

PROCEEDINGS OF THE FIRST INTERNATIONAL CONFERENCE ON GEOTECHNICAL
ENGINEERING EDUCATION AND TRAINING/SINAIA/ROMANIA/12 – 14 JUNE 2000

Geotechnical Engineering Education and Training

Edited by

Iacint Manoliu, Ion Antonescu & Nicoleta Rădulescu

Technical University of Civil Engineering, Bucharest, Romania

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/2000

Table of contents

Introduction	XI
1 Invited papers	
Civil and geotechnical engineering in society – Ethical aspects and future prospects <i>H.Brandl</i>	3
The impact of knowledge management and ICT <i>F.B.J.Barends</i>	15
Teaching geotechnical engineering 1950-2000 and beyond <i>S.Prakash</i>	25
Education in earthquake geotechnical engineering: Practice and needs <i>P.S.Sêco e Pinto</i>	33
Developing computer based instruction for geotechnical education <i>S.Sharma</i>	47
Trends in engineering education worldwide and their relevance for geotechnical engineering education <i>I.Manoliu</i>	63
2 National reports on geotechnical engineering education	
Geotechnical engineering education and training in Belgium <i>W.Haegeman</i>	85
Geotechnical engineering education and training in Brazil <i>E.M.Palmeira</i>	89
Some problems of the geotechnical engineering education in Bulgaria <i>T.S.Germanov</i>	97
A brief view of the education in geotechnical engineering in Chile <i>R.Verdugo & C.Andrade</i>	101
La formation en géotechnique en Côte d'Ivoire <i>B.Pango-Tati</i>	105

Geotechnical engineering education and training in Croatia <i>V.Szavits-Nossan</i>	107
L'enseignement de la mécanique des sols en France dans les formations d'ingénieur en génie civil <i>R. Kastner</i>	115
Geotechnical engineering education in Germany <i>U.Arslan, R. Katzenbach & J.Turek</i>	119
Geotechnical engineering education in Greece <i>D.K.Atmatzidis & A.G.Anagnostopoulos</i>	123
Geotechnical education in Ireland <i>B.M.Lehane, M.Creed, T.L.L.Orr, M.Long & M.Rodgers</i>	127
An overview of geotechnical engineering education in Japan <i>H.Ohta, H.Sekiguchi & T.Mitachi</i>	131
Geotechnical engineering education and training in Lithuania <i>V.Stragys</i>	137
National report – Mexico <i>O.R.Couttolenc, H.Haas & V.Taboada</i>	141
Geotechnical engineering education in New Zealand <i>D.L.Fellows</i>	145
On geotechnical engineering education and training in Poland <i>E.Dembicki</i>	149
Geotechnical engineering education in Romania <i>I.Manoliu</i>	155
Geotechnical engineering education in Sri Lanka <i>S.A.S.Kulathilaka</i>	163
Geotechnical engineering education and training in Sweden <i>G.B.Sällfors & M.Gustafsson</i>	167
Geotechnical Engineering (GE) education in Vietnam and some ideas on future improvement <i>N.Cong Man</i>	171
 3 <i>Place, role and content of geotechnical engineering in civil, environmental and earthquake engineering curricula, at undergraduate and post-graduate level</i>	
The importance of education in geotechnical engineering <i>S.Akbulut</i>	179
Enseignement de la géotechnique à l'université de Tizi-Ouzou, Algérie <i>R.Bahar & B.Melbouci</i>	183
Underground structures mechanics as a part of geotechnical engineering <i>N.S.Bulychev</i>	187

New trends in geotechnical engineering education <i>S.F.O.Cinicioglu</i>	193
Geomechanics in construction management <i>R.A.Coleman</i>	197
Enseignement de la géotechnique dans les départements de génie civil de l'Institut Universitaire de Technologie, France <i>Ch.Coulet</i>	201
Geotechnical engineering education in Tongji University <i>G.Da-Zhao</i>	203
Notes on geotechnics in the university curriculum <i>J.Feda</i>	207
The necessity of knowledge of geotechnics for officers of military ground forces <i>I.Has & A.Pogány</i>	211
Education and training of geotechnical engineering specialists for various branches of construction <i>V.D.Kazarnovsky</i>	215
UFV's geotechnical engineering experience: Curricula at the graduate and undergraduate geotechnical engineering courses <i>D.C.de Lima, E.A.G.Marques, C.H.C e Silva & P.S.A.Barbosa</i>	217
Geotechnical education and training in St. Petersburg State University of Architecture and Civil Engineering <i>R.A.Mangushev & S.N.Sotnicov</i>	223
The geotechnical engineering courses at the University of Minho, Portugal <i>F.F.Martins</i>	225
Specific aspects of geotechnical engineering education at the Ecole Nationale des Ponts et Chaussées <i>F.Schlosser, S.Amar & J.Canou</i>	231
Teaching of geotechnics at the Czech Technical University <i>I.Vaniček</i>	237
Challenges in geotechnical engineering education <i>L.D.Wesley</i>	241
 <i>4 Teaching, learning and assessment in geotechnical engineering education</i>	
Teaching of knowledge concerning the behaviour of unsaturated soils <i>S.Andrei & S.Manea</i>	251
Utility of physical models for a better understanding of soil behaviour <i>S.Andrei & S.Manea</i>	257
Limit equilibrium methods for stability analysis in landfills <i>I.Bellezza</i>	265

