

Living in a Sustainable World Focused on Electrified Rail

Deliverable 5.1:

The LivingRAIL Railmap 2050

C. Doll, A. Peters, J. Köhler, A. Kühn, D. Jarczyweski, A. Uljed, O. Biesca,
F. Jürgens, A. Geißler, A. Klečina and all LivingRAIL partners

Contents

Executive summary	4
Contents	8
Figures	11
1 Preface	13
1.1 On this document	13
1.2 The LivingRAIL Project	13
1.3 Why Rail?	14
1.4 Alternative Futures	15
2 Method of the LivingRAIL study	16
2.1 What is a Vision?	16
2.2 What is Roadmapping?	16
2.3 The LivingRAIL Visioning Process	17
3 Casting back into the Future: the General Picture	21
3.1 Living in the Mid 21 st Century	21
3.2 Time Travel from the 1970s to 2015	21
3.3 Lessons for the second Period from 2015 to 2050	22
3.4 Key prospects for the Second Period 2015 - 2050	23
4 Vision by Themes	26
4.1 Overall Vision Statement	26
4.2 Norms, Values and Lifestyles	28
5 The LivingRAIL 2050 Railmap	36
5.1 Review of Measures for 2050	36
5.1.1 Rail technology and operation	36
5.1.2 Policy and spatial development	37
5.1.3 The complete measure database	37
5.2 Railmap in a nutshell	39
5.3 Railmap by theme	42

5.4	Railmap by type of region	44
5.4.1	Shifted implementation periods	45
5.4.2	Later accomplishment in low density areas	45
5.5	Railmap by sector	45
5.5.1	Urban and rural mobility	45
5.5.2	Inter-urban passenger transport	46
5.5.3	Freight transport	46
5.6	Railmap by actor	50
5.6.1	The policy sector	50
5.6.2	The transport sector	50
5.6.3	The civil society	50
6	Impact Assessment	51
6.1	Methodological approach	51
6.1.1	The ASTRA model	51
6.1.2	The modelling input	55
6.2	Results for transport and environmental impacts	58
6.2.1	Changed travel costs scenario	58
6.2.2	Changed travel speed scenario	61
6.2.2	Target rail share scenario	62
6.2.3	Overall impacts	66
6.3	Economic and external cost performance	68
6.3.1	Background and structure	68
6.3.2	The standard scenario for funding needs and economic performance	69
6.3.3	Sensitivity case of funding needs and economic performance	71
6.3.4	Social costs and benefits	72
6.4	Summary of results	74
7	Final conclusions	75
7.1	The essence of the LivingRAIL Vision and Railmap towards 2050	75
7.2	Specificities by type of region	76
7.3	Effective and affordable solutions	76
7.4	Impacts on demand and on the environment	77
7.5	The business case	78
7.6	The essence	78
8	References	79
