

PROCEEDINGS OF THE THIRD INTERNATIONAL CONFERENCE ON TAILINGS  
AND MINE WASTE '96/FORT COLLINS/COLORADO/USA/16-19 JANUARY 1996

# Tailings and Mine Waste '96

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/1996

## Table of contents

|  |    |
|--|----|
| Preface  | XI |
| <br><i>Introduction</i>  |    |
| Tailings, tailing, or tails<br><i>J.D.Nelson</i>   | 3  |
| <br><i>Regulatory considerations</i>   |    |
| A collaborative approach for mine waste cleanup – The Animas River experience<br><i>G.Broetzman &amp; G.Parsons</i>  | 7  |
| Title V permitting issues for the mining and minerals processing industries<br><i>D.H.Gebhart</i>  | 15 |
| Mine closure regulations and activity: Nevada style<br><i>D.A.Jones</i>  | 21 |
| Use of the new ecological risk screening guidelines to drive down remedial costs at mine tailings sites<br><i>R.Braun, M.Saunders, J.Booras &amp; J.Tucker</i> | 29 |
| <br><i>Design and operation</i>  |    |
| Geometrical control and operational analysis of tailings dams<br><i>E.I.Reid</i>   | 39 |
| Design evolution of tailings dams at Inco Sudbury<br><i>T.E.Martin &amp; I.Tissington</i>  | 49 |
| Investigation of chemical clogging of drains at Inco's Central Area tailings dams<br><i>H.D.Plewes &amp; T.McDonald</i>  | 59 |

|  |     |
|--|-----|
| Volume reduction of oil sands fine tails utilizing nonsegregating tailings<br><i>Y.B.Liu, D.L.Caughill, W.Shaw, E.Lord, R.Burns &amp; J.D.Scott</i>  | 73  |
| Tailings impoundment design – Striving for balance<br><i>R.R.Davidson, P.A.Stauffer &amp; R.E.Moran</i>  | 83  |
| Management of fine tailings<br><i>H.K.Mittal &amp; N.Holl</i>  | 91  |
| Seismic cone penetration testing for evaluating the compressibility<br>and liquefaction potential of mine tailings<br><i>D.J.Woeller, P.K.Robertson, T.J.Boyd, J.Greig &amp; I.Weemees</i> | 101 |
| Design considerations for tailings dams<br><i>R.C.Lo &amp; E.J.Klohn</i>   | 113 |
| Cost effective backfill design for a reclamation impoundment<br><i>J.M.Pool, T.W.Hardgrove &amp; J.F.Crouch</i>  | 123 |
| The evaluation of thickened tailings in a seismic area<br><i>B.McMahon, J.T.Phillips &amp; W.A.Hutton</i>  | 133 |
| <br><i>Geotechnical considerations</i>   |     |
| Behavior and properties of phosphorus contaminated sludge<br><i>A.C.Jones, I.Arango &amp; J.Brummer</i>  | 147 |
| Hydraulic conductivity of oil shale solid waste<br><i>J.P.Turner &amp; S.Rangarajan</i>  | 159 |
| Development and shear strength parameters of paste backfill<br><i>L.Bodi, G.Hunt &amp; T.Lahnalampi</i>  | 169 |
| A field study of the consolidation behaviour of saline gold tailings<br><i>T.Newson, Y.Fujiyasu &amp; M.Fahey</i>  | 179 |
| Field tests evaluating freeze-thaw dewatering of fine tailings<br><i>S.A.Proskin, D.C.Sego &amp; R.Burns</i>   | 189 |
| <br><i>Liners, covers, barriers</i>  |     |
| Capillary barriers for covering mine wastes<br><i>J.C.Stormont, C.E.Morris &amp; R.E.Finley</i>  | 201 |
| Assessment of the performance of a capillary barrier<br><i>H.J.Morel-Seytoux</i>   | 211 |
| Disposal cell cover selection – Riprap vs. grass<br><i>R.Rager, G.Thiers, M.McClanahan &amp; S.Grozescu</i>  | 219 |

