

Sustainable Plastics

Environmental Assessments of Biobased, Biodegradable, and Recycled Plastics

Joseph P. Greene

WILEY

Contents

Preface	xi
Dedication	xiii
Glossary	xv
1. Introduction to Sustainability	1
1.1 Sustainability Definition, 1	
1.2 Green Chemistry Definitions, 6	
1.3 Green Engineering Definitions, 7	
1.4 Sustainability Definitions for Manufacturing, 8	
1.5 Life Cycle Assessment, 10	
1.6 Lean and Green Manufacturing, 10	
1.7 Summary, 11	
References, 11	
Review Questions, 13	
Review Problems, 13	
Review Exercises, 14	
2. Environmental Issues	15
2.1 The Planet is Warming, 15	
2.2 Melting of Glaciers, 17	
2.3 Rising Seas, 19	
2.4 Causes of Global Warming, 20	
2.5 Ocean Pollution and Marine Debris, 23	
2.6 Chemical Pollution from Plastics, 38	
2.7 Landfill Trash, 39	
2.8 Summary, 42	
References, 43	
Review Questions, 47	
Review Problems, 48	
Review Exercises, 49	

3. Life Cycle Information	51
3.1 Life Cycle Assessment for Environmental Hazards, 51	
3.2 Life Cycle Assessment Definitions, 52	
3.3 ISO 14040/14044 Life Cycle Assessment Standards, 55	
3.4 Sensitivity Analysis, 58	
3.5 Minimal Acceptable Framework for Life Cycle Assessments, 59	
3.6 Life Cycle Inventory for Petroleum-Based Plastics, 60	
3.7 Life Cycle Assessment for Biobased Poly Lactic Acid, 63	
3.8 Summary, 66	
References, 67	
Review Questions, 68	
Review Problems, 69	
Review Exercises, 70	
4. Biobased and Biodegradable Polymers	71
4.1 Biobased and Biodegradable Definitions, 71	
4.2 Biobased Polymers, 73	
4.3 Petroleum-Based Compostable Polymers, 92	
4.4 Life Cycle Assessment of Compostable and Biodegradable Polymers, 97	
4.5 Summary, 99	
References, 99	
Review Questions, 103	
Review Problems, 104	
Review Exercises, 106	
5. Biobased and Recycled Petroleum-Based Plastics	107
5.1 Biobased Conventional Plastics, 107	
5.2 Recycled Petroleum-Based Plastics, 113	
5.3 Oxodegradable Additives for Plastics, 120	
5.4 Summary, 121	
References, 122	
Review Questions, 124	

Review Problems, 124
Review Exercises, 126

6. End-of-Life Options for Plastics **129**

6.1 US EPA Warm Program, 129
6.2 Mechanical Recycling of Plastics, 130
6.3 Chemical Recycling, 131
6.4 Composting, 132
6.5 Waste to Energy, 133
6.6 Landfill Operations, 136
6.7 Life Cycle Assessment of End-of-Life Options, 137
6.8 Summary, 139
References, 140
Review Questions, 142
Review Problems, 143
Review Exercises, 144

7. Sustainable Plastic Products **145**

7.1 Introduction, 145
7.2 Sustainable Plastic Packaging, 146
7.3 Sustainable Plastic Grocery Bags, 159
7.4 Life Cycle Assessment of Sustainable Plastic
Bottles, 177
7.5 Summary, 180
References, 181
Review Questions, 183
Review Problems, 184
Review Exercises, 186

**8. Biobased and Biodegradation Standards for
Polymeric Materials** **187**

8.1 Introduction, 187
8.2 Biobased Standard Test Method, 190
8.3 Industrial Compost Environment, 192
8.4 Marine Environment, 210
8.5 Anaerobic Digestion, 217
8.6 Active Landfill, 223
8.7 Home Compost, 228

- 8.8 Soil Biodegradation, 231
- 8.9 Summary, 232
- References, 234
- Review Questions, 235
- Review Problems, 235
- Review Exercises, 237

9. Sustainable Strategies for Plastics Companies 239

- 9.1 Sustainable Plastics Manufacturing and Best Practices, 239
- 9.2 Manual Creation of Life Cycle Assessment Calculations, 240
- 9.3 Carbon Credits and Carbon Taxes, 245
- 9.4 Summary, 246
- References, 247
- Review Questions, 247
- Review Problems, 248
- Review Exercises, 249

10. Future of Sustainable Plastics 251

- 10.1 Sustainable Biobased Plastics Made from Renewable Sources, 252
- 10.2 Sustainable Traditional Plastics Made from Renewable Sources, 254
- 10.3 Growth in Biobased Plastics with Development of Durable Goods, 255
- 10.4 Growth in Biobased Plastics for Pharmaceuticals and Medical Devices, 256
- 10.5 Summary, 257
- References, 258
- Review Questions, 260
- Review Problems, 260
- Review Exercises, 261

Appendix A Injection Molding 263

- A.1 Introduction, 263
- A.2 Process Control During Injection Molding, 264
- A.3 Molds for Injection Molding, 272

A.4	Molding Defects, 275	
	References, 277	
Appendix B	Extrusion	279
B.1	Introduction, 279	
B.2	Extrusion Processing, 281	
B.3	Extrusion Process Control, 285	
B.4	Extrusion Defects, 287	
	References, 288	
Appendix C	Blow Molding	289
C.1	Extrusion Blow Molding, 289	
C.2	Injection Stretch Blow Molding, 291	
	References, 292	
Appendix D	Industrial Compost Biodegradation Testing	293
D.1	Methodology, 293	
D.2	Materials, 296	
D.3	Carbon Content Testing Results, 296	
D.4	Biodegradation Results, 297	
D.5	Phytotoxicity Testing, 299	
D.6	Regulated Heavy Metal Testing, 301	
	References, 302	
Appendix E	Marine Biodegradation Testing	303
E.1	Methodology, 303	
E.2	Materials, 303	
E.3	Experimental Setup, 304	
E.4	Marine Biodegradation Results, 306	
Appendix F	Answers to Selected Questions at the End of Each Chapter	309
Index		317
