

Proceedings of the

TENTH INTERNATIONAL SYMPOSIUM ON AVIATION PSYCHOLOGY

May 3 – 6, 1999
Columbus, Ohio USA

Sponsored By:

**The Ohio State University Department of Aerospace Engineering, Applied Mechanics and
Aviation**

The International Journal of Aviation Psychology

and

The Association of Aviation Psychologists

Edited by:

**Dr. Richard Jensen
Brian Cox
Dr. Joseph Callister
Robyn Lavis**

Dr. Richard Jensen, *General Chair*

Dr. Joseph Callister, *Program Chair*

Neysa Huber, Angela Weir and Robyn Lavis, *Technical Chair*

UB/TIB Hannover
121 278 077

89

ATC Design

ATC Displays

Design Evaluation of Information Displays in Complex Control Settings..... 609
Deborah Bruce, NTSB Office of Research & Engineering

Touch Input Screens and Animations: More Efficient and Humanized Computer Interactions for ATC (O). 615
Christophe Mertz, CENA, France

Your Attention Please: An Evaluation of Animated Visual Signals for ATC Alarms and Notifications..... 622
Sylvie Athenes, CENA, France
S. Chatty, A. Bustico

Terminal ATC Design

Trust And Pilot Controller Interaction..... 627
Sophie Dusire, CNAM, France
P. Falzon

An Operational Concept for Flying FMS Trajectories in Center and TRACON Airspace..... 633
Everett Palmer, NASA-Ames Research Center
D. Williams, T. Prevot, S. Romahn, T. Goka, N. Smith, B. Crane

Model-based Design and Analysis of ATC-Automation Interaction..... 640
Stephan Romahn, NASA Ames
E. Palmer

Human Error

Human Error

Error Types and Related Error Detection Mechanisms in the Aviation Domain: An Analysis of ASRS Incident Reports..... 646
Heather M. Alexander, Holloman Air Force Base
N. Sarter

Bending the Rules in the Air..... 652
Patrick Hudson, Leiden University, The Netherlands

Controlling Error in the Cockpit..... 658
Keith Hendy, DCIEM, Canada
F. Lichacz

Countermeasures for Skill, Rule and Knowledge-Based Errors..... 664
Paul C. Schutte, NASA Langley Research Center
T. S. Abbott, J. R. Comstock Jr., K. A. Latorella, M. T. Palmer, A. T. Pope, M. Rudisill, A. C. Trujillo, J. S. Berry

Application of FRANCIE for the Transponder Landing System Human Error Analysis..... 671
Lon Haney, Lockheed Martin Idaho
K. Winner

Observing and Analyzing Error and Error Management in Line Audits: Methods and Applications

- Models Of Threat, Error, And CRM In Flight Operations*..... 677
Robert Helmreich, University of Texas at Austin
J. Klinec, J. Wilhelm
- Threat and Error Management: Data From Line Operations Safety Audit*..... 683
James Klinec, University of Texas at Austin
J. Wilhelm
- Analyzing Cockpit Communication: The Links Between Language, Performance, Error, and Workload*... 689
Brian Sexton, University of Texas at Austin
- A New Tool for Investigating and Tracking Human Factors Issues in Incidents*..... 696
Sharon Jones, University of Texas at Austin
B. Tesmer

Human Factors Associated with Air Traffic Operational Errors

- Air Traffic Controller Specialist Radar Scanning Under Current and Proposed Free Flight Conditions*... 702
Earl S. Stein, FAA William J. Hughes Technical Center
B. Willems
- Controller Opinions of Flight Progress Strip Usage In Today's En-Route Environment*..... 707
Carol A. Manning, FAA Civil Aeromedical Institute
- The Effects of Performance Feedback on Air Traffic Control Coordination: A Simulation Study*..... 713
Lawrence L. Bailey, FAA Civil Aeromedical Institute
- Putting the Human Factor in the OE/D Reporting System*..... 720
Julia Pounds, FAA Civil Aeromedical Institute

