medical Research

Physiopathological Simulation in a Medical Expert System
Philippe Dugerdi and Joël Guillod (Switzerland) 752

Evaluation of a Multiple Biophase Compartment Model for Muscle Relaxants
Hermann Gilly, Karl Steinbereithner and Josef Zaussinger (Austria) 757

The Molecular Geometry and Display for Chinese Traditional and Folk Medicines
Geng Yijin, Zheng Qitai, Luo Qingzhong and Lu Yang (China) 762

Decomposition of Age Curves of Cancer Mortality Rate
Masahiko Okada, Mihoko Okada and Minoru Yakata (Japan) 765

A Doctor-Oriented Popular Statistical Package for All Types of Computer
Jin Pihuan (China) 770

PETBASE, A Statistical Database-System for the Anatomically-Based Analysis of PET Data
C Beil and H Bömer (FRG) 774

PART 2

Computers and Medical Records
Session 32: I Standardisation and Automation

Augmented Physician Interactive Medical Record
Ben T Williams, Carl Foote, Chris Galassie and Robert C Schaeffer (USA) 779

The Portable Patient File: An Intelligent Automated Medical Record
Shon Naeymirad, David Trace, Frank Naeymi-Rad, Lowell Carmony, Masayo Kobashi, Theresa Kepic and Martha Evens (USA) 784

UMIS, Universal Medical Information Service - History and Progress
Donald C Walker (Australia) 790

Adapting a Medical Language Processor from English to French
Naomi Sager, Margaret Lyman, Leo J Tick, François Borst, Ngo Thanh Nhan, Claude Reveillard, Yun Su and Jean-Raoul Scherrer (USA, Switzerland & China) 795

Context & Relevance in the Automatic Indexing of Natural Language Discharge Letters
P Dujols, P Aubas and E Charpentier (France) 800

Concepts for a Medical Data Dictionary
A Michel, H U Prokosch and J Dudeck (FRG) 805
Session 33: II Applications in Clinical Practice

Pilot Test and Preliminary Evaluation of an Optical Card Medical Record System
C Vallbona, J H U Brown, J Albin, J Shoda, J Norris and M Fowler (USA) 809

An Electronic Notebook for Problem Oriented Patient Progress Notes: Testing a Concept
A Assimacopoulos, C Revillard, F Herrmann, F Borst, N Paschoud and J R Scherrer (Switzerland) 813

Computers on the Ward: Orthopaedic Care with a Paperless Medical Record and Nursing Plan
Timo Niinimaki, Heino Poutanen, Britt-Marie Myllyla and Raija Tervo-Pellikka (Finland) 818

A Problem Oriented Computerized Medical Record System (CLINIC) for a Community Care Clinic Featuring Direct Data Entry by Medical Personnel
Jacob Urkin, Sheila Warshawsky, Oded Dagan and Carmi Z Margolis (Israel) 822

Training Medical Students in History Taking Using Unrestricted Natural Language and Digital Pre-Recorded Vocal Output
Michael Anbar, Sean J D'Arcy and Ada Anbar (USA) 825

Patient-Held Records: A Step Towards Better Clinical Information?
K K Cheng, S M Mcghee, R B Jones and A J Hedley (Hong Kong & UK) 829

Coding and Classification
Session 34: I

The Use of the International Classification of Primary Care is an Episode-Oriented Database
Henk Lamberts (The Netherlands) 835

SNOMED and MeSH Translation of Autopsy Diagnoses from English and French Natural Language Text
Rudolph P Baumann, Emmanuel N Nsah and G William Moore (Switzerland & USA) 840

Identification of the Phase of Mitosis of High Resolution Human Chromosomes by Coding Method: An Application of Pansystem Theory
Su Zaifu, Liu Xixian and Bao Hanfei (China) 844

Computerized Chinese Classification of Diseases and Coding System
Li Ensheng (China) 848

Barrier Word Method for Detecting Multiple-Word Dutch Medical Terms at First Encounter
Kasper W F Tersmette, A C Tersmette MPH, G William Moore, Robert E Miller, G J A Offerhaus and A J P M Overbeke (USA & The Netherlands) 853

