CONTENTS

Preface		vii
Chapter 1	Applications of Clay Minerals in Electrochemistry and Wastewater Treatment <i>Delia-Maria Gligor and Andrada Maicaneanu</i>	1
Chapter 2	Clays as Sustainable Catalysts for Organic Transformations <i>B.S. Jai Prakash, Y.S. Bhat and C. Ravindra Reddy</i>	63
Chapter 3	Animal Fibres and Seaweed Polymers to Improve Unfired Clay Blocks Characteristics <i>Carmen Galán-Marín, Carlos Rivera-Gómez and Jelena Petric-Gray</i>	115
Chapter 4	Clay-Organoclay and Organoclay/Polymer Nanocomposites <i>Ahmet Gurses, Mehtap Ejder-Korucu and Semra Karaca</i>	155
Chapter 5	Specific Surface Area of Fine-Grained Soils <i>Yeliz Yukselen-Aksoy and Abidin Kaya</i>	193
Chapter 6	Clay Deposits, from a Problem to an Economic Resource for the Territory: Case Study in Southern Italy <i>Vito Summa and Maria Luigia Giannossi</i>	221
Chapter 7	253 Use of Clays to Manufacture Honeycomb Monoliths for Pollution Control Applications <i>J.M. Gatica and H. Vidal</i>	253
Chapter 8	Polymer-Clay Nanocomposite Electrolytes for Rechargeable Lithium Batteries <i>A. Kumar and M. Deka</i>	275
Chapter 9	Clays and its Modified Forms for Removal of Dyes from Aqueous Solution <i>Fiona Patricia Sisnandy, Yesi, Yi-Hsu Ju, Felycia Edi Soetaredjo, Aning Ayucitra, and Suryadi Ismadji</i>	301

Chapter 10	Bearing Capacity of Clay: Influence of Spatial Variation of Soil Properties and Reliability Based Approach <i>Amit Srivastava</i>	321
Chapter 11	Montmorillonite Clay Based Solid Acid Catalysts for Organic Reactions <i>Dipak Kumar Dutta</i>	347
Chapter 12	Structural Modification of Montmorillonite Clay by Pillaring Process: Its Characterization and Applications <i>Kanattukara Vijayan Bineesh and Dae-Won Park</i>	371
Chapter 13	The use of Montmorillonite Clay to Prepare Nanocomposites and Polymeric Membranes <i>Amanda Melissa Damiao Leite, Edcleide Maria Araújo, Rene Anísio da Paz, Vanessa da Nobrega Medeiros, Helio de Lucena Lira and Tomás Jeferson Alves de Mélo</i>	391
Chapter 14	Trace Element uptake from Vermiculite by the Bacterium <i>Pseudomonas Fluorescens</i> and its Genetic Derivatives to Protect Plants against Specific Diseases <i>Barbara Müller</i>	407
Chapter 15	Impact of Clay Content on Initiation and Characteristics of Debris Flows <i>Chen Ningsheng, Zhou Wei, Hu Guisheng, Deng Mingfeng, and Yang Chenglin</i>	419
Chapter 16	Pillared Clays as Green Chemistry Catalysts: Application to Wastewater Treatment <i>C. B. Molina, J. A. Casas, A. H. Pizarro, and J. J. Rodriguez</i>	435
Index		475