Maintenance

Maintenance

- Implementing 3D Graphics in Aircraft Maintenance Manuals: A Cognitive Task Analysis Approach*..... 724
Holly S. Bautsch, Logicon Technical Services
C. Calhoun
- Evaluation Of A Program For Training Skills Related To Team Situation Awareness In Aviation Maintenance*..... 730
Mica R. Endsley, SA Technologies
M. M. Robertson, K. Porter
- Analysis of Procedural Errors in Aircraft Maintenance Operations*..... 736
Kristen Nord, SJSU/ NASA Ames Research Center
B. G. Kanki
- Communicating Discrepancies Between Pilots and Maintenance Technicians in the Reporting of Maintenance Issues: The Impact of Organizational Socialization*..... 742
Marifran Mattson, Purdue University
J. Crider, J. Whittington

Human-Centered Maintenance Operations Panel I: Task & Risk Analysis Tools

<i>Task Procedures in Aircraft Maintenance</i>	749
Nick Donald, Trinity College, Dublin, Ireland C. Daly	
<i>Task and Risk Analysis of Aviation Maintenance Inspection Processes</i>	755
Lee Ostrom, Lockheed-Martin C. Wilhelmsen	
<i>Task Analysis And Curriculum Development</i>	761
Ed Czepiel, Northwestern University	

Human-centered Maintenance Operations

<i>Cultural Factors Contributing to the Success of Macro Human Factors Principles in Aviation Maintenance</i>	766
James C. Taylor, Santa Clara University M. S. Patankar	
<i>Informaton Design Issues in Repair Stations</i>	772
Colin Drury, State University of New York at Buffalo C. Wenner, K. Kritkauskys	
<i>Aircraft Maintenance Human Factors Research: Using Training To Improve Performance</i>	777
Anand Gramopadhye, Clemson University B. Melloy	
<i>Organizational Safety Culture</i>	778
Gary Eiff, Purdue University	

Surface Operations

Surface Operations: Technologies, Interfaces and Procedures

<i>Head-Up Display Symbology for Surface Operations: Comparisons Among Scene-Linked Symbology Sets for Optimum Turn Navigation</i>	784
Mikel L. Atkins, San Jose State Foundation D. C. Foyle, R. S. McCann	
<i>Assessing Visual Attention of Pilots while Using Electronic Moving Maps for Taxiing</i>	791
David A. Graeber, University of Central Florida A. D. Andre	
<i>Issues in the Procedural Implementation of Low-Visibility Landing and Surface Operation Displays</i>	797
Becky L. Hooey, Monterey Technologies, Inc M. F. J. Schwirzke, M. E. McCauley, D. Renfroe, K. Purcell, A. D. Andre	
<i>The Effects of Advanced Navigation Aids on Crew Roles and Communication in Ground Taxi</i>	804
Bonny Parke, SJSU / NASA Ames Research Center B. G. Kanki, R. S. McCann, B. Hooey	

Workload

Workload

Changes in Pilot Activities with Increasing Automation..... 810
Diane L. Damos, Damos Research Associates, Inc
R. S. John, E. A. Lyall

Flight Crew Factors for CTAS/FMS Intergration in the Terminal Airspace..... 815
Barry W. Crane, NASA Ames Research Center

A Multi-Dimensional Evaluation Methodology For New Cockpit Systems..... 821
Marcia Kuskin Shamo, Avionitek, Ltd
A. Degani

Time Sharing

Measurement of Timesharing Ability In a Synthetic Piloting Task..... 827
William C. Tirre, Brooks AFB
P. Ikomi'

Retention and Transfer of Time-Sharing Skill as a Function of Age and Flight Experience..... 833
Pamela S. Tsang, Wright State University

Physiology

Stress

US Coast Guard Pilots: The Relationship Between the Home and Work Stress and Self Perceived Performance..... 838
Pamella Della Rocco, FAA/CAMI
E. R. Fiedler, D. J. Schroeder, K. Nguyen, A. T. Carvalhais Rocco I

Stress & Fatigue During Aircrew Survival Training..... 843
Joseph D. Callister, AFIT/CIMI, Ohio State University
G. L. Percival. P.D. Retzlaff

Using an Internet Based Decision Research System, in Aviation Research..... 848
Robert Mauro, University of Oregon
I. Bashi.

