

ENVIRONMENTAL SCIENCE, ENGINEERING AND TECHNOLOGY SERIES

**SYNGAS: PRODUCTION METHODS, POST
TREATMENT AND ECONOMICS**

CONTENTS

Preface		ix
Chapter 1	Stage of Deployment of Syngas Cleaning Technologies and RD&D Needs to Accomplish the New Challenges of Syngas Utilization <i>Filomena Pinto, Rui Neto André and I. Gulyurtlu</i>	1
Chapter 2	Syngas Generation from Hydrocarbons and Oxygenates with Structured Catalysts <i>V. Sadykov, L. Bobrova, S. Pavlova, V. Simagina, L. Makarshin, V. Parmon, J. R. H. Ross, C. Mirodatos, A. C. Van Veen and A. P. Khristolyubov</i>	53
Chapter 3	Preparation of Thin-Film Pd Membranes for H ₂ Separation from Synthesis Gas and Detailed Design of a Permeability Testing Unit <i>M. Bientinesi and L. Petarca</i>	141
Chapter 4	Fischer-Tropsch Synthesis with Fe-Based Catalysts <i>M. Ojeda, T. Herranz, F. J. Pérez-Alonso, J. M. González-Carballo, S. Rojas and J. L. G. Fierro</i>	191
Chapter 5	Syngas Production in Membrane Reactors <i>Fausto Gallucci and Angelo Basile</i>	227
Chapter 6	Reformer and Membrane Modules Plant to Optimize Natural Gas Conversion to Hydrogen <i>M. De Falco, G. Iaquaniello, B. Cucchiella and L. Marrelli</i>	263
Chapter 7	Recent Developments of Fischer-Tropsch Synthesis Catalysts - Preparation and Characterization <i>Naoto Koizumi, Takehisa Mochizuki, Daichi Hongo and Muneyoshi Yamada</i>	313
Chapter 8	High Temperature Electrolysis of Steam and CO ₂ for Syngas Production <i>Carl M. Stoots, James E. O'Brien, J. Stephen Herring and Joseph J. Hartvigsen</i>	345

Chapter 9	Chemical Looping Reforming for Syngas Generation from Natural Gas –Based on Results from a 120 KW Fuel Power Installation <i>Johannes Bolhàr-Nordenkamp, Tobias Pröll, Philipp Kolbitsch and Hermann Hofbauer</i>	375
Chapter 10	Partial Oxidation of Methane over Zirconia- and Magnesia-Supported Ruthenium and Rhodium Catalysts <i>Maria do Carmo Rangel, Marluce Oliveira da Guarda Souza, Dino de Jesus Sodr�, Andr� Leopoldo Mac�do da Silva, M�rcia Souza Ramos and Jos� Mansur Assaf</i>	395
Chapter 11	Technologies of Syngas Production from Biomass Generated Gases <i>Simone Albertazzi, Francesco Basile, Patricia Benito Martin, Giuseppe Fornasari, Ferruccio Trifir� and Angelo Vaccari</i>	409
Chapter 12	Process for Conversion of Coal to Substitute Natural Gas (SNG) <i>Meyer Steinberg</i>	417
Index		435