Geotechnical centrifuge applications to foundations engineering teaching <i>B.Caicedo</i>	271
Enseignement de la rhéologie expérimentale pour la recherche <i>J.Canou, J.-C.Dupla, J.-L.Favre, E.Dufour-Laridan & Ph.Reiffsteck</i>	275
Un enseignement de spécialité, le cours de stabilité des pentes de l'ENTPE <i>R.M.Faure, J.P.Bourgoin, J.P.Mizzi & N.Botu</i>	283
Teaching earth pressure problems and stability problems from the point of applied mechanics <i>S.Kobayashi</i>	289
Uncertainty in basic laboratory and field properties of geomaterials <i>F.H.Kulhawy, W.A.Prakoso & K.K.Phoon</i>	297
The usefulness of a multidisciplinary approach in geotechnical engineering education claimed by slope stability analyses <i>D.N.Păunescu & N.Mărgărit</i>	303
Some experience after lecturing on ground improvement at the Faculty of Civil Engineering of the Silesian Technical University in Gliwice <i>J.A.Sekowski</i>	311
 <i>5 The use of information and communication technology – ICT in geotechnical engineering education</i>	
Geomeca – Multimedia pour l'éducation: Comportement des sols <i>J.Biarez, A.Gomes Correia & S.Taibi</i>	317
Demonstration models for undergraduate teaching in geotechnics <i>F.Bucher</i>	325
Interactive multimedia geotechnical engineering course <i>M.Budhu</i>	329
Computer aided learning in geotechnical engineering education <i>M.B.Jaksa, L.R.Davison & D.G.Toll</i>	335
The use of simple models for undergraduate teaching of geomechanics <i>J.K.Kodikara</i>	343
Place des méthodes numériques dans l'enseignement de la géotechnique <i>Ph.Mestat & Y.Riou</i>	349
GIS – Necessity and means of work in the near future for geotechnicians <i>A.Pogány</i>	361
Building research skills: A course-integrated training method <i>A.Popescu & R.Popescu</i>	365
Educating geotechnical engineers in the age of computers <i>L.C.Reese & W.M.Isenhower</i>	371
Application of geotechnical software in education <i>P.Santrac</i>	375

An interactive approach for geotechnical engineering education <i>S.Singh</i>	381
On the computer aided education of analysis of vertical stresses and settlements of the elastic half-space loaded with various vertical loads <i>M.Skrinar & D.Battelino</i>	383
Stresses and settlements in homogeneous, elastic, isotropic half space, under the load described by a plane over the rectangle <i>M.Skrinar & D.Battelino</i>	389
Introduction into dynamical soil-structure interaction problems <i>A.Strukelj</i>	395
 6 Case studies in geotechnical engineering education	
Use of case histories comparison in teaching process <i>A.Chirică, A.Olteanu, M.S.Şerbulea & C.Banciu</i>	403
The practical experience of professors on the geotechnical teaching process <i>O.Couttolenc</i>	409
Statnamic load testing: After the successes in the USA and Asia, getting ready for Europe <i>G.van Ginneken & P.Middendorp</i>	413
A determination to suction capacity of clay with an empirical method <i>S.N.Keskin, Ö.Çimen & H.Yildirim</i>	421
Focus on real life problems facilitating learning and understanding <i>L.Lundell-Sällfors & G.B.Sällfors</i>	425
Etude dans le cadre d'une mobilité universitaire du glissement de terrain de Mont de l'Enclus <i>C.Schroeder & D.N.Păunescu</i>	433
The importance of teaching case histories in the geotechnical education in Austria <i>S.Semprich</i>	441
Straightening of tall structures tilted as a consequence of uneven settlement of foundation soil: Case histories <i>I.Stănculescu, I.Antonescu & A.Olteanu</i>	447
 7 History, lifelong learning and international cooperation in geotechnical engineering education	
History of soil mechanics at MIT, 1925-1996 <i>H.P.Aldrich Jr & R.V.Whitman</i>	457
Future challenges and opportunities for the geotechnical teaching <i>R.Flores-Berrones</i>	463
Pour l'enseignement de l'histoire de la géotechnique <i>M.Gambin & J.-P.Magnan</i>	469

The collaborative geotechnical engineering research of students in the Civil Engineering Department, Khon Kaen University, Thailand <i>W.Gasaluck</i>	477
La formation continue en géotechnique à l'Ecole Nationale des Ponts et Chaussées, France <i>J.-P.Magnan & E.Carrier</i>	483
International cooperation in geotechnical engineering education – A case study involving Romanian and EU universities <i>I.Manoliu & N.Rădulescu</i>	487
Taught postgraduate geotechnical education in Scotland <i>J.Oliphant & W.M.Stewart</i>	495
Geotechnical engineering: French universities postgraduate programs – Doctorate: D.E.A. + 3-4 years <i>L.Vinet</i>	501
International student exchanges: Conditions for a broader development <i>A.Vuez</i>	503
8 Additional paper	
Basic aspects of Environmental Geotechnics education <i>M.Manassero & C.Spanna</i>	509
Author index	523
