Contents

Preface v

Model-Based Testing 1
Mark Timmer, Ed Brinksma and Mariëlle Stoelinga

Towards a Theory of Architectural Contracts: Schemes and Patterns of Assumption/Promise Based System Specification 33
Manfred Broy

Engineering Evolving and Self-Adaptive Systems: An Overview 88
Carlo Ghezzi

Formal Verification 103
John Harrison

Requirements Models for Critical Systems 158
Constance Heitmeyer

From Concurrency Models to Numbers: Performance and Dependability 182
Holger Hermanns and Lijun Zhang

Unifying Models of Data Flow 211
Tony Hoare and John Wickerson

Model-Based Verification and Analysis for Real-Time Systems 231
Uli Fahrenberg, Kim G. Larsen and Claus Thrane

Model Checking 260
Doron Peled

Subject Index 283