Barrier Word Method for Detecting Multiple-Word French Medical Terms at First Encounter
Emmanuel N Nsah, G William Moore, Chantal Bismuth and Christine S Leonhardt (USA, France & Canada) 858
Session 35: II

Information System Development for Case-Mix Management in Belgium
F H Roger, M C Closon, F Moraux, C Beguin, M Joos and J L Willems (Belgium) 863

DRG's and Severity in Intensive Care Unit
J L Pourriat, B Huet, J M Rodrigues, J Fosse and M Cupa (France) 866

Using Diagnostic Related Groups (DRGs) in a Spanish Database
Merce Casas, Rosa Tomas, Carlos Murillo and Francisco Ortiz (Spain) 871

A French Extension of the ICD-9 for the Classification of Human Immunodeficiency Virus (HIV) Infections
Fabrice Boulay (France) 875

Christopher G Chute and Roger A Côté (USA & Canada) 878

Proposed Model for Coding of Patient Nurse Data
Joyce J Fitzpatrick and Roy L Simpson (USA) 882

Computers and Medical Literature

Session 36: I Bibliographic Systems

The Use of Bibliographic Information in Medicine
Nancy K Roderer (USA) 887

Nurseline: An On-Line Nursing Management Information System
Virginia K Saba (USA) 892

A Bibliometric Analysis of Acupuncture Literature Based on ACULARS
Wu Lancheng, Peng Liyan, Liu Xinghua, Cheng Jianxin, Deng Qingqing and Liu Jing (China) 896

Creating a Chinese Language Interface for the Quick Medical Reference (QMR) Program
He Yu-sheng, Fred E Masarie Jr, Randolph A Miller and Zheng Te (China & USA) 900

Options for Searching MEDLINE: The CD-ROM Alternative
Carol Hansen Fenichel (USA) 903

Session 37: II Processing and Interpretation of Medical Reference Data

A Bit-Mapped Workstation for Multi-Lingual Medical Research
Richard F Walters (USA) 906

A Test Collection for Experimentation in Bibliographic Retrieval
Peri L Schuyler, Alexa T McCray and Harold M Schoolman (USA) 910

English-Japanese and Japanese-English Machine Translations of Medical Literature
Takahiro Kiuchi and Shigekoto Kaihara (Japan) 913

English-Chinese Character Translation:
Observations on Hardware and Software Standards
Donald C Kern and Zheng Te (USA & China) 918

Traditional Chinese Medical Literature Analysis and Retrieval System
Lu Rongying, Han Xiurong, Fang Ling, Shi Zhenwu, Zhou Jixian and Fu Zhuo (China) 922

Nursing Intervention Lexicon & Taxonomy Study:
Description of a Conceptual Framework
Susan J Grobe (USA) 925
Education in Medical Informatics

Session 38

Medical Informatics and Education: Review of an IMIA Conference
J R Moehr, D J Protti and R Salamon (Canada & France) 931

Authoring System for Easy Design and Implementation of Microcomputer-Based Patient Simulations
J Bozikov, F Santek, T Akatsuka, Gj Dezelic, J Kern and T Kubo (Yugoslavia & Japan) 936

Computers and Medical Education
A Hasman (The Netherlands) 940

Education in Nursing Informatics: Curriculum and Clientele
Barbara R Heller, Carol A Romano and Lisa R Moray (USA) 945

A Practical Course on Knowledge Engineering for Health Professionals
Renato M E Sabbatini (Brazil) 949

An Intelligent Tutoring System Designed for Rural Health Workers in Developing Countries
P Aegerter, B Auvert, V Gilbos, G Desve, V Adrian, M F Landre and D Bos (France) 953

Information Systems in Medicine and Health Care

Session 39: I

A Simulation Model of a General Hospital in Times of Emergency
D Bregman, L Epstein and I Shemer (Israel) 959

A Total Health Support System by Evolution Not Revolution
Jean Roberts (UK) 963

CLINQUERY: A Program that Allows Physicians to Search a Large Clinical Database
Charles Safran, Charles Rury, John Lightfoot and Douglas Porter (USA) 966

The Present and Future Health Information System of the German Democratic Republic
Doris Panzer (GDR) 971