Hazardous States of Awareness: What are They and How Do We Measure Them?..... 854
Mark W. Scerbo, Old Dominion University
F. G. Freeman, P. J. Mikulka, R. Parasuraman

Fatigue

Performance Tests for Assessing Fitness for Duty..... 861
Wade R. Allen, Systems Technology
Z. Parseghian, D. Damos

Fatigue In Aviation: Point Of View Of Frence Pilots..... 867
S. Bourges-Bougrine, Universite Rene Descartes, France
P. Cabon, C. Gounelle, R. Mollard, A. Coblantz, J. J. Speyer

Fatigue: Investigation of a Human Factor for Regional Airline Pilots..... 873
Tom Weitzel, TWA

The Use Of Eeg And Multitasking To Determine The Effects Of Work Schedule And Jet Lag On The Information Processing Capacity Of Individual Pilots..... 879
H. Weinberg, Simon Fraser University, Canada
J. J. Jantzen, D. Cheyne, P. Carson, R. Joly, A. Vincent

Physiology

Effects Of Melatonin Upon Continuous Human Performance..... 885
Yossi Shub, Tel Aviv University
R. Amsel, S. Yehuda, I.E. Ashenazi

A Comparison of Two Forms of Visually-Induced Motion Sickness..... 889
L. James Smart, Miami University
L. J. Hettinger, T. A. Stoffregen

Effects of Fatigue on Posturographic Abilities - A Vertigo Model..... 896
Yossi Shub, Tel Aviv University, Israel
R. Amsel, S. Yehuda, I.E. Ashenazi

Visual Perception

Eye-Tracking In A Visual Vigilance Task..... 903
Robert Lavine, The George Washington University
B. Dickens, J. Sibert, M. Gorturk, K. Heckman, J. McNamara

Spatial Distortion: A Survey of Incidence..... 910
Walter E. Sipes
C. S. Lessard, D. W. Heideman

Visual Information for Glideslope Control..... 916
Shawn Doherty, University of Illinois
G. Lintern

An Australian Perspective on the Visual Landing Approach: Use of Flight Control And Visual Gaze..... 922
Lisa Duff, University of Newcastle
W. Wilks, H. P. Pfister

Age Factors

Age-related Human Factors In Air Traffic Control

Retirement Projections for the Controller Workforce..... 928
Dana Broach, FAA CAMI

An Examination of the Relationship Between Controller Age and En route Operational Errors..... 934
Dana Broach, FAA CAMI

Relationships Between Age and Attitudes in the Air Traffic Control Specialist Workforce..... 939
Richard Thompson, FAA CAMI
L. L. Bailey

<i>The Relationship Between Air Traffic Control Specialist Age And Cognitive Test Performance.....</i>	945
Michael C. Heil, FAA	

Training

Training

<i>The Cockpit Classroom: What educators should know about teaching women to fly!!.....</i>	952
Ruth Lowe Sitler, Kent State University	

<i>Learning Style Theory and Aviation Education.....</i>	956
Merrill R. Karp, Arizona State University East. M. A. Turney, W. K. McCurry	

<i>A New Way For Designing Line Oriented Flight Training Scenario In Glass-cockpit. Environment Designing The Context And Creating Scenarios In ARCHIMEDE III Experiment.....</i>	963
Arona Aw, Aerospatiale Protection Systems	

