Proceedings of

The 5th International Swedish Production Symposium, SPS12

SPS12 6 - 8 November 2012, Linköping, Sweden

Swedish Production Academy

Edited by
Mats Björkman

October 2012
Produktionsakademien.
The Swedish Production Academy

Contents

A AUTOMATION IN PRODUCTION

A1 **Possibilities and Limitations of Automated Non-Destructive Testing of Welds** *3*
A. Runnemalm, P. Broberg, A. Appelgren

A2 **The Concept of Lean Automation – a Pilot Installation** *11*
A. Granlund, N. Friedler, M. Jackson, E. Hellström, L. Carnbo

A3 **3D Scanning and Automatic Path Planning of Paint Process in General Coating Industry** *21*
H. Söröd, R. Ingemarsson, A. Mark, R. Bohlin, D. Segerdahl, F. Edelvik, J.S. Carlson

A4 **Remote Monitoring and Controlling for Robotic Path Following Operations** *27*
A. Mohammed, B. Schmidt, L. Wang

A5 **IEC 61499 – Enabling Control of Distributed Systems Beyond IEC 61131-3** *37*
M. Holm, G. Adamson, L. Wang

A6 **Flexible Automation in the Printing Industry** *45*
R. Olsen, K. Johansen, M. Jonsson

B HUMANS IN PRODUCTION SYSTEMS

B1 **The Operator of the Future – a Key to Competitive Industry in a Future Information Society** *55*
C. Grane, L. Abrahamsson, J. Andersson, C. Berlin, Å. Fasth, J. Johansson, J. Stahre, A-L. Osvalder

B2 **Comparing Two Methods to Measure Assembly Complexity From an Operator Perspective** *61*
P. Gullander, S. Mattsson, T. Fässberg, H. Van Landeghem, L. Zeltzer, V. Limère, E-H. Aghezzaf, J. Stahre

B3 **Definition and Use of Interaction–Time in Final Assembly** *69*
S. Mattsson, Å. Fasth, C. Berlin, J. Stahre

B4 **Keyword Mingling Workshop – A Method for Identifying and Consolidating Industrially Perceived Needs and Requirements of Future Operators** *73*
C. Berlin, J. Andersson, Å Fasth, C. Grane, L. Abrahamsson, J. Johansson, A-L. Osvalder, J. Stahre

B5 **Active Collision Avoidance for Human-robot Collaborative Manufacturing** *81*
B. Schmidt, L. Wang

B6 **Describing Human-Automation Interaction in Production** *87*
S. Mattsson, Å. Fasth, J. Stahre

C SUSTAINABLE PRODUCTION AND REMANUFACTURING

C1 **Life-Cycle Information Feedback to Product Design** *99*
L. Lindkvist, E. Sundin

C2 **Managing Complexity – A Methodology, Exemplified by the Industrial Sector of Remanufacturing** *107*
M. Haumann, H-E. Westermann, S. Seifert, S. Butzer

C3 **Lean and Green Integration Into Production System Models – Experiences from Swedish Industry** *115*
M. Kurdve, M. Zackrisson, M. Wiktorsson, U. Harlin

C4 **Measuring Sustainability – An Empirical Investigation of Deployed Performance Measures in Manufacturing Settings** *125*
M. Salloum, M. Lieder

C5 **System Dynamics Analysis of Energy Usage: Case Studies in Automotive Manufacturing** *133*
T.F. Adane, M. Nafisi, F.M.A. Asif, D.T. Semere, M. Nicolescu

C6 **Identifying Challenges for Developing Integrated Product Service Solutions. A Case Study within the Waste to Energy Sector** *143*
M. Servati, G. Johansson

C7 **Environmental Impact Assessment for Manufacturing: Data Requirements for a Simulation-Based Approach** *151*
J. Andersson, A. Skoogh, J. Berglund, B. Johansson

D MACHINING

D1 **Comprehensive Dynamic Analysis of Vibration and Stability when Ultrahigh Speed Turning Inconel 718 with cBN Tools** *163*
O. Gutnichenko, V. Bushlya, J. Zhou, P. Avdovic, J-E. Ståhl

D2 **A Sustainable Approach for Milling of Duplex Stainless Steel by Increasing the Cutting Tool Utilization** *171*
F. Schultheiss, J. Zhou, E. Gröntoft, J-E. Ståhl