Session 40: II

DDx & Tx: The Dental Diagnosis and Treatment Project
Lynn A Johnson (USA) 976

ARPIA: Ambulatory and Research in Pediatrics by Information Assistance
Paolino Di Felice, Allesandro D'Atri and Vincenzo Currò (Italy) 979

Using an Automated Referral System for Social Work
Al Crawford and Allison J Young (USA) 983

Development of the Health Center Information System in the City of Seoul
Hyeoun-Ae Park (Korea) 987

A Computer-Based Appointment System for General Practice
TJ Howkins and C R Kay (UK) 991
Session 41: III Support of Epidemiology and Public Health
Assessment of a Probabilistic Decision Support Methodology for Tropical Health Care
Peter Byass and P. Tumani Corrah (The Gambia) 995
A Preliminary Optimal Control Model for the AIDS Epidemic
Eduardo Massad (Brazil) 1001
Follow-Up Studies: A Practical Model and its Computer Simulations
Zhao Guolong, Xia Jielai, Xu Yongyong and Xiong Shisong (China) 1006
The Operator Receiving Characteristic (ORC) Curve:
Evaluation of the Influence of Varying End Point Criteria on the Validity of Diagnostic Tests
H W Jongsma and J J M Menssen (The Netherlands) 1011

Session 42: IV Health Care Support Systems
Eric Macdonald and Michael H Nusbaum (Canada) 1015
Information System Requirements for Modelling the Needs of a Public Health Care System
Michal T Bojanczyk and Jacek B Krawczyk (Kuwait & New Zealand) 1019
Methods for Infectious Disease Forecasting
Hao Hongqi, Feng Hongyou and Li Cheng (China) 1024
Clinical Information Systems: The Key to Better Management for Long Term Care of Chronic Disease
A J Hedley, R B Jones, S M McGhee and Cheng K K (Hong Kong & UK) 1029
HL7: An Emerging Standard for Health Information Systems
S Schultz and I Abraham (USA) 1032

Evaluation and Planning for Health Care
Session 43
A Simulation Environment for the Recipient Selection in Kidney Transplantation
Thomas Wujciak (FRG) 1039
Testing the Completeness of Epidemiological Case Reporting Systems: A Statistical Method for Chronic Diseases
A Verdecchia and S Giampaoli (Italy) 1043
The Balance of Care Microcomputer System
Paul Forte and Tom Bowen (UK) 1047
A Job Orientation Model of Impact on Work Seven Months Post Implementation
Bonnie Kaplan and Dennis Duchon (USA) 1051
Medical Informatics in Different Countries

Session 44

Human Resources System of Ministry of Public Health
Jorge Fernandez (Cuba) 1059

Developing Informatics Plans in Health Care Organizations
V L Perez (Chile) 1062

Medical Informatics in China: Developments, Problems and Discussions
Cao Dexian (China) 1065

Introduction of Microcomputer Technology to Primary Health Care Facilities at District Level - The Experience of the University of Malaya, Malaysia
Soon-Teong Teoh (Malaysia) 1070

The State of Development of Informatics in Primary Health Care in Norway
Jon Hilmar Iversen, Rolf Hansen, Petter Hurlen and Bjarte G Solheim (Norway) 1074

Computer Assisted Instruction in Continuing Education for Primary Health Care: Project Concepts and Development
Gj Dezelic, T Akatsuka, J Bozikov, M Hori, J Kern, T Kubo and F Santek (Yugoslavia & Japan) 1078

Computer Networking

Session 45: I

Communication in a Hospital Information System - Improvement by ISDN
Carl-Theo Ehlers (FRG) 1085

From a Dedicated HIS Towards an Open Architecture
J M L Kouwenberg, M J T van Gennip and A R Bakker (The Netherlands) 1089

Messaging: Open Systems in Practice
P S Athwall (UK) 1093

R-NET: A Computer Network for the Physically Disabled
Umri R Nejib PhD (USA) 1097

A Heterogeneous MUMPS Network as Basis for a Departmental Clinical Information System
H Pitz, H P Howaldt and W Giere (FRG) 1101

Session 46: II

NHS Family Practitioner Service Data Communications Strategy
Seth Mason (UK) 1104

Computer Communication System for NCKU Hospital
T S Chen and T G Gough (China) 1108

