

PROCEEDINGS OF THE FOURTH INTERNATIONAL CONFERENCE ON TAILINGS
AND MINE WASTE '97/FORT COLLINS/COLORADO/USA/13-17 JANUARY 1997

Tailings and Mine Waste '97

UNIVERSITÄTSBIBLIOTHEK
HANNOVER
TECHNISCHE
INFORMATIONSBIBLIOTHEK

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/1997

Table of contents

Preface	XIII
 <i>Introduction</i>	
Ground water, groundwater, or ground-water <i>J.D.Nelson</i>	3
 <i>Regulatory</i>	
A proactive approach to addressing mine environmental issues <i>M.W.Staub & B.V.Close</i>	7
Collaborative innovative technology evaluation: A potential model for mining-impacted sites <i>G.Peters & R.Waesche</i>	15
Use of risk-based standards for restoration of ground water at in situ uranium mines <i>E.Caldwell & J.Johnson</i>	21
Implementing the natural flushing strategy: An approach to meeting the EPA ground water standards at select uranium mill tailings sites <i>D.Metzler, R.Knowlton, D.Peterson, J.Knott, H.Zhang & R.Plienness</i>	27
An overview of the South African Code of Practice for Mine Residue Disposal <i>B.C.S.Robinson</i>	35
Mining reform and environmental quality in Latin America <i>K.Wilkerson</i>	41
Regulatory and technical tailings design considerations in Chile <i>A.J.Krause</i>	51

Design and operation

Mine sealing: Design guidelines and considerations <i>K.Fuenkajorn & J.J.K.Daemen</i>	59
Proposed design for fertilizer gypsum stack and acid pond closure <i>W.A.Ericson, S.K.Patel, A.C.Marek & C.M.Brown</i>	69
Design and operation of Syncrude's Southwest Sand Storage Facility <i>B.R.List, S.Rice & M.P.Davies</i>	79
Electronic bird control in tailings ponds <i>S.B.Patton & R.Dorvall</i>	89
Consumptive use of water associated with tailing pond deposition <i>S.D.Steffens & G.B.Thompson</i>	97
Dredging – Some topics on tailings and mine waste <i>H.van Muijen & M.R.Ouwerkerk</i>	105

Geotechnical

Cone penetrometer testing and textural modeling of copper mill tailings <i>D.W.Steedman</i>	119
Probabilistic large strain mine tailings consolidation predictions <i>D.J.Van Vliet, N.Guiguer, M.C.McVay & N.Holl</i>	129
The evaporation behaviour of tailings <i>T.Newson, Y.Fujiyasu & M.Fahey</i>	137
Predicting the susceptibility of tailings dam slopes to rainfall induced instability <i>A.B.Fourie, D.Rowe & G.E.Blight</i>	147
Leach facility construction on placed rockfill overburden <i>D.P.Cameron & B.R.Bronson</i>	157
Tailings dam constructed from clay stabilized with the tailings <i>C.B.Groves & J.D.Schauer</i>	167
Construction of a clay embankment on loose, saturated tailings sand <i>C.K.Gräpel, B.R.List, H.D.Plewes & P.K.Robertson</i>	173
A seismic analysis technique for tailings dams <i>M.Beikae</i>	181
An update of liquefaction assessment through the Canadian Liquefaction Experiment <i>B.R.List & P.K.Robertson</i>	191