D3 **Minimization of Chatter in Machining by the use of Mobile Platform Technologies** *179*
L. Pejryd, M. Eynian, T. Beno

D4 **Analytical Calculation of the Ra Surface Roughness During Turning** *185*
J-E. Ståhl, F. Schultheiss, S. Hägglund

D5 **Characterisation of Mechanical Properties of Machined Surface by Nanoindentation –
Part 1: Simulation of Indenter Geometry Effects** *191*
L. Chen, A. Ahadi, J. Zhou, J-E. Ståhl

D6 **Reproducibility of a Reaming Test** *199*
L. Pilny, P. Müller, L. De Chiffre

D7 **Ease of Reconfigurability Index – For Evaluation of the Reconfigurable Machine Tools** *207*
N. Aboufazeli, D.T. Semere

D8 **The Effect of Johnson Cook Plasticity Parameters on the Cutting Process Parameters** *213*
M. Agmell, J-E. Ståhl, A. Ahadi

D9 **Effect of Cutting Speed on Machinability of Alloy 718 with Conventional and Binderless cBN Tools** *221*
V. Bushlya, O. Gutnichenko, J.M. Zhou, P. Avdovic, V.Z. Tukevich, J-E. Ståhl

E MANUFACTURING PROCESSES

E1 **Factors Influencing Fusion of Spatter to the Base Metal During Tandem GMAW** *233*
P. Li, L-E. Svensson, N. Markocsan

E2 **Statistical Analysis of Variations in Resistance Spot Weld Results in Laboratory and Production Environment** *241*
O. Andersson, A. Melander

E3 **Analysis of Process Parameters During Press Quenching of Bevel Gear Parts** *251*
M. Bagge, B. Lindberg

E4 **Laser-Arc Hybrid Welding – A Case Based Study for Further Understanding of its Industrial Feasibility** *261*
T. Ilar, J. Karlsson, A.F.H. Kaplan, J. Powell

E5 **Numerical Modelling of Shielding Gas Flow and Heat Transfer in Laser Welding Process** *269*
A.J. Shirvan, I. Choquet, H. Nilsson

E6 **A procedure to fully control and trace the weld quality for laser-arc hybrid welding under production conditions** *277*
Alexander F. H. Kaplan, Jan Karlsson, John Powell

F METROLOGY IN PRODUCTION

F1 **Alignment Deviations on a Lead Crowned Helical Gear Manufactured by a Hob** *287*
M. Svahn, L. Vedmar

F2 **The Influence of Correct Transfer of Weld Information on Production Cost** *295*
A. Ericson Öberg, M. Johansson, E.J. Holm, P. Hammersberg, L-E. Svensson

F3 **A Method for Fast Characterization of Power Efficiency in Induction Heating Processes** *303*
K. Frogner, T. Cedell, M. Andersson

F4 **Metrology – A "Forgotten" Added Value Maker that Eliminates Cost of Poor Quality and Supports a Sustainable Zero Defects Production** *311*
P. Ekberg

G PRODUCTION SYSTEM DESIGN

G1 **Requirements on Manufacturing Strategy Frameworks for SMME** *319*
K. Säfsten, M. Winroth, M. Löfving

G2 **Evolvable Production Systems: Recent Developments and Research Directions** *327*
P. Neves, J. Ferreira, H. Akillioglu, A. Maffei, M. Onori

G3 **Manufacturing Flexibility and Materials Supply Systems** *333*
M.I. Johansson, C. Wänström, L. Medbo

G4 **Towards a Holistic Perspective on Production System Improvement** *341*
L. Stålberg, D. Gåsvaer, J. von Axelson, M. Widfeldt

H PRODUCTION PERFORMANCE

H1 **Cost Sensitivity Modelling in Welding Production** *349*
N.M.V. Stenbacka

H2 **Understanding Cash Conversion Principles to Facilitate and Motivate Manufacturing Development Initiatives** *357*
R. Sundqvist, R. Hedman, P. Almström, A. Kinnander

H3 **Manufacturing Costs and Degree of Occupancy Based on the Principle of Characteristic Parts** *367*
C. Windmark, C. Andersson, J-E. Ståhl

H4 **On the importance of the Equipment Cost Definition in Manufacturing Cost Analysis** *377*
M. Jönsson, C. Andersson, J-E. Ståhl