|   |     |
|---|-----|
| Predicting sandstone riprap erosion rates<br><i>G.V.Wilkerson, S.R.Abt &amp; T.L.Johnson</i>  | 229 |
| Overview of geomembrane liner failures<br><i>A.J.Breitenbach</i>  | 239 |
| Large-scale hydraulic testing of low-permeability clays<br><i>S.Grozescu, D.Dobkowski &amp; R.Baradaran</i>   | 243 |
| Field evaluation of montan wax/bentonite sealants to seal voids in a coal mine tailing site and reduce contaminated mine drainage to nearby creek: Preliminary results<br><i>F.Djahanguiri, W.Kanges &amp; J.Koerth</i> | 253 |
| Waste containment barrier enhancement with zeolite<br><i>D.K.Allerton, H.W.Olsen, G.A.Desborough &amp; N.Y.Chang</i>  | 255 |
| Self-sealing hardpan barriers to minimize infiltration of water into sulfide-bearing overburden, ore, and tailings piles<br><i>J.A.Chermak &amp; D.D.Runnels</i>  | 265 |
| A contractor's perspective on the construction of soil bentonite radon barriers<br><i>B.Frame Jr &amp; T.Webber</i>   | 275 |
| A prototype barrier for long term waste isolation<br><i>R.I.Watkins</i>   | 279 |
| A combination system for protection of the geological environment in toxic waste disposal area<br><i>A.G.Lunev, N.N.Tsapkova, G.N.Pavlik &amp; V.R.Babayan</i>  | 289 |
| Geochemical barriers as an effective method for geological environment protection<br><i>B.N.Isayev, G.N.Pavlik, N.N.Tsapkova, S.Y.Badeyev &amp; V.R.Babayan</i>   | 291 |
| <br><i>Groundwater and geochemistry</i>   |     |
| Decommissioning of sulphuric acid-leached heap by rinsing<br><i>M.Li, C.Jacob &amp; G.Comeau</i>  | 295 |
| Solubility and transport of arsenic coal ash<br><i>R.Iturbe, C.Cruickshank, E.Vega &amp; A.E.Silva</i>  | 305 |
| Pseudo-contaminants: A geochemical rationale<br><i>J.Bush &amp; M.Hall</i>  | 319 |
| Numerical simulation of low-flow bulkheads to reduce uncontrolled discharge from an underground copper mine<br><i>R.L.Lewis, J.I.Hershman, I.R.McGowan &amp; J.Tilk</i>   | 331 |

|   |     |
|---|-----|
| A new approach to modeling metal contaminant transport associated with mining wastes  | 341 |
| <i>C.Zhu, G.-T.Yeh &amp; R.K.Waddell</i>  |     |
| Experimental simulation of waste rock weathering under unsaturated and saturated conditions at Iron Mountain, California          | 351 |
| <i>D.C.Keith &amp; D.D.Runnells</i>   |     |
| Mine waste site characterization: Use of andesite as an AMD neutralizing media  | 361 |
| <i>I.F.Walder, C.Zimmer, W.X.Chavez, Jr</i>   |     |
| Mathematical modelling as an integral part of monitoring  | 375 |
| <i>G.N.Pavlik</i>   |     |
| <br><i>Surface water quality and modelling</i>  |     |
| Screening-level assessment of nonpoint source pollution from inactive hardrock mines in the Cement Creek Basin, Colorado          | 381 |
| <i>B.S.Caruso &amp; J.C.Loftis</i>  |     |
| Fluvial transport and long-term mobility of mining-related zinc   | 395 |
| <i>R.T.Pavlovsky</i>  |     |
| Geomorphic and hydraulic characteristics of the Colorado River, Moab, Utah: Potential impacts on a uranium tailings disposal site | 405 |
| <i>R.A.Mussetter &amp; M.D.Harvey</i>   |     |
| Seasonal liabilities from the McLaren tailings on aquatic resources in Soda Butte Creek and Yellowstone National Park             | 415 |
| <i>D.R.Nimmo &amp; M.J.Willox</i>   |     |
| Channel morphology and copper concentrations in stream bed sediments  | 421 |
| <i>W.A.Marcus, S.C.Ladd &amp; M.Crotteau</i>  |     |
| Long term stream sediment quality resulting from channel meandering and sediment redeposition within in-situ treated areas        | 431 |
| <i>M.Ramey, S.Beck, M.Yovich, P.Weber, C.Stilwell &amp; D.McCarthy</i>  |     |
| Demonstration of an innovative heavy metals removal process   | 443 |
| <i>R.E.McLaughlin</i>   |     |
| Nanofiltration for removal of surplus water in dump leaching  | 451 |
| <i>P.K.Eriksson, L.A.Lien &amp; D.H.Green</i>   |     |
| Consolidated tailings release water chemistry   | 459 |
| <i>R.J.Mikula, K.L.Kasperski &amp; R.D.Burns</i>  |     |
| Post-mining pit lakes: Predicting lake chemistry and assessing ecological risks   | 469 |
| <i>D.A.Pillard, T.A.Doyle, D.D.Runnells &amp; J.Young</i>   |     |