Computerization of a Clinical Trial to Acquire Data in Real-Time and to Manage Them with a Network of Laptop Computers Using User-Friendly Software
Véronique Piffero, Renée Benghozi, Michel Wurm, Jean Gourdin and Marc O Vermeille (France) 1113

Linking and Pooling National Clinical Research Data
Donald R Studney and Donald W Paty (Canada) 1117

A Computer Communication Network for Hospitals and General Practice
P G Arnou, P C Bouman, A Hasman and P H Ferwerda (The Netherlands) 1121
Developments in Medical Databases
Session 47

Pragmatic Database Modelling
Patrice Degoulet and François-Christophe Jean (France) 1127

Data and Methodbase Management Software System (RAMSES)
for Image Processing in Tissue Characterizing
Magnetic Resonance Imaging
Thomas Tolxdorff, Heinz Handels, Frauke Upmeier, Helmut Drießen and
Rudolf Repges (FRG) 1132

A Proposal for the Use of Distributed Relational Database Management
Systems (DRDBMS) in Public Hospitals
Valerio J Yácuuboyn (Argentina) 1136

Traditional Chinese Medicines Contemporary Literature Database
and Retrieval System
Guo Fengwen, Liu Jingmin, Zheng Ruitai and Hong Xiaoshun (China) 1140

Research and Development of Traditional Chinese Prescription
Intelligent Analysis Support System (CPIASS)
Sun Jizheng, Ren Tingge, Liu Hongjun and Wang Jiacai (China) 1144

Developments in Technical Support Systems
Session 48

Smart Cards in Health Care: A Solution in Search of a Problem
Nancy Mann (USA) 1151

A Prototype for Adaptable Physician-Directed Data Entry
Rick Pionkowski, Arthur Baskin and Ben T Williams (USA) 1156

Filmless Medical Imaging System
Melvin Siedband and Huilian Zhang (USA) 1160

An Application of Optical Cards to Mass Health Examination
Shoichiro Hara, Koryo Sawai, Setuko Nakamura, Akehi Yamazaki and
Toshiyuki Furukawa (Japan) 1164

The CD-WORM in Practice
D K Donker and A Hasman (The Netherlands) 1169

A Computerized Health Equipment Management System
Wang Binseng and Cleidemir de P Cândido (Brazil) 1172
SCIENTIFIC DEMONSTRATION SESSIONS

Demonstration Session 101: Decision Support in Medicine I

Computerized Decision Support for Diagnosis and Treatment in Dental Practice
L M Abbey (USA) 1179

A Computer Assisted System for Diagnostic and Therapeutic Decisions in Acute Renal Failure in Children
Marek W Kurzynski, Jerzy Sas and Marek Jelenik (Poland) 1179

A Medical Consultation System for Use in Pharmacies and it's Approximate Reasoning Algorithm
Guo Rongjiang, Liu Subin, Takao Ozaki and Teru Inaba (China) 1180

A Consultative System for Diagnosis, Treatment and Fluid Therapy of Burns
Chen Qiuhao, Xiao Han, Sun Yonghua and Li Chi (China) 1180

HEPAXPERT: Automated Interpretation of Hepatitis Serology Findings
Klaus-Peter Adlassnig and Wolfgang Horak (Austria) 1181

Demonstration Session 102: Decision Support in Medicine II

Evaluation and Testing of Decision Models with Data Bases: Laboratory and Clinical Medicine/Nursing Applications
Casimir A Kulikowski, Sholom M Weiss, Robert S Galen, Duncan Neuhauser, Patricia Brennen and Charles Safran (USA) 1182

A Knowledge-Based System For Giving Expert Advice to the Patient in All Matters Relating to Conception, Pregnancy and Childbirth
Bernard Richards, Glyn Hayes and F Leong (UK) 1183

Expert Systems & Interactive Videodisc for Lymph-Node Pathology
B N Nathwani, D E Heckerman and E J Horvitz (USA) 1184

The Application of Decision Trees in Common Body Development Determination: Learning from Examples
Martin Bigec, Kurt Kancler, Peter Kokol and Marjan Mernik (Yugoslavia) 1185

Demonstration Session 103: Decision Support in Medicine III: Applications for Traditional Chinese Medicine