Earthquake hazards in the Intermountain US: Issues relevant to uranium mill tailings disposal	203
<i>I.G.Wong, S.S.Olig, B.W.Hassinger & R.E.Blubaugh</i>	
Effects of blast vibration on saturated tailings slopes	213
<i>S.Vahdani, J.Johnson & D.Jenevein</i>	
 <i>Liners, covers, barriers</i>	
Cost effective and efficient solutions with geosynthetic clay liners for sealing applications in the mining industry	223
<i>D.Stewart & K.von Maubeuge</i>	
A cover system for a potentially acid forming waste rock dump in a dry climate	231
<i>D.J.Williams, G.W.Wilson & N.A.Currey</i>	
Formation of Fe precipitated layers in a mill-tailings deposit: Barriers to metal mobilization	237
<i>Z.Lin & R.B.Herbert Jr</i>	
Evaluation of single layer organic and inorganic cover materials for oxidized tailings	247
<i>L.C.M.Elliott, L.Liu & S.W.Stogran</i>	
Use of deinking residues as cover material in the prevention of AMD generation at an abandoned mine site	257
<i>A.Cabral, G.Lefebvre, M.F.Proulx, C.Audet, M.Labbé & C.Michaud</i>	
The inclusion of biointrusion considerations in the design of the reclamation cover for the DMC tailings impoundments	267
<i>T.McLendon, J.Coleman, R.E.Nelson & T.A.Shepherd</i>	
Riprap rock durability versus rock quality: A case study	283
<i>C.I.Thornton, S.R.Abt & T.L.Johnson</i>	
Analog of the long-term performance of vegetated rocky slopes for landfill covers	291
<i>G.M.Smith, W.J.Waugh & M.K.Kastens</i>	
 <i>Disposal</i>	
Submarine tailings discharge: Optimizing the evaluation and monitoring process	303
<i>M.Rankin, S.Davidson, K.Drysdale, T.Miller, S.Petrovic, R.Zapf-Gilje & D.Van Zyl</i>	
Salt solution cavern disposal for toxic solid mining wastes	317
<i>M.B.Dusseault & B.C.Davidson</i>	

Disposal of fine tailings in the underground mine <i>D.A.Dahlstrom</i>	327
Effectiveness of co-disposing coal washery wastes <i>D.J.Williams</i>	335
Application of paste technology to surface disposal of mineral wastes <i>W.A.Cincilla, D.A.Landriault & R.Verburg</i>	343
Dry tailings disposal using Hi-Density thickening <i>F.Schoenbrunn & T.J.Laros</i>	357
Slurry fracture injection of solid wastes <i>M.B.Dusseault & R.A.Bilak</i>	365
Systems analysis of engineered mine site rehabilitation <i>Y.Wu, D.J.Williams & P.H.Morris</i>	375
 <i>Ground water and geochemistry</i>	
Groundwater compliance – Is it possible in this lifetime? <i>C.L.Yancey & J.P.Gibb</i>	387
Application of mathematical simulation techniques to prediction of the diffusion of pollutants from a phosphogypsum dump <i>G.N.Pavlik</i>	393
Radionuclide transport from mined uranium ore at Peña Blanca, Mexico <i>W.M.Murphy, E.C.Pearcy & D.A.Pickett</i>	401
Hydraulic ash disposal at Kriel thermal power station and its impact on the ground water regime <i>R.J.Stuart, S.A.Dorman, S.J.J.Geldenhuis & R.Timm</i>	405
Operation and monitoring a geologic heat sink in solution mining <i>M.E.Lovejoy</i>	417
Suppression of sulfide mineral oxidation in mine pit walls Part I: Hydrologic modeling <i>G.C.Warren, A.Brown, W.A.Meyer & M.A.Williamson</i>	425
Suppression of sulfide mineral oxidation in mine pit walls Part II: Geochemical modeling <i>W.A.Meyer, M.A.Williamson, G.C.Warren & A.Brown</i>	433
Hydrochemical characterization to support decommissioning of sulfidic tailings <i>D.A.Ellerbroek & D.R.Jones</i>	443
Utilization of a ceramic membrane for acid mine drainage treatment <i>D.Stewart, T.Norman, S.Cordery-Cotter, R.Kleiner & E.Sweeney</i>	453

