

Beginning Ubuntu Linux

Sixth Edition

**Emilio Raggi, Keir Thomas,
and Sander van Vugt**

Apress®

Contents

About the Authors	xxiv
About the Technical Reviewer	xxv
Introduction	xxvi
Chapter 1: Meet Ubuntu Linux	1
Ten Reasons to Try Ubuntu Linux	1
What Is Ubuntu Linux Anyway?	2
Ubuntu Linux Is an Operating System	2
Ubuntu Is a Distribution of Linux, Based on Debian	3
Ubuntu Linux Is a Full Desktop Solution	4
The Ubuntu Linux Experience	4
“Linux for Human Beings”	4
A Powerful yet Flexible Operating System	5
Continuous Improvements	7
The Product Family	8
The Ubuntu Linux Community	9
Praise for Ubuntu Linux	9
Should I Stop Using Windows?	9
Ubuntu Linux and Its Strengths	10
Summary	11
Chapter 2: GNU “slash” Linux	13
UNIX	13

The Rise of the IBM PC... and of Microsoft	14
RMS on Free Software.....	14
Copyleft.....	15
The Quest for a UNIX-like Operating System	16
Linus Torvalds and His Little Project	16
GNU “slash” Linux	17
The Linux Diaspora	18
Open Source	19
The South African Factor	20
An Operating System for the Future	21
Summary	22
Chapter 3: Pre-installation Steps.....	23
Understanding Partitioning	23
Freeing Up Space.....	26
Reclaiming Space.....	27
Removing Windows.....	27
Using Another Hard Disk.....	27
Backing Up Your Data.....	29
Backing Up E-Mail Files.....	31
Making Notes.....	31
Summary	33
Chapter 4: Installing Ubuntu	35
An Overview of the Installation Process	35
A Stage-by-Stage Installation Guide.....	37
Stage 1: Prepare the Windows Partition for Resizing.....	37
Stage 2: Boot from the DVD-ROM.....	40

Stage 3: Try or Install	41
Stage 4: Preparing to install Ubuntu.....	42
Stage 5: Repartition Your Hard Disk.....	43
Stage 6: Configure your Regional Settings.....	53
Stage 7: Set Up a User.....	54
Stage 8: Import Documents and Settings.....	56
Stage 9: Completing the Installation.....	56
Stage 9: <i>Perform Installation</i>	56
Stage 10: Reboot and Enjoy Ubuntu!	57
Summary	60
Chapter 5: Solving Installation Problems	61
A. Preinstallation Problems.....	61
The Disc Doesn't Boot	61
The Computer Is Having a Kernel Panic	62
The DVD Starts to Boot, but the Screen Goes Blank or Corrupted.....	62
The Computer Freezes During Installation	63
Installer "Unrecoverable Error" Message.....	63
My Notebook Display Looks Corrupted During Installation.....	64
I'm Using a KVM, and the Screen Looks Wrong	64
B. Installation Problems.....	65
I'm Offered Only a Text Login	65
The Computer Can't Find My Hard Disk.....	65
I See Lots of Hard Disks in the Partitioner.....	66
I Have Too Many Partitions	66
C. Postinstallation Problems.....	67
My Monitor Resolution Is Not Recognized	67
My Keyboard or Mouse Isn't Working.....	67
The Computer No Longer Boots.....	68

Ubuntu Is Working, but Windows Won't Boot	68
I Can See Only a Text Login Prompt	69
Graphical Problems.....	70
Summary	73
Chapter 6: Booting Ubuntu for the First Time	75
Starting Up.....	75
Logging In	78
Exploring the Desktop.....	79
First Impressions	80
Exploring the Top Panel and the Unity Launcher	82
Shutting Down or Restarting Ubuntu	84
Quick Desktop Guides.....	85
Running Programs	86
Working with Virtual Desktops	87
Using the Mouse	88
Cutting and Pasting Text.....	89
Summary	89
Chapter 7: Getting Everything Up and Running.....	91
Will Ubuntu Support My Hardware?.....	91
Using Proprietary vs. Open Source Drivers.....	93
Installing Device Manager	94
Configuring Ubuntu.....	96
Configuring Input Devices.....	97
Configuring Mouse Options	97
Changing Keyboard Settings	101
Creating Keyboard Shortcuts.....	104