Computer Applications in Nursing of Traditional Chinese Medicine
Tan Degao (China) 1186

Connectionist Traditional Chinese Medicine Expert System-----NCCS
Tian He and Tai Juwei (China) 1186

Application of a Computer to Simulate Litong Ma's Therapeutic Qigong for Medical Treatments and Health
Huang Fengling, Wang Xiang and Fu Guoqiang (China) 1187

ZJXT Acupuncture Expert System
Yue Changli, Yu Zhishun, Liu Xiao Wei, Huang Bingshan, Shi Xian and Hao Jihun (China) 1188
Demonstration Session 104: Hospital Information Systems and Workstations

Towards a Manager's Workstation
John Kwok, Alastair Morgan and David Rodrick (UK) 1189

PACS Desktop Workstation for Interactive Image Analysis
Osman Ratib, H K Huang and Jean-R Scherrer (Switzerland) 1189

DIOGENE: Trends of a Fully Integrated Hospital Information System
J-R Scherrer, Baud, A Brisebarre, A Assimacopolous, A Rougé and D de Roulet (Switzerland) 1190

Zanny - A Computer Based System for Dental Practice
I-V Wagner, W Schneider, G Olsson, F Bergqvist, L Hennig, K Lövgren, G Moberg, S Steen, C Schönqvist, R Dittler H Kunath, G Zenner and D Riedel (DDR & Sweden) 1191

An Integrated Health Care Information System Developed by MIMER Software AB for Stockholm County Council
Sten Åke Sandström (Sweden) 1192

Demonstration Session 105: Image Processing

Autorecognition of Schistosomal Eggs with Microcomputer
Huang Weiheng and Wan Zhihong (China) 1193

Obtaining Shapes of Nucleus and Sub-Nucleuses in 3-D Space with Image Analysis Technology
Shen Yifan, Wang Chengdao and Wan Jiaruo (China) 1194

DARE - Data Base Radiology Essen - a Five Years' Experience
Eberhard Löh, Thomas Philippi and Lena Löh (FRG) 1195

Demonstration Session 106: Clinical Computer Applications I

Brain Chart: A Useful Tool for Brain Lesion Localization
Joseph C Masdeu and David Suarez (USA) 1197

Measurements of the Parameters of ECOCHG and AP Tuning Curve and their Clinical Applications
Chen Hongwen and Gu Rui (China) 1197

Acute Trauma Simulation Using MICROTEXT
William A Corbett, Paul R Edwards, Malcolm J Taylor and Caroline Johnson (UK) 1198

Application of Microprocessor on Apple II in Inspecting and Analysing Ultrasonic Cardiogram
Qiu Deshu and Pan Jiuyi (China) 1198
Demonstration Session 107: Clinical Computer Applications II

Computerised Analysis of the Plantar and Step Rest as a Reckoning Method of the Pathological Foot
T Carletti, A Fasci, E Casiraghi, G Spada and V Pietrogrande (Italy) 1199

Body Surface Electrocardiographic Peak Mapping Diagnostic System
Wen Yinmei, Lu Weiwu, Chang Yuping, Wang Zhengping, Liu Xiaojie, Fang Qiding and Wang Xiaoyin (China) 1200

Computers in Intensive Care Units: Patient Management Using the PDB System
R Salasidis, A L Padjen and D Fleiszer (Canada) 1200

On the Hypothesis of the Electrocardial Quasi-Spheroid Field
Yin Bingsheng, Liang Zhongyou, Zhan Guoan, Yang Shuiquan, Pan Sida, Yan Qixian, Nong Debing and Wang Jie (China) 1201

Computerised Interpretation of ECG
Jan A Kors and Jan H van Bemmel (The Netherlands) 1201

Demonstration Session 108: Clinical Computer Applications III

Microcomputer-Controlled Multi-Hue Contrast Sensitivity Function Tester
Du Li, Liu Haiyi, Su Guangda, Sung Chen, Ren Lianzhong and Wai Shihui (China) 1202

A Consulting System for Nutrition of Chinese Elite Athletes
Huang Yinmin, Chen Qing, Chen Jidi, Wang Jianfang, Yuan Qiang, Zhang Ceayuan, Lin Zhenqi and Wang Shewan (China) 1203

