

Tampereen teknillinen yliopisto - Tampere University of Technology

**Proceedings of the FAIM 2012,
22nd International Conference on
Flexible Automation and Intelligent Manufacturing,
June 10th-13th, 2012, Helsinki, Finland**

Editors:

Hasse Nylund

Satu Kantti

Ville Toivonen

Seppo Torvinen

Tampere University of Technology. Department of Production Engineering
Tampere 2012

CONTENTS

<p>Research on Complex Product Assembly Process Planning and Manufacturing Simulation System Based on 3D-PLM <i>Jia Xiaoliang, Tian Fujun, Zhang Zhenming</i></p>	1
<p>Performance of Self-Adaptive Assembly Line <i>Niko Kallio , Klaus Heiskanen, Esko Niemi</i></p>	9
<p>Lean Management, Internationalization, Sustainability, and Technology Policy: Congruence or Turbulence? <i>David Wyrick, Ganapathy Natarajan, Chinweike Eseonu, Richard Lindeke, Hongyi Chen</i></p>	17
<p>Physical Knowledge Integration in Nano-manufacturing using Approximate Bayesian Computation <i>Li Wang, Qiang Huang, Eric Huey, Subramanian Krishnan, Shekar Bhansali</i></p>	27
<p>Application of Tabu Search with Carryover Sequence Dependency and External and Internal Setups Integration <i>M.T. Yazdani Sabouni, Rasaratnam Logendran</i></p>	33
<p>Development of a Total Quality Management Framework for Libyan Health Care Organisations <i>Fakhureldein A Abdelmotleb, Sameh Saad</i></p>	41
<p>A Plug & Produce Approach to Design Robot Assistants in a Sustainable Manufacturing Environment <i>Matthias Plasch, Andreas Pichler, Harald Bauer, Martijn Rooker, Gerhard Ebenhofer</i></p>	53
<p>Evaluation of Resource Flexibility in Digital Factory Planning in Small and Medium sized Enterprises <i>Kiril Aleksandrov, Hendro Wicaksono, Sven Rogalski</i></p>	61
<p>Manufacturing Education and Training resorting to a new mobile robot competition <i>J. Gonçalves, J. Lima, P. Costa, A. Moreira</i></p>	71
<p>Surface Roughness Prediction Based on Fourier Series when Face Milling Aluminium 7075-T7351 <i>Patricia Muñoz-Escalona, Paul G. Maropoulos</i></p>	79
<p>Spatial correlation coefficient images for ultrasonic detection of flaws in composite materials <i>Ahmed Kechida, Redouane Draï, Abderrezak Guessoum</i></p>	89
<p>Fuzzy Multi-Attribute Decision Analysis for Multi-Response Quality Problems in Wafer Fabrication Process <i>Chiun-Ming Liu, Mei-Yu Ji</i></p>	95
<p>Effects of Cryogenic Cooling on the Surface Quality and Tool Wear in End-Milling 6061-T6 Aluminium <i>V. Dhokia, A. Shokrani, D. Correa Paulino, Stephen T. Newman</i></p>	103
<p>AIS based approach to resolve forward-reverse logistics multi-period model with vehicle routing <i>V.N.S.A Kumar, Vikas Kumar, M. Brady, Jose Arturo Garza-Reyes, Horacio Soriano-Meier, Nishikant Mishra</i></p>	109

