Function Spaces of Dominating Mixed Smoothness, Weyl and Bernstein Numbers

Dissertation

*zur Erlangung des akademischen Grades
doctor rerum naturalium (Dr. rer. nat.)*

vorgelegt dem Rat der
Fakultät für Mathematik und Informatik
der Friedrich-Schiller-Universität Jena

von M.Sc. Van Kien Nguyen
geboren am 16. July 1985 in Haiphong, Vietnam

Contents

1	Function spaces of dominating mixed smoothness	1
1.1	Preliminaries	1
1.1.1	Notations	1
1.1.2	Maximal operators and Fourier multipliers	2
1.1.3	Isotropic Besov and Triebel-Lizorkin spaces	6
1.2	Function spaces of dominating mixed smoothness	8
1.2.1	Besov and Triebel-Lizorkin spaces of dominating mixed smoothness	8
1.2.2	Tensor products of Sobolev and Besov spaces	11
1.2.3	Dual spaces	13
1.2.4	Complex interpolation	19
1.2.5	Characterization by mixed iterated differences	21
1.3	Functions spaces defined on the unit cube	25
2	Comparison with isotropic spaces	27
2.1	Preparations and test functions	27
2.2	The case of Besov spaces	35
2.2.1	The embedding of dominating mixed spaces into isotropic spaces	35
2.2.2	The embedding of isotropic spaces into dominating mixed spaces	39
2.3	The case of Triebel-Lizorkin spaces	42
2.3.1	The embedding of dominating mixed spaces into isotropic spaces	42
2.3.2	The embedding of isotropic spaces into dominating mixed spaces	46
2.4	The optimality	50
3	Pointwise multipliers and change of variable operators	53
3.1	Pointwise multipliers	53
3.1.1	Pointwise multipliers for Sobolev spaces	53
3.1.2	Pointwise multipliers for Besov spaces	59
3.1.3	Pointwise multipliers for Sobolev-Besov spaces on the unit cube	68
3.2	Change of variable operators and numerical integration of functions on the unit cube	70
3.2.1	Change of variable in spaces of dominating mixed smoothness	70
3.2.2	Numerical integration of functions on the unit cube	78
4	Weyl and Bernstein numbers of embeddings of tensor product Sobolev and Besov spaces	81
4.1	Weyl and Bernstein numbers	81
4.2	Wavelets	87
4.3	Decomposition method	90
4.4	Weyl and Bernstein numbers of embeddings of sequence spaces	99
4.4.1	The results for Weyl numbers	100

4.4.2	The results for Bernstein numbers	111
4.5	Transfer to function spaces on the unit cube	113
4.5.1	The Littlewood-Paley case	113
4.5.2	The extreme cases	116
4.5.3	Comparison with known results	120
4.6	Applications of Weyl and Bernstein numbers	121
4.7	Asymptotic behaviour of some other s -numbers	124