Research on Multi-Purpose System of Auto-Analysis of Sphygmogram and Several Common Pulses
Lu Huimin, Xu Yuexin, Yin Ganglin, Lui Yang and Zhu Yanmei (China) 1203

Design of a Measuring Gait System
Zhuang Yalun, Wang Zuchang, Huang Songnian, Zhang Jianzhong and Yu Jingcheng (China) 1204

Demonstration Session 109: Medical Records

ELIAS, Support for Medical Care
Wilfried M Boon and Joop S Duisterhout (The Netherlands) 1205

Computer Interrogation of Patients and Diagnostic Decision Support in Dyspepsia
G Lindberg and R P Knill-Jones (Sweden) 1206

Making an Electronic Medical Record System
Y Yamashita, S Sasayama, A Endo, T Sakurai and T Takahashi (Japan) 1207

Demonstration Session 110: Medical Language Translation and Coding I

Information System for Chinese Materia Medica in Thousands of Traditional Prescriptions
Hu Shilin, Zhang Yi and Li Shan (China) 1208

Quick Medical Reference (QMR): A Microcomputer-based Diagnostic Support Tool for Internal Medicine
Fred E Masarie Jr and Randolph A Miller (USA) 1209

Medical Words and Phrases Information Processing System
Mao Shusong, Wang Tanweng, Wang Yawang, Shen Zhong and Kong Linren (China) 1209

Natural Language Interpretation to SNOMED and ICD-9
Yoichi Satomura and Masayuki Honda (Japan) 1210
Demonstration Session 111: Medical Language Translation and Coding II

A Machine Translation System for Medical Literature
Min Zhenhui, Shia Zhenhua and Chen Zhenjie (China) 1211

Clinical Practical System of Intelligence Chinese Characters Processing
Liu Shugen, Xiong Zhijian, Li Zuqing, Shan Suxi and Wu Dingzhan (China) 1211

TRANSOFT: MUMPS-Based Medical Translator
G William Moore, Wolfgang Giere, Ichiro Wakai and Yoichi Satomura (USA) 1212

Chinese Characters and Words Input System for Medicine
Zhang Zhongmin, Yang Wenbin, Zhu Jianfei, Zhou Genlin, Wang Xulong and Huang Yihua (China) 1212

Demonstration Session 112: Teaching Support Systems

CARDIOLOGIST: A CAI System for Heart Failure Based on Simulation of Cardiovascular System
Harukazu Tsuruta, Akihiro Takeuchi, Noriaki Ikeda and Toshiro Sato (Japan) 1213

Glomerulonephritis Educational Program - A Model of Individualised Learning
N Akamine, A B Pereira, C J M Pena, C T Costa, C Csillag and D Sigulem (Brazil) 1214

MATRIX - An Authoring Program for Computer - Assisted Learning in Medical Education
Branko Cesnik and Michael R Kidd (Australia) 1215

CASES - A Complete Software Package for Teachers to Produce Interactive Simulations of Patient Management
Hugo A Verbeek (The Netherlands) 1216

The Application of Information Technology to Dental Education
J David Hardison and Eric E Spohn (USA) 1217

Demonstration Session 113: Support of Epidemiology and Statistics

The Intermediate and Independent Variables Governing China's Population - with the Data Analysis of Medical Population of Present Site in Beijing 1987
Mao Huina (China) 1218

An Exploration of Exponential Regression Model to Fit Pneumoconiosis Data
Zhu Xiuqian, Yin Ping, Yu Songlin and Wang Song (China) 1218

Lun Kwok Chan (Singapore) 1219

Indicators of Performance of the National Health Service in England
Ray Rogers (UK) 1220

Computerised Production of Health Service Indicators
Greg Philpotts (UK) 1221

Molecular Modelling Using IMB PC Computers
Leung Hei-wun, Yip Ching-wan and Yeung Hing-Wing (Hong Kong) 1222
Poster Sessions

Decision Support 1225
Hospital Information Systems 1227
Clinical Applications 1229
Information Systems in Health Care 1231
Informatics in Dentistry, Nursing and Pharmacy; Computers in Education 1235
Coding and Classification; Computer Networking; Computers and Imaging 1236