Getting Online	104
Using NetworkManager	105
Configuring Wired Networking	106
Connecting to a Wireless Network	108
Installing Windows Wireless Network Device Drivers	112
Connecting to a Mobile Broadband Network	120
Working with a Proxy Server	122
Adding a Printer	124
Configuring a Local Printer	124
Configuring a Network Printer	126
Configuring a Windows/SMB Shared Printer	128
Administering a Printer	129
Using Digital Cameras, MP3 Players, and USB Memory Sticks	130
Configuring a Scanner	132
Installing 3D Drivers and Activating Desktop Visual Effects	133
Configuring Bluetooth	134
Pairing Bluetooth Devices	135
Transferring Files Between Bluetooth Devices	136
Using a Bluetooth Keyboard or Mouse	139
Configuring Sound Cards	140
Using Power-Management Preferences	141
Summary	145
Chapter 8: How to Secure Your Computer	147
Windows Security vs. Linux Security	147
Root and Ordinary Users	149
Encryption	150
Setting Up for Encryption	151

Encrypting and Decrypting Files	161
Signing and Encrypting E-Mail	165
Commonsense Security	166
Online Updates.....	168
Configuring the Ubuntu Firewall	171
Installing Firestarter	171
Configuring Firestarter	174
Adding Virus Scanning to Ubuntu	179
Installing ClamTk.....	179
Updating the ClamAV Database.....	179
Dealing with Infections.....	181
Summary	184
Chapter 9: Personalizing Ubuntu: Getting Everything Just Right	185
Unity or Classic	185
Choosing Your Session Type Permanently	186
Changing the Look and Feel	187
Altering the Theme	187
Changing the Desktop Background	193
Setting Font Preferences	195
Using Desktop Visual Effects	196
Changing Your Login Picture	204
Adding and Removing Desktop Items.....	205
Creating a Launcher	206
Personalizing the Panels in Ubuntu Classic.....	209
Adding and Removing Menus in Ubuntu Classic	209
Moving Panel Items in Ubuntu Classic	211
Working with Applets in Ubuntu Classic.....	211

Summary	214
Chapter 10: Managing Your Data.....	215
Using Nautilus.....	215
Changing the View Mode.....	219
Searching for Files.....	219
Working with File and Folder Icons	220
Special Nautilus Windows	221
Launching Files and Running Programs.....	222
Viewing File Sizes and Other Information.....	224
Tips and Tricks for Nautilus.....	225
The Home Folder	226
Understanding File System Concepts	229
The File System Explained.....	229
Drive References	232
Names of Files.....	232
Real Files and Virtual Files	234
Working with Disks and Volumes	235
Mounting Volumes.....	236
Viewing Disk and Volume Information.....	236
Managing Disks	238
Managing Volumes	239
Advanced File Operations	239
Working with Files in Windows Partitions	240
Accessing Networked Files	240
Sharing a Folder from Within Ubuntu	241
Accessing Removable Storage Devices.....	242
Working in the Computer Window	242

Ejecting Media	243
Summary	243
Chapter 11: A World of Applications	245
Available Software	245
A Quick Start with Common Ubuntu Programs	248
Word Processing: LibreOffice Writer	248
Spreadsheet: LibreOffice Calc	250
Presentations: LibreOffice Impress	251
Database: LibreOffice Base	252
E-Mail/Personal Information Manager: Evolution	253
Web Browser: Firefox	254
Media Player: Banshee	256
Movie Playback: Totem Movie Player	257
CD/DVD Burning: Brasero/Nautilus CD/DVD Creator	258
Photo Editing: F-Spot and GIMP	259
Other Handy Applications	260
Calculator	260
Archive Manager	261
Dictionary	262
Empathy Instant Messaging Client	262
Ekiga	263
Games	264
Windows Applications	265
Summary	266
Chapter 12: Working with Text Files	267
Text: A History Lesson	267
Piping and Redirecting	267
The Text Editor Wars	271

