MICRO COSMOS
THE WORLD OF ELEMENTARY PARTICLES

Fictional Discussions between
Einstein, Newton, and Gell-Mann

Harald Fritzsch
Ludwig Maximilian University of Munich, Germany

Translated by
Harald Fritzsch & Jeanne Rostant
CONTENTS

Preface vii

Chapter 1 A Meeting in Pasadena 1
Chapter 2 An Introduction to Particle Physics 5
Chapter 3 From Isospin to SU(3) 21
Chapter 4 Quarks 29
Chapter 5 Colored Quarks 37
Chapter 6 The Electroweak Interaction 53
Chapter 7 Oscillating Neutrinos 67
Chapter 8 The Grand Unification 73
Chapter 9 The Basic Constants of Nature 83
Chapter 10 The Big Bang 93
Chapter 11 The End 103

Short Biographies of the Physicists 105
Glossary 111