Design Issues In Aviation Training, Operation, And Evaluation

<i>Overview of Lessons Learned Developing ACRM for a Regional Carrier.....</i>	966
Deborah Boehm-Davis, George Mason University R. W. Holt, J. T. Hansberger, T. L. Seamster	

<i>Design of ACRM Training.....</i>	973
Thomas L. Seamster, Cognitive & Human Factors D. Boehm-Davis, R. W. Holt, E. S. Edens	

<i>An Evaluation of Stall/Spin Training in Canada.....</i>	980
Jim McMenemy, Transport Canada Civil Aviation	

Automation Training

<i>Training for the "Glass Cockpit": Trends, Problems and Solutions.....</i>	985
J.J.M. Roessingh, National Aerospace Laboratory NLR, The Netherlands R. N. H. W. Van Gent	

<i>Training for Automation: Why Exhortations to Be Careful Don't Work.....</i>	992
Nalini Suparamaniam, Linkoping University, Sweden S. Dekker	

<i>Old Cues May Not Be Good Cues in New Environment.....</i>	998
Renee J. Stout, NAWCTSD D. P. Baker, E. Salas	

Use of Personal Computers in Pilot Training

<i>Airborne Flight Data Recorder.....</i>	1003
Lester Lendrum, University of Illinois at Urbana-Champaign H. L. Taylor, D. Talleur, C. Hulin, G. Bradshaw, T. W. Emanuel Jr.	

<i>Effectiveness of Personal Computers to Meet Recency of Experience Requirements.....</i>	1008
Henry L. Taylor, Univeristy of Illinios Urbana- Champaign G. Bradshaw D. Talleur, T. W. Emanuel, C. Hulin, L Lendrum	

Advanced GA Training

"You Mean I Don't Get A Heading Indicator?" Geographic Knowledge Acquired By Pilots Through Active Participation Or Map Study..... 1014
Randall S. Bone, University of Illinois at Urbana-Champaign

Teaching Judgment And En-Route Dynamic Problem Solving Techniques To General Aviation Pilots..... 1021
Sarah Barber, Rockwell Collins

The Management Of Strategic Flexibility During Simulated Flight..... 1028
Susan L. Cockle, The University of New Castle, Australia

General Aviation Instruction Through Simulation: Learning in Flight Training Devices and PCATDS..... 1032
Marvin S. Green, Embry-Riddle Aeronautical University

Building A Training Module For The AGATE Audience..... 1038
Sandy Stedman, Jeppesen

Advanced Commercial Training

Georgia Tech Case-Based Intelligent Tutor GT-CBITS..... 1041
Christine M. Mitchell, Georgia Institute of Technology
A. R. Chappell, W. M. Gray

Retention of Effects of Above Real Time Training..... 1048
Marcia Rossi, Tuskegee University
S. F. Ali, M. Archer, D. Guckenberger, P. Crane, J. Williams

Reason Reserved: Hitting the Training Target..... 1054
Ross Telfer, The University of Newcastle, Australia
R. Miller

Integrating the Aviation System Toward Safety: Implications of Interdepartmental Human Factors Training for Pilots and Maintenance Technicians..... 1060
John P. Young, Purdue University

ATC Training

Using Feedback From Training to Identify HF Issues In The Introduction Of A New Air Traffic System... 1066
Gregory Hannan, University Of Tasmania, Australia
P. J. Moore, R. A. Telfer

Computer Based Training for AB-Intio Air Traffic Controllers..... 1072
Anna Bellorini, Magister Ludi, Italy
M. N. Larsen, B. Considine, M. Pistre, M. Woldring, D. Van Damme

The Uses of Cognitive Models in ATC's Training..... 1078
Sonia Abdesslem, CENA, France
C. Corrinne

LOFT Tools: Evaluation

The Debriefing Assessment Battery As A Facilitation Tool..... 1084
Lori K. McDonnell & Kimberly K. Jobe, San Jose State University/NASA Ames Research Center
R. K. Dismukes, G. M. Smith

