

# **2012 IEEE Symposium on Security and Privacy Workshops**

**(SPW 2012)**

**San Francisco, California, USA  
24 – 25 May 2012**

**IEEE Catalog Number: CFP12SPX-PRT  
ISBN: 978-1-4673-2157-0**

# IEEE CS Security and Privacy Workshops

## SPW 2012

### Table of Contents

SPW 2012 Message from the General Chair.....	viii
SPW 2012 Conference Organizers.....	x
TrustED 2012 Preface.....	xi
TrustED 2012 Program Committee.....	xii
TrustED 2012 External Reviewers.....	xiii
WSCS 2012 Preface.....	xiv
WSCS 2012 Program Committee.....	xv
WSCS 2012 External Reviewers.....	xvi
WRIT 2012 Preface.....	xvii

---

### TrustED 2012

A Theoretical Analysis: Physical Unclonable Functions and the Software Protection Problem .....	1
<i>Rishab Nithyanand and John Solis</i>	
A Method for Preventing "Skipping" Attacks .....	12
<i>Marc Joye</i>	
Side-Channel Analysis of Grøstl and Skein .....	16
<i>Christina Boura, Sylvain Lévêque, and David Vigilant</i>	
The BlueJay Ultra-Lightweight Hybrid Cryptosystem .....	27
<i>Markku-Juhani O. Saarinen</i>	
Slender PUF Protocol: A Lightweight, Robust, and Secure Authentication by Substring Matching .....	33
<i>Mehrdad Majzoobi, Masoud Rostami, Farinaz Koushanfar, Dan S. Wallach, and Srinivas Devadas</i>	

## WSCS 2012

Privacy in Online Review Sites .....	45
<i>Matthew Burkholder and Rachel Greenstadt</i>	
Policy Aware Social Miner .....	53
<i>Sharon Paradesi, Oshani Seneviratne, and Lalana Kagal</i>	
Semantic Comparison of Security Policies: From Access Control Policies to Flow Properties .....	60
<i>Mathieu Jaume</i>	
A Framework for Modeling Decision Making and Deception with Semantic Information .....	68
<i>Christopher Griffin and Kathleen Moore</i>	
A Knowledge-Based Approach to Intrusion Detection Modeling .....	75
<i>Sumit More, Mary Matthews, Anupam Joshi, and Tim Finin</i>	
Privacy Control in Smart Phones Using Semantically Rich Reasoning and Context Modeling .....	82
<i>Dibyajyoti Ghosh, Anupam Joshi, Tim Finin, and Pramod Jagtap</i>	
Implementing Mental Models .....	86
<i>Jim Blythe and L. Jean Camp</i>	
Towards a Semantics of Phish .....	91
<i>Hilarie Orman</i>	
Bridging the Semantic Gap to Mitigate Kernel-Level Keyloggers .....	97
<i>Jesus Navarro, Enrique Naudon, and Daniela Oliveira</i>	
User Intention-Based Traffic Dependence Analysis for Anomaly Detection .....	104
<i>Hao Zhang, William Banick, Danfeng Yao, and Naren Ramakrishnan</i>	
Toward a Game Theoretic Model of Information Release in Social Media with Experimental Results .....	113
<i>Christopher Griffin and Anna Squicciarini</i>	

## WRIT 2012

Using Consensus Clustering for Multi-view Anomaly Detection .....	117
<i>Alexander Y. Liu and Dung N. Lam</i>	
Fog Computing: Mitigating Insider Data Theft Attacks in the Cloud .....	125
<i>Salvatore J. Stolfo, Malek Ben Salem, and Angelos D. Keromytis</i>	
Lost in Translation: Improving Decoy Documents via Automated Translation .....	129
<i>Jonathan Voris, Nathaniel Boggs, and Salvatore J. Stolfo</i>	
Insider Threats against Trust Mechanism with Watchdog and Defending Approaches in Wireless Sensor Networks .....	134
<i>Youngho Cho, Gang Qu, and Yuanming Wu</i>	

Proactive Insider Threat Detection through Graph Learning and Psychological Context .....	142
<i>Oliver Brdiczka, Juan Liu, Bob Price, Jianqiang Shen, Akshay Patil, Richard Chow, Eugene Bart, and Nicolas Ducheneaut</i>	
Forensic Methods for Detecting Insider Turning Behaviors .....	150
<i>Fred Cohen</i>	
Decision Support Procedure in the Insider Threat Domain .....	159
<i>John P. Murphy, Vincent H. Berk, and Ian Gregorio-de Souza</i>	
<b>Author Index .....</b>	<b>164</b>