|  |     |
|--|-----|
| Geochemistry and physical limnology of an acidic pit lake<br><i>D.B.Levy, K.H.Custis, W.H.Casey &amp; P.A.Rock</i>   | 479 |
| <br><i>Remediation and reclamation</i>   |     |
| Applications of electrokinetics in tailing treatment<br><i>J.Q.Shang &amp; K.Y.Lo</i>  | 493 |
| Experiences with insitu tests in mine tailings for reclamation and facility expansion<br><i>B.F.Ulrich &amp; D.R.East</i>  | 505 |
| Characterization of fine processed mine tailings deposits for purposes of dry landscape reclamation<br><i>R.P.Stahl, D.C.Sego, P.K.Robertson &amp; D.Woeller</i>   | 515 |
| Biological oxidation of cyanide: A viable treatment option for the minerals processing industry?<br><i>J.B.Mosher &amp; L.Figueroa</i>   | 525 |
| Pilot-scale biotreatment of cyanide and metal-containing wastewater at the Summitville Mine Superfund Site<br><i>R.C.Fischer, K.H.Viskocil, L.C.Thompson, C.S.Caldwell, A.E.Seep, L.Williams &amp; J.Hubbard</i> | 535 |
| <br><i>Reprocessing and utilization</i>  |     |
| Recovery of gold from Whitewood Creek tailings<br><i>Y.C.Guan &amp; K.N.Han</i>  | 549 |
| Reprocessing of chromite tailings of Fariab Mine, Iran<br><i>H.Nematollahi</i>   | 559 |
| Use of mine tailings in construction materials<br><i>J.D.Dean, J.E.Stephens &amp; J.Bancroft</i>   | 567 |
| Surface waste of the Tri-State Mining District<br><i>D.R.Hinrichs</i>  | 577 |
| <br><i>Case histories</i>  |     |
| Progress of early action activities at the Blackbird Mine Site<br><i>M.L.Brown &amp; A.J.Fleming</i>   | 583 |
| Case history: Reclamation plan, Atlas Corporation, Moab, Utah<br><i>B.W.Hassinger</i>  | 591 |
| Durango disposal cell – UMTRA Case History<br><i>M.Wesely, H.Hempill, M.Thomson &amp; C.Weston</i>   | 601 |

|  |     |
|--|-----|
| Risk assessment for CMR tailings dam complex<br><i>W.Roberds, G.Strayton &amp; J.Wates</i>                             | 609 |
| Case study of Western Nuclear Split Rock Millsite reclamation<br><i>M.A.Pasha</i>                                      | 621 |
| Tailings management practices at Syncrude – From research to practice<br><i>B.R.List &amp; E.R.F.Lord</i>              | 631 |
| Tailings impoundment at Quebec Cartier Mining<br><i>N.L.Journeaux, C.Bédard, J.Lemieux, M.-H.Paquette &amp; D.Lang</i> | 643 |
| Installation of steel sheet piling: A case history<br><i>J.G.Bush</i>  | 653 |
| Author index   | 663 |