XRF surveys for three mining waste sites <i>M.T.May, M.W.McCurdy & E.B.Clement</i>	461
Determination of natural background concentrations in water at mining, milling, and smelting sites <i>D.D.Runnells, D.P.Dupon, R.L.Jones & D.J.Cline</i>	471
Calcium manipulation of oil sand tailings material <i>D.J.Haas & R.C.K.Wong</i>	479
Natural attenuation of hazardous constituents in groundwater at uranium mill tailing sites <i>D.W.Erskine, C.L.Yancey & E.P.Lawrence</i>	489
Natural attenuation of ground water constituents at a uranium mill tailings site, Shirley Basin, Wyoming <i>J.A.Schramke, S.F.Murphy, R.L.Lewis, R.L.Medlock & M.J.Franko</i>	499
Utilization of pyritic tailings to mitigate arsenic mobilization in groundwater <i>S.C.Muller</i>	509
 <i>Surface water quality</i>	
Identification of sources of metals in stream sediments using Electron Microprobe techniques <i>K.S.Whiting & R.L.Olsen</i>	519
Chemical, physical and biological interaction at the Berkeley Pit, Butte, Montana <i>R.G.Robins, R.B.Berg, D.K.Dysinger, T.E.Duaine, J.J.Metesh, F.E.Diebold, L.G.Twidwell, G.G.Mitman, W.H.Chatham, H.H.Huang & C.A.Young</i>	529
Are pit lakes susceptible to limnic eruptions? <i>W.M.Murphy</i>	543
A simple model for the management of mine pit-lake filling and dewatering <i>R.N.Havis & S.J.Worthington</i>	549
 <i>Remediation and reclamation</i>	
Methodology for adequacy of sampling of mill tailings and mine waste rock <i>D.D.Runnells, M.J.Shields & R.L.Jones</i>	561
Evaluation of groundwater remediation at a uranium mill site in Uravan, Colorado <i>E.P.Lawrence, D.W.Erskine & C.O.Sealy</i>	565
Accelerating revegetation through infiltration control: Principles and practices <i>R.M.Dixon</i>	577

Determination of runoff metal loading from reclaimed and unreclaimed tailings <i>E.Spotts, W.M.Schafer, C.F.Luckay & T.S.Mitchell</i>	583
Innovative clay disposal and reclamation planning at the PCS Phosphates Hamilton County Mine, Florida <i>C.Winkler III, W.R.Reigner & E.M.Norman</i>	593
Cunningham Hill Mine Reclamation Project – A case study <i>M.Schwartz</i>	603
Voluntary remediation of inactive mine and mill tailings sites in Rico, Colorado <i>E.J.Schneider & R.A.Elliott</i>	613
 <i>Reprocessing, utilization and treatment</i>	
Effluent treatment for removal of cyanide and nitrogen compounds <i>G.Wang, T.Fayram & J.Begeman</i>	625
An innovative technology for tailings treatment <i>D.H.S.Zou</i>	633
Recycling of base metal mine tailings <i>S.Struthers, J.Brumley & G.F.Taylor</i>	643
 <i>Case histories</i>	
The tailings dam flow failure at Merriespruit, South Africa: Causes and consequences <i>F.Wagener, K.Strydom, H.Craig & G.Blight</i>	657
Collapse settlement of wetted mine waste – Two case histories <i>T.W.Peterson & N.H.Wade</i>	667
A case history of tailings consolidation and closure at the Bonanza Mining District <i>B.V.Close, J.H.Rahe & T.M.Scanlon</i>	677
Construction and performance data for the Gibraltar Mine cyclone tailings dam <i>H.D.Plewes, J.Stickney & R.Knopp</i>	685
Isolation of arsenic-bearing mine tailings, Beauty Bay Mine, Kenai Fjords National Park, Alaska <i>M.S.Lockwood, S.Fendorf & L.Stromquist</i>	701
Risk management of Weavers pitwall instability during lake filling <i>C.Anderson, D.Burns & R.Mills</i>	711

Tailing delta slope analysis – Case study <i>T.W.Skoglund, M.J.Halverson & G.Parker</i>	723
The geo-environmental design of a coal refuse impoundment in Illinois <i>B.J.Ripp</i>	731
Geotechnical design of Kennecott Utah Copper Tailings Impoundment expansion <i>P.W.Ridlen, R.R.Davidson, D.L.Manka, J.Pilz & R.E.Dunne</i>	741
The investigation, analysis and deposition management of a diamond tailings facility <i>B.C.S.Robinson & S.K.Maul</i>	753
A history of uranium tailings management in northern Saskatchewan <i>M.A.Balych & L.S.Sinclair</i>	763
Case history: Tailings dam reclamation plan and improvements, Hot Springs, Arkansas <i>T.E.Gieck, C.O.Sealy, J.D.Nelson, D.B.Durkee & D.D.Overton</i>	773
Physical-chemical model compositly grainy of environment, strength and unbakly wally stone from garbage of mountain rocks in the area of Novosibirsk <i>S.A.Kutolin, S.A.Shinin & V.A.Kutolin</i>	785
Author index	787