TQM implementation issues in a chilled food manufacturing organisation: a case study <i>Horacio Soriano-Meier, Syed Ammar Raza, Vikas Kumar, Jose Arturo Garza-Reyes</i>	117
Virtual Enterprise Management to Enhance the Manufacturing Process Collaboration <i>AHM Shamsuzzoha, Petri Helo</i>	123
Assessment of key sustainability indicators in a UK fast food supply chain: a life cycle perspective <i>Alireza Shokri, Farhad Nabhani, David Oglethorpe</i>	133
Lead time and variability reduction in an aircraft engine assembly process: a case study <i>Ashley Flint, Jose Arturo Garza-Reyes, Horacio Soriano-Meier, Vikas Kumar</i>	141
The role of lean management principles in ERP implementation <i>Horacio Soriano-Meier, Jaydeep Sengupta, Jose Arturo Garza-Reyes, Vikas Kumar</i>	151
Bi-criteria optimization of unrelated parallel manufacturing systems with limited human resource capacity <i>Fulvio Cappadonna, Antonio Costa, Sergio Fichera</i>	161
Maximizing the Net Present Value of a Single Machine Scheduling Problem with Earliness and Tardiness Penalties <i>S. Abolfazl Soltani, Amir Kamali, S.M.T. Fatemi Ghomi</i>	169
FMS prioritized scheduling: An AIS+FLC Approach <i>Felix T.S. Chan, Anuj Prakash, Nishikant Mishra, C.S. Wong</i>	177
A fuzzy multi-objective approach to solve interdependent information system project selection problem <i>Nima Hamta, M. Akbarpour Shirazi, S.M.T. Fatemi Ghomi</i>	185
Developing composite expansion planning model of generation and transmission lines in power systems: A Benders decomposition <i>M. Jenabi, S.M.T. Fatemi Ghomi, S.A. Torabi, S.H. Hosseini</i>	193
Application of Methods and Tools of Factory Planning to Photovoltaics Industry <i>Sebastian Horbach, Robin Schulze, Jörg Ackermann, Frank Schaarschmidt, Egon Müller</i>	201
Bi-Level Programming for Bi-Objective Multiprocessor Flowshop Scheduling <i>J. Behnamian, S.M.T. Fatemi Ghomi</i>	209
Case: Control Application for Rapidly Configurable Manufacturing Laboratory Environment <i>Niko Siltala, Jorma Vihinen, Reijo Tuokko</i>	217
A weight distribution approach for case retrieval in OKP design <i>B.M. Li, S.Q. Xie, X. Xu</i>	225
The Study of Modularization and Postponement in Inventory Models <i>Tai-Yue Wang, Jui-Ming Hu</i>	237
Production-Maintenance Scheduling Considering Mold and Precedence Constraints <i>C.S. Wong, Felix T.S. Chan, S.H. Chung, H.L. Ma, A.Y.L. Chong</i>	245
A contribution to the development of a flexibility theory <i>Heiko Baum, Jens Schütze, Martina Ganß, Ralica Ivanova, Egon Müller</i>	253

Standardized Inquiry Processing in Customer-Specific Machinery and Plant Engineering <i>Egon Müller, Ralph Riedel, Ulf Wagner, Roman Arnold</i>	261
Mixed-integer-based capacity planning improves the cycle time in a multistage scheduling system <i>Dirk Doleschal, Jan Lange, Gerald Weigert</i>	269
Confusing of terms PDM and PLM: examining issues from the PDM point of view <i>Merja Huhtala, Mika Lohtander, Juha Varis</i>	277
Interfacing Image Processing with Robotic Sketching <i>Abdullah Mohammed, Mohammad Givehchi, Lihui Wang</i>	285
Enhancing Recovery Capabilities of End-Of-Life Automotive Components through Design Modularity <i>Juridah Johari, K.H. Ng, D.A. Wahab</i>	295
Short-term Production Planning Methods from the Cost, Planning, and Lead-Time Points of View <i>Henri Tokola, Esko Niemi</i>	303
Comparison of Balancing Policies in Multi-Item Assembly <i>Jaakko Peltokorpi, Henri Tokola, Esko Niemi</i>	311
Market-segmented Joint Pricing and Lotsizing Model under Uncertainty with Possibility Constraints <i>R. Ghasemy Yaghin, S.M.T. Fatemi Ghomi, S.A. Torabi</i>	319
Robot Time and Cost Management in the Application to Multiple Low-Volume Production Processes <i>Maria Caruana, Michael A. Saliba</i>	327
Developing an ISO 10303-AP 224 Feature Based Assistance System as an Approach to Semi-Automated Work Planning <i>S. Totzauer, R. Hofmann, R. Neugebauer</i>	335
Agile Manufacturing Possibilities with Agent Technology <i>Daniël Telgen, Leo van Moergestel, Erik Puik, John-Jules Meyer</i>	341
Prediction of Cutting Temperature when Dry Face Milling AISI 1020 Carbon Steel <i>Patricia Muñoz-Escalona, Zulay Cassier, Minerva Dorta, Hugo Juanes</i>	347
Achieving Integrated Product and Production Development with Knowledge Creation and Flow Model <i>Timo Lehtonen, Jarkko Pakkanen, Tero Juuti, Mikko Vanhatalo, Ilse Becker</i>	357
Identifying and Responding to Energy Efficiency Improvement Opportunities in Factory Planning <i>Egon Müller, Manuela Krones, Hendrik Hopf, Romina Arndt, Jörg Strauch</i>	365
Reducing Cost of Poor Quality of Assemblies through Flexible Rework <i>Hung-da Wan, Brice Gabriel, Glenn Kuriger, F. Frank Chen</i>	373
Object Shape Learning Using a Fiber-Optic System <i>H. Golnabi</i>	381

