Contents

Preface	vii
WAPLES, D. W. Basin modelling: how well have we done?	1
GILES, M. R., INDRELID, S. L. & JAMES, D. M. D.: Compaction – the great unknown in basin modelling	15
OKUI, A., SIEBERT, R. M. & MATSUBAYASHI, H.: Simulation of oil expulsion by 1-D and 2-D basin modelling – saturation threshold and relative permeabilities of source rocks	45
WAPLES, D. W. & COUPLES, G. D.: Some thoughts on porosity reduction – rock mechanics, overpressure and fluid flow	73
TOKUNAGA, T., HOSOYA, S., TOSAKA, H. & KOJIMA, K.: An estimation of the intrinsic permeability of argillaceous rocks and the effects on long-term fluid migration	83
DARBY, D., HASZELDINE, R. S. & COUPLES, G. D.: Central North Sea overpressures: insights into fluid flow from one- and two-dimensional basin modelling	95
THRONSDEN, T. & WANGEN, M.: A comparison between 1-D, 2-D and 3-D basin simulations of compaction, water flow and temperature evolution	109
ARCHARD, G., STAFFORD, J., BARDWELL, K. & BAGGE, M.: A review of techniques used to determine geological and thermal history in the Southern North Sea	117
SCHEGG, R. & LEU, W.: Analysis of erosion events and palaeogeothermal gradients in the North Alpine Foreland Basin of Switzerland	137
HEGRE, J. A., PITTION, J. L., HERBIN, J. P. & LOPATIN, N. V.: Geochemical modelling in an organic-rich source rock: the Bazhenov Formation	157
SYMINGTON, W. A., GREEN, K. E., HUANG, J., POTTORF, R. J. & SUMMA, L. L.: A multidisciplinary approach to modelling secondary migration: a Central North Sea example	169
HO, T. T. Y., JENSEN, R. P., SAHAI, S. K., LEADHOLM, R. H. & SENNESETH, O.: Comparative studies of pre- and post-drilling modelled thermal conductivity and maturity data with post-drilling results: implications for basin modelling and hydrocarbon exploration	187
THOMSEN, R. O.: Aspects of applied basin modelling: sensitivity analysis and scientific risk	209
GALLAGHER, K. & MORROW, D. W.: A novel approach for constraining heat flow histories in sedimentary basins	223
Index	241