<i>Identifying And Evaluating Crm Behaviors In Simulation Training Scenarios</i>	1090
Eric Villeda, San Jose State University/NASA Ames Research Center L. Martin, J. Orasanu	

Accident Data Analysis

Accident Data

<i>Personality Factors As Risks For Aviation Accidents Or Incidents Among U.S. Pilots</i>	1097
Maxine Lubner, Columbia University R. Adams, D. Hunter, P. Hwoschinsky, F. Hellman, E. Struening	

<i>Alcohol, Drugs, and Pilot Incapacitation In General Aviation Crashes- Can We Get The Numbers Right?</i>	1103
Rudolf G. Mortimer, University of Illinios at Urbana-Champaign	

<i>Single Pilot IFR Operations: Before and After 20 Years of Improvement</i>	1109
Donna Forsyth, Florida Institute of Technology R. C. Bane	

<i>Pilot Error: Cognitive Failure Analysis</i>	1117
Dimitri Zotov, Massey University, New Zealand	

<i>General Aviation and Controlled Flight Into Terrain (CFIT) Accidents: 1983-1994</i>	1124
Mary D. Stearns, Volpe Center M. Bud, P. Mengert	

Accident Data Analysis

<i>Is it Time for R2D2 or Who's Monitoring the Flight Instructor?</i>	1130
Richard J. Adams, Florida Tech P. Murphy	

<i>Analysis of Aircraft Accidents by Means of Variation Tree</i>	1136
Akira Ishibashi, Nippon Airways, Japan	

Accident Data- Military

<i>Causes and Remedies of Controlled Flight into Terrain (CFIT) in Military and Civil Aviation Accident</i> ...	1143
Michael L. Moroze, WPAFB M. P. Snow	

<i>Cockpit Design Factors: What We Learn From Accident Data</i>	1150
Anthony P. Ciavarelli, Naval Postgraduate School	

<i>U.S. Navy And Marine Corps Air And Rotary Wing Class A Mishaps 1990-1996: A Comprehensive Analysis Of Crew Resource Management Errors</i>	1158
Douglas A. Wiegmann, University of Illinois S. A. Shappell	

Air Rage

<i>Unruly Passenger Behaviour And In-Flight Violence: A Psychological Perspective</i>	1161
Robert Bor, City University, London	

<i>The Aftereffects of Inflight Violence on Crewmembers and Their Families</i>	1167
Micheal Sheffer	
<i>Stress And Its Relationship With In-flight Violence</i>	1172
Sally Augustin, City University, London	
<i>Passenger Risk Management</i>	1178
Angela Dahlberg, Dahlberg and Associates	
<i>The Human Factors of Civil Aviation Security</i>	1185
Eric C. Neiderman, FAA	
J. L. Forbes	

Performance Assessment

<i>A Safety Index and Method for Flightdeck Evaluation</i>	1190
Kara A. Latorella, NASA Langley Research Center	
H. N. Press	
<i>A Construct of Pilot Performance</i>	1197
Graham Beaumont, Qantas Airways, Australia	
<i>The Developments of a High Performance Measure for Air Traffic Controllers</i>	1203
Kenneth T. Bruskiwicz, Personnel Research Institutes	
J. W. Hedge, C. A. Manning, H. J. Mogilka	
<i>"Safety Today Was 16" The Use of Performance in ATC</i>	1209
Bert Ruitenber, IFATCA, The Netherlands	

Using Pilot Performance Database Information

<i>Evaluating Instructor/Evaluator Inter-Rater Reliability from Performance Database Information</i>	1214
William Hamman, United Airlines	
R. W. Holt, J. Beaubien	
<i>Structural Analysis of Line-Oriented Evaluation Data</i>	1220
Timothy E. Goldsmith, University of New Mexico	
P. J. Johnson	