Adaptable and Reconfigurable LEAN Automation - a competitive solution in the western industry <i>Arne Bilberg, Ronen Hadar</i>	389
Glocalized Manufacturing – Local Supply Chains on a Global Scale and Changeable Technologies <i>Ronen Hadar, Arne Bilberg</i>	397
Minimizing the Total Weighted Completion Time on a Single Machine with Release Dates and Workforce having different skill levels <i>Fulvio Cappadonna, Giovanni Celano, Antonio Costa, Sergio Fichera</i>	405
Evaluating the Effects of Soft TQM Tools on Quality Costs by Means of Simulation: A Case Study from the Automotive Industry <i>Michael Donauer, Américo Azevedo, Paulo Peças</i>	413
Automatic Robot Calibration via a Global-Local Camera System <i>Bernard Schmidt, Lihui Wang</i>	423
IN-DIVER – Integrated Distribution Planning using an inertial-based tracking system <i>Markus Haid, Mustafa Kamil, Thitipun Chobtrong, Ersan Günes, Moritz Münter, Hansjoerg Tutsch</i>	433
Expert system design for reconfigurable manufacturing systems <i>Khumbulani Mpofu</i>	441
Development of a Rule-base for Matching Product Requirements against Resource Capabilities in an Adaptive Production System <i>Eeva Järvenpää, Pasi Luostarinen, Minna Lanz, Reijo Tuokko</i>	449
A Two-Stage Optimization Model for Integrated Process Planning and Scheduling in Job Shop Manufacturing <i>Sascha Lemke, Sascha Häckel, Jan Keidel</i>	457
Design and Control of Hydraulic Transmission System for Energy Saving and Recuperation <i>Ming-Chang Shih, Kei-Ren Pai</i>	465
Simulation Analysis of Part Launch and Order Collection Decisions for a Flexible Manufacturing System <i>Yi-Chi Wang, Toly Chen, Hui-Chen Pan, Fu-Chun Chuang</i>	473
An Integrated Algorithm for Solar Cell Hybrid Flow Shop Scheduling <i>Li-Chih Wang, Chen-Yang Cheng, Tzu-Li Chen, Yin-Yann Chen</i>	483
Manufacturing Sustainability: A Comparison of Indian and Finnish Manufacturers' Vision and Current State <i>Kaushik Shankar, Mikko Koho, Hung-da Wan, Seppo Torvinen, F. Frank Chen</i>	491
Selecting useful advertising methods in Food product life cycle <i>Abdolhamid Safaei Ghadikolaei, Morteza Pourhossein</i>	499
Testing a Framework for Analyzing PLM Architecture in Global Manufacturing Companies <i>Noora Rissanen, Antti Pulkkinen, Ville Vainio</i>	507
A Simulation-Based Optimization Approach for Holonic Manufacturing Systems <i>Fredrik Danielsson, Xing Haijun, Bo Svensson</i>	515