H5 **Evaluating Manufacturing Information Models for Productivity and Profitability Assessment of Manufacturing Facilities** *387*
R. Hedman, R. Sundqvist, P. Almström, A. Kinnander

H6 **How to Realize the Productivity Potentials in the Manufacturing Industry** *397*
P. Almström, A. Kinnander, R. Sundkvist, R. Hedman

H7 **Cost Drivers and Production Limitations for Electrified Vehicle Traction Components** *405*
P. Fyhr, M. Andersson, J-E. Ståhl

H8 **Performance Measures in Lean Production Settings – A Case Study** *411*
M. Salloum

H9 **Towards Quality Estimation in Metalcasting Manufacturing: Analytical Case Study of Aluminum Foundry** *417*
R.S. Wadhwa, T.K. Lien

H10 **Analysis of Research Methodologies of SPSs Full Papers from 2007 until 2011** *425*
V. Lindström

I VIRTUAL MANUFACTURING AND SIMULATION

I1 **Integrating System Dynamics and Multi-Objective Optimization for Manufacturing Supply Chain Analysis** *433*
T. Aslam, A.H.C. Ng, I. Karlsson

I2 **Modules Information Modelling in Evolvable Production Systems** *443*
G. Sivard, N. Shariatzadeh, H. Akillioglu

I3 **Event-Driven Adaptability using IEC 61499 in Manufacturing Systems** *453*
G. Adamson, M. Holm, L. Wang

I4 **Knowledge Discovery in Production Simulation by Interleaving Multi-Objective Optimization and Data Mining** *461*
A.H.C. Ng, C. Dudas, L. Pehrsson, K. Deb

I5 **Integrated Modeling and Application of Standardized Data Schema** *473*
M. Hossain, N. Harari, D. Semere, P. Mårtensson, A. Ng, M. Andersson

I6 **A New Combined Optimisation Algorithm for Sheet-Metal Press Line Tuning** *479*
B. Svensson, F. Danielsson

I7 **Optimization of Robotized Sealing Stations in Paint Shops by Process Simulation and Automatic Path Planning** *487*
A. Mark, R. Bohlin, D. Segerdahl, F. Edelvik, J.S. Carlson

J CARBON FIBRE AND COMPOSITE PARTS

J1 **Automated Cutting of Fiber Materials for Tailored Drapeability** *499*
K. Olofsson, E. Hedlund, R. Joffe, F. Ahlqvist

J2 **Composite Manufacturing: How Improvement Work Might Lead to Renewed Product Validation** *505*
A. Björnsson, K. Johansen

J3 **Hybrid Joining of Aluminium to Thermoplastics with Friction Stir Welding** *515*
W. Ratanathavorn, A. Melander, E. Lind-Ulmgren, M. Åkermo, M. Burman

J4 **New Automated Composite Manufacturing Process: Is it Possible to Find a Cost Effective Manufacturing Method with the use of Robotic Equipment?** *523*
JE. Lindbäck, A. Björnsson, K. Johansen

J5 **Automatic Forming of Composite Aircraft Beams** *533*
J. Sjölander, M. Åkermo

K LOCALISATION AND CROSS-CULTURAL ISSUES

K1 **Manufacturing Location Decision: A Case Study on Process and Criteria** *543*
J. Bruch, M. Wiktorsson, M. Bellgran

K2 **A Study of the R&D-Manufacturing Interface in Distributed Settings: Experiences from Chinese Manufacturing Site** *553*
P. Wlazlak, G. Johansson, M. Cederfeldt

K3 **Considering Production Localisation in the Production System Design Process** *561*
J. Schedin, C. Rösiö, M. Bellgran

K4 **Knowledge Management in the Cross-Cultural Organisation** *567*
L. Tibblin, M. Winroth

K5 **Business Case as a Decision Support when Relocating Manufacturing** *575*
C. Windmark, C. Andersson

K6 **Challenges in a Product Introduction in a Cross-Cultural Work System – A Case Study Involving a Swedish and a Chinese Company** *583*
M. Berglund, U. Harlin, P. Gullander

K7 **Production Start-up Phase – A Comparison between New Product Development and Production Relocation**
Anna Malm, Anna Fredriksson, Mats Rudlund, Mats Björkman, Kerstin Johansen *593*