Simulation

<i>Realism and Reality in Flight Simulation</i>	1224
Thomas A. Stoffregen, University of Cincinnati	
G. K. Nelson, R. J. Pagulayan, B. G. Bardy	
<i>Designing Training Scenarios For Distributed Mission Training</i>	1230
Peter Crane, Air Force Research Laboratory	

Cultural Factors

<i>The Impact of Culture on Professional Training and Performance</i>	1235
R. A. Woodhouse, University of Toronto, Canada	
R. Woodhouse	

Situation Assessment

Situation Awareness

- Measuring Situation Awareness: A Comparison of Four Measurement Techniques*..... 1240
Christine C. Boag, University of Queensland, Australia
M. Neale, A. Neal

Others

- The Mediated Debrief Program*..... 1247
Mark B. Klair
- Instructor Debrief Training In Spot*..... 1253
Lynne Martin, National Research Council/NASA Ames Research Center
J. Orasanu, E. Villeda
- The Development Process Of A CRM Course With Computer Based Training Approach*..... 1259
A. Bellorini, M. N. Larsen and M. Calvano
- Developing A Model To Predict Aircraft Maintenance Performance*..... 1265
Gerard J Fogarty
- FMS Features To Support CTAS In The TRACON*..... 1271
Steve Quarry, Lance Sherry (Honeywell)
Stephan Romahn, Everett Palmer (NASA- Ames Research Center)
- An Analysis Of The Generic Causes Of In-Flight Fuel Crisis Events*..... 1277
Steven J Thatcher, Neysa Huber and Richard S Jensen
- An Analysis Of The Root Causes Of In-Flight Fuel Crisis Events*..... 1285
Steven J Thatcher
- Human Factors And Eliminating Controlled Flight Into Terrain (CFIT)*..... 1291
Captain Frank J. Tullo
- Do Three Easy Tasks Make One Difficult One? Studying The Perceived Difficulty Of Simulation Scenarios*..... 1295
Florian Jentsch, David Abbott, & Clint Bowers
- Workshop On The Fatigued Pilot: A Factor In Lost Situation Awareness*..... 1301
Richard O. Reinhart
- “Why is it doing that?” Two Perspectives on an Autoflight System*..... 1304
Michael Feary, NASA Ames Research Center.
Immanuel Bashi, Lance Sherry & Martin Alkin

Poster Session

- Critical Incidents and Emotions of Decision Making for Air Traffic Controllers*..... 1309
Elise L. Amel, University of St. Thomas
C. S. Daus

<i>Evaluating Air Carrier Managerial Performance in the Interest of Public Safety</i>	1313
Brent Bowen, Aviation Institute	
<i>The Effects of Stress on a Pilot Situational Awareness</i>	1317
Dianna L. Bush, Central Missouri St. University	
F. J. Schieszer	
<i>Training Evaluation Using a Return on Investment Model: Case Study Examples for Aviation Training Consideration</i>	1320
Dianne Hill, Performance by Design	
<i>Human Factors in Military Aircraft Accidents</i>	1326
Justin Holroyd, Ministry of Defense (Army), UK	
<i>Using an Internet-based Decision Research System in Aviation Research</i>	1331
Robert Mauro, University of Oregon	
I. Barshi	
<i>The Influence of Aging and Expertise on Pilot Communication Performance</i>	1337
Daniel Morrow, University of New Hampshire	
W. Menard, E Stine-Morrow	
<i>Track Angle Error Displays Format Affects Simulated Non-precision GPS Approach Performance and Workload</i>	1344
Scott A. M. Rasmussen, MIT Man Vehicle Laboratory	
C. Oman, M. S. Huntly Jr., D. L. Hannon	
<i>Topographic EEG Recordings of Varied Mental Workload During Flight</i>	1350
Glenn F. Wilson, Air Force Research Laboratory	
J. Martin	
Index	1355