Analysis of Correlation of Lean and Autonomous Production Processes <i>Hanna Theuer</i>	523
Collaborative Robots to Support Flexible Operation in a Manufacturing System <i>Gunnar Bolmsjö, Fredrik Danielsson, Bo Svensson</i>	531
Deployment and Validation of a Decision Support System for Cold Roll Forming <i>Chike F. Oduoza, Alan Harris</i>	539
Research and development of smart grid energy balancing principles for a production system of a Siemens AG plant <i>Nils Weinert, Dominik Rohrmus, Rudolf Sollacher</i>	547
Non-disclosure Methods of Activities considering Schedule Dependency in a Collaborative Project <i>Joseph Oh, Bo Hyun Kim, Jae Yong Baek, Hun-Zong Choi</i>	555
Reactive Algorithm for Mobile Robot Path Planning Among Moving Target/Obstacles by Means of Dynamic Virtual Obstacle Concept <i>Hussein Hamdy Shehata, Josef Schlattmann</i>	563
Manufacturability Evaluation of Mold Manufacturers for Supplier Discovery <i>Sangil Lee, Kwangyeol Ryu, Moonsoo Shin, Shi W. Lee, Kezia Amanda Kurniadi</i>	575
Green Product Development for Sustainable Manufacturing using Green-BOM <i>Kezia Amanda Kurniadi, Kwangyeol Ryu, Yongju Park, Shi W. Lee</i>	583
Towards Real Agility in Supply Networks — The A-NET Vision <i>Matti Majuri, Toni Perälä, Julius Pesonen, Reijo Tuokko</i>	593
Efficient Analysis of Production Processes with a Hybrid Simulation Environment <i>Sander Lass, Norbert Gronau</i>	601
Business Partnerships based on Lean Manufacturing strategies for increasing SME's competitiveness <i>Luis Rocha Lona, Ma. Teresa Ibarra-Santa Ana, José Arturo Garza-Reyes, Horacio Soriano-Meier</i>	609
Process Improvement strategies based on Six Sigma to improve operational efficiency: the case of a pharmaceutical company <i>Silvia Edith Alvarez-Reyes, Luis Rocha-Lona, Horacio Soriano-Meier, José Arturo Garza-Reyes</i>	617
Defining the automation equipment acquisition process – from a system supplier's perspective <i>Niklas Friedler, Anna Granlund</i>	627
Transitioning Radical Improvement to Continuous Improvement <i>L. Ståhlberg, A. Fundin</i>	635
GRAI Methodology – A rudder in the economic storm for the SMEs <i>Paul Eric Dossou, Philip Mitchell</i>	643
Analysis and Comparison of Business Process Management Frameworks <i>António Almeida, Américo Azevedo, Álvaro Caldas</i>	651
A Performance Measurement Approach for Complex Manufacturing Processes <i>António Almeida, Américo Azevedo, Álvaro Caldas</i>	659

Increasing competitiveness in structural assembly by using friction spot welding <i>H. Hameister, J. Wulfsberg</i>	667
Customer and Supplier Integration in Product Planning through Community-based Open Product Configuration Systems <i>Viktor Schubert, Kiril Aleksandrov, Konstantin Krahtov</i>	677
Open and Smart Working System for Small and Medium Manufacturing Enterprises in a Collaboration Environment <i>Bo-Hyun Kim, So-Young Jung, Joseph Oh, Hun-Zong Choi</i>	685
Utilization of Dissimilarity Coefficient as Real Time Dispatching Rule for Flexible Manufacturing <i>Jia Guo, Dusan Sormaz, Chintan Patel</i>	695
Forward and Backward Planning Approaches for Process Sequencing in CAPP <i>Dusan Sormaz, Manjeet Singh</i>	703
Teaching Computer Simulations with Industrial Applications <i>Helen Zong</i>	711
Simulation Study of a Throughput Time Reduction Strategy Dealing with Machine Failures <i>Helen Zong, Orhan Emir Sargin</i>	717
A Framework for Description of Manufacturing Data Interoperability <i>Namhun Kim, Dongmin Shin, Bohyun Kim</i>	727
Parametric Arrangement in the Kinematics of Cooperative Robotic Systems <i>Cristiane P. Tonetto, Carlos R. Rocha, Henrique Simas, Altamir Dias</i>	733
Realisation of Flow Production by the Example of an Automotive OEM - A Case Study <i>Yilmaz Uygun</i>	743
Influencing the long-term workload of manufacturing resources within SME <i>Thomas Bauernhansl, Philipp Kross, Engelbert Westkämper</i>	751
Synergy of Process and Production Planning by Discrete Simulation in Manufacturing <i>Predrag Cosic, Diana Milcic, Davor Pirovic</i>	759
STEP-NC compliant capability profiles for representing machine tool health <i>Parag Vichare, Ross McNair, Thomas Lawrie, James Thompson, Aydin Nassehi</i>	767
An investigation into benchmarking of workover activities of rigs in the oilfields <i>Haitham Mansour, Munir Ahmad, Nasreddin Dhafir</i>	775
Markov Diffusion Model in Demand and Capacity Sharing Enterprise Networks <i>Benjamin R. Schleich, Sang Won Yoon</i>	783
Performance and Reliability Analysis of Pharmaceutical Auto-dispenser System <i>Debiao Li, Sang Won Yoon, Mohammad Khsawneh, Krishnaswami Srihari</i>	791
A practical method for evaluating operational performance of workover activities in Sarir oilfield <i>Haitham Mansour, Munir Ahmad, Hussain Ahmed</i>	799
A production performance analysis regarding downtime and downtime pattern <i>Christina Stål, Per Gabrielson, Carin Andersson, Jan-Eric Ståhl</i>	809