Working with Text Files	272
Introducing gedit	272
Working with gedit	274
Comparing Multiple Files with Diffuse.....	279
Summary	280
Chapter 13: Making the Move to LibreOffice	281
Introduction to LibreOffice	281
LibreOffice Key Features	283
File Compatibility	283
The Right Fonts.....	286
Copying Windows Fonts	286
Installing TrueType Core Fonts	287
Introducing the Interface	289
Customizing the Interface.....	290
Adding Functions to Toolbars	290
Adding a New Toolbar	292
Customizing Menus	292
Personalizing the Look and Feel.....	293
Configuring LibreOffice Options.....	293
Using LibreOffice Core Functions	294
Using Wizards.....	294
Getting Help	294
Inserting Objects with Object Linking and Embedding.....	295
Creating Macros	295
Saving Files	296
Beginning LibreOffice Applications.....	297
LibreOffice Word Processor: Writer	297

LibreOffice Spreadsheet: Calc	300
LibreOffice Presentation: Impress	304
Summary	307
Chapter 14: Communicating with Others.....	309
Introducing Evolution.....	309
Basic E-Mail Tasks	311
Configuring E-Mail Access	312
Sending and Receiving E-Mail.....	314
Reading E-Mail	316
Deleting Messages	316
Flagging Messages.....	317
Composing a Message	318
Creating an E-Mail Signature	320
Advanced E-Mail Tasks	321
Creating New Folders	321
Dealing with Junk E-Mail	322
Sorting and Filtering Messages.....	322
Creating Search Folders	324
Contacts.....	325
Adding or Editing Contact Information.....	326
Creating a Contact List	327
Calendars.....	328
Specifying Appointment Types	328
Adding or Editing a Diary Entry.....	328
Additional Calendars.....	330
Memos and Tasks.....	331
Configuring Instant Messaging.....	332

Installing Skype	334
Ekiga.....	335
Summary	336
Chapter 15: Social Networks and Cloud Computing	337
Social Networking Applications	338
Introducing the MeMenu	338
Microblogging with Gwibber	339
Cloud-Based Services.....	342
Storing Your Data Online with Ubuntu One.....	343
Summary	348
Chapter 16: Digital Audio.....	349
Issues Surrounding Multimedia Playback.....	349
Playing Audio Files.....	351
Installing Codecs in a Single Package.....	352
Using Banshee.....	354
Purchasing from Online Music Stores	357
Using the Jamendo Store	357
Purchasing from Magnatune	357
Purchasing from Ubuntu One	358
Tuning In to Online Radio Stations.....	359
Listening to Podcasts.....	360
Listening to Audio CDs and Ripping Tracks.....	361
Choosing a Format.....	362
Ripping Tracks.....	363
Creating Your Own CDs.....	364
Recording from a Microphone	366

Summary	367
Chapter 17: Movies and Multimedia	369
Installing Playback Software	369
Installing Codecs	370
Installing RealPlayer 11	371
Adding Flash Support	373
Adding Java Support	374
Watching Movies	375
Watching DVDs	378
Watching TV	382
Checking for Video Input	382
Installing tvtime	382
Summary	383
 Chapter 18: Digital Photos	385
Downloading and Cataloging Images	385
Connecting Your Camera	385
Importing Photos Using F-Spot	386
Using GIMP for Image Editing	390
The Basics of GIMP	395
Making Color Corrections	398
Cropping and Healing	399
Applying Filters	400
Sharpening	403
Summary	404
Chapter 19: Playing Games	405
Linux Games	405
Official Sources	405

Additional Sources.....	409
Adobe Flash and Web-based Gaming.....	410
Installing Windows Games.....	411
Summary	413
Chapter 20: Installing and Removing Software	415
Using the Ubuntu Software Center	416
Navigating the Ubuntu Software Center	416
Browsing and Searching for Software.....	418
Rating and Reviewing Software	421
Software Installation Basics	421
Formats of Linux Installation Files.....	421
Package Management.....	423
Dependency Management.....	423
Software Repositories	425
Advanced Application Management	429
Managing Ubuntu Software Options	429
Adding Software Sources	430
Managing Software Updates	432
The Synaptic Package Manager in Depth	435
Searching for Software.....	435
Installing Software.....	437
Removing Software	439
Manually Installing Using Ubuntu Software Center	440
Installing Windows Applications with Wine	440
Installing and Configuring Wine.....	441
Installing a Windows Application.....	441
Installing from Source	442

Installing the Compiler Tools	442
Unpacking the Source Tarball and Solving Dependencies	442
Compiling.....	443
Summary	444
Chapter 21: Understanding Linux Users and File Permissions	445
Understanding User and Group Accounts	445
Users and Groups	445
Root User	446
Users and File Permissions	447
Root vs. Sudo.....	448
UIDs and GIDs	449
Adding and Deleting Users and Groups	449
Adding and Changing Passwords	453
Understanding File and Folder Permissions	454
Viewing Permissions	454
Typical Data File Permissions.....	456
Permissions on a User's Directory.....	456
Permissions on a Directory Owned by Root	457
Altering Permissions.....	457
Summary	461
Chapter 22: Optimizing Your System.....	463
Speeding Up Booting	463
Reducing the Boot Menu Delay	464
Managing GNOME Sessions	465
Prelinking.....	469
Configuring Prelinking	469
Deactivating Prelinking.....	469

Optimizing the Kernel	471
Freeing Up Disk Space.....	472
Emptying the /tmp Folder	472
Emptying the Cache of Package Files	473
Removing Unused Software	474
Summary	474
Chapter 23: Backing Up Data	475
What Data Should You Back Up?	475
Using Simple Backup.....	476
Backing Up Data via Simple Backup	477
Restoring Data via Simple Backup	480
Managing Archive Files	482
Saving the File to a CD-R/RW or to a DVD-R.....	484
Summary	484
Chapter 24: Scheduling Tasks	485
Scheduling with GNOME Scheduler	485
Creating a Recurrent Task.....	487
Scheduling One-Off Tasks	489
Scheduling with anacron.....	490
Summary	492
Chapter 25: Accessing Computers Remotely.....	493
Using Secure Shell.....	493
Logging In to a Remote Computer	494
Transferring Files Between Remote Computers.....	497
Accessing GUI Applications Remotely	499
Running X Applications on a Remote Computer	500

Accessing Ubuntu via Remote Desktop	501
Connecting to Remote Windows Computers	503
Connecting to Windows 7 and Vista	503
Connecting to Windows XP Professional, 2000, and NT	504
Connecting to Other Computers	505
Summary	505
Chapter 26: Taking Control of the System	507
Viewing Processes	507
Controlling Processes	511
Killing Processes	511
Controlling Zombie Processes	513
Using Other Commands to Control Processes	514
Controlling Jobs	515
Summary	517
Appendix A: Introducing the BASH Shell.....	519
What Is the BASH Shell?	519
Why Bother with the Shell?	520
When Should You Use the Shell?	522
Getting Started with the Shell.....	523
Running Programs	523
Getting Help	525
Running the Shell via a Virtual Console.....	525
Working with Files	526
Listing Files	528
Copying Files and Directories	529
Moving Files and Directories	530
Deleting Files and Directories.....	531

Changing and Creating Directories	532
Using Autocompletion	533
Autocompletion with Files and Paths	534
Viewing Available Options	534
Other Autocompletion Examples	534
Using Keyboard Shortcuts	535
Shortcuts for Working in BASH.....	535
Shortcuts for System Control	536
Using the Command History	536
Piping and Directing Output.....	538
Piping the Output of Commands.....	538
Redirecting Output.....	539
Using Brace Expansion	540
BASH Command Index.....	541
Appendix B: Glossary of Linux Terms	557
Symbols	557
A.....	558
B	559
C.....	560
D	562
E.....	564
F.....	564
G	565
H	567
I.....	568
J.....	569

K.....	569
L.....	570
M.....	571
N.....	572
O.....	572
P.....	572
R.....	573
S.....	575
T.....	577
U.....	578
V.....	580
W.....	580
X.....	580
Appendix C: Getting Further Help.....	583
Read the Manual!.....	583
Man Pages.....	583
Info Pages.....	585
README Files and Other Documentation	586
Getting Help Online	587
Forums	587
Mailing Lists	588
Other Official Sites.....	588
Third-Party Sites.....	588
Index	591