Demand and supply chain integration framework <i>Per Hilletoft, Lauri Lättilä</i>	821
Model based consumption monitoring and control <i>Jan Schlechtendahl, Philipp Eberspächer, Alexander Verl</i>	829
System Platform Requirements for High Performance CNCs <i>Matthias Keinert, Alexander Verl</i>	837
Computational Study of Improved yet Easy-to-Manufacture Micro-mixer Design for Chemical Processes and Pharmaceutical Industries <i>Nita Solehati, Joonsoo Bae, Agus P. Sasmito</i>	845
Biomechanical Evaluation of Optimal Humeral Fracture Fixation Devices <i>David Hughes, S Hodgson, Farhad Nabhani</i>	853
Characterisation of Nanocomposite Polymers used in Food Packaging <i>Amal M. Metak, Stephen N. Connolly, Farhad Nabhani, Shahrzad S. Connolly</i>	861
Hybrid Manufacturing: Unique Approach to Integrating Additive and Subtractive Rapid Prototyping Process <i>G.P. Manogharan, Richard Wysk, Ola Harrysson, Paul Cohen</i>	869
Service-oriented cockpit for RFID-enabled smart container loading <i>George Q. Huang, H. Luo, Nancy Li, Meng Cheng, T. Qu</i>	877
The influence of operations flexibility on costs: Customer focus as the mediating factor <i>Fazli Idris, Nik Mutasim Nik Abd Rahman, M Ezani Mat Hassan, Main N Alolayyan</i>	885
Measurement of Operations Flexibility for Service Firms: A Confirmatory Factor Analytics Approach <i>Fazli Idris, Nik Mutasim Nik Abd Rahman, M Ezani Mat Hassan, M Suhaimi Ahmad</i>	893
Systematic approach to adopt Lean Production System principles in product development <i>Uwe Dombrowski, David Ebentreich, Kai Schmidtchen</i>	901
Development and distribution of a questionnaire to evaluate technology within the UK Foundry Industry <i>Farhad Nabhani, Martin G. McKie, S. Hodgson</i>	909
Implementation of a Sustainable Technology Improvement Model for the UK Foundry Industry <i>Farhad Nabhani, Martin G. McKie, Vahid Askari</i>	919
Automatic Assembly Sequence Generation Based On Assembly Constraints in a CAD Model <i>Li-Ming Ou, Xun Xu</i>	929
Preventing Pressure Vessel Failure <i>Farhad Nabhani, Simon Hodgson, Temilade Ladokun</i>	937
Prediction of Hole Pass-Through for EDM Drilling <i>Cheol-Soo Lee, In-Hugh Choi, Eun-Young Heo, Jong-Min Kim, Dong-Won Kim</i>	945
Error Compensation for Machine Vision Based Manufacturing <i>Cheol-Soo Lee, Hee-Seung Lee, In-Hugh Choi, Eun-Young Heo, Jong-Min Kim, Dong-Won Kim</i>	953

Risk management in product recovery: need for a framework in risk assessment, mitigation and elimination <i>Mikko Tapaninaho, William Z. Bernstein, Devarajan Ramanujan, Mikko Koho, Seppo Torvinen</i>	961
Evaluation of Cryogenic CNC Milling of Ti-6Al-4V Titanium Alloy used in Aerospace Industries <i>Alborz Shokrani, Vimal Dhokia, Stephen T. Newman</i>	969
CNC Machining of Plastic Layered Parts <i>Zicheng Zhu, Vimal G. Dhokia, Aydin Nassehi, Rhys O. Jones, Stephen T. Newman</i>	975
Open Source ERP Business Model Framework <i>David L. Olson, Bjorn Johansson, Rogerio Atem de Carvalho</i>	981
Solution for population model via combined block-pulse functions and Bernoulli Polynomials <i>Mohsen Razzaghi</i>	989
Role based self-organisation of reconfigurable robotized compact systems for sustainable manufacturing <i>Kai Salminen, Hasse Nylund, Paul Andersson</i>	997
Role Based Self-Adaptation of Reconfigurable Robotized Systems for Sustainable Manufacturing <i>Kai Salminen, Igor Kovač</i>	1005
