

# Table of contents

- Table of contents** **i**
  
- 1 Introduction** **1**
  - References . . . . . 14
  
- 2 ERMs and their comparative statics in portfolio selection: Coherence vs. convexity** **15**
  - 2.1 Introduction . . . . . 16
  - 2.2 Entropic risk measures: representation and properties . . . . . 18
    - 2.2.1 Representation and basic properties . . . . . 18
    - 2.2.2 Some more “hidden” properties: risk–return tradeoff and portfolio selection . . . . . 21
  - 2.3 Risk, return, and diversification: portfolio selection “risky vs. risk free” . . . . . 22
  - 2.4 Increasing risk aversion: Portfolio selection with two risky assets . . . . . 25
    - 2.4.1 The (convex) entropic risk measure . . . . . 25
    - 2.4.2 The coherent entropic risk measure . . . . . 28
  - 2.5 Increasing risk: Portfolio selection with background risk . . . . . 31
  - 2.6 Conclusions . . . . . 34
  - Appendix** . . . . . 36
  - 2.7 Representation of CERM and ERM for normally distributed random variables 36
  - 2.8 Proof of Proposition 2.3.1 . . . . . 37
  - 2.9 Proof of Proposition 2.3.2 . . . . . 37
  - 2.10 Proof of Proposition 2.4.1 . . . . . 38
  - 2.11 Proof of Proposition 2.4.4 . . . . . 41
  - 2.12 Proof of Proposition 2.5.1 . . . . . 43
  - 2.13 Proof of Proposition 2.5.2 . . . . . 44
  - References . . . . . 46

<b>3 Convex shortfall risk measures: subjective risk aversion and optimal portfolio choice</b>	<b>47</b>
3.1 Introduction . . . . .	48
3.2 Convex shortfall risk measures: representation of subjective risk aversion . . .	51
3.2.1 In-between convex measures and expected utility: representation and properties of convex shortfall risk measures . . . . .	51
3.2.2 Absolute risk aversion: expected utility versus convex shortfall risk measures . . . . .	53
3.2.3 Beyond expected utility: subjective risk aversion under convex shortfall risk measures . . . . .	55
3.3 Convex shortfall risk measures and optimal portfolio choice . . . . .	62
3.4 Convex shortfall risk measures and optimal portfolio choice with background risk . . . . .	68
3.5 Conclusions . . . . .	75
<b>References</b> . . . . .	<b>78</b>
<b>4 Nonlinearly transformed risk measures: properties and application to optimal reinsurance</b>	<b>79</b>
4.1 Introduction . . . . .	80
4.2 Nonlinearly transformed risk measures: representation and properties . . . . .	82
4.2.1 Representation and basic properties . . . . .	82
4.2.2 Examples of nonlinearly transformed risk measures . . . . .	84
4.3 Reinsurance problem and optimal risk management strategy under NTRM . .	88
4.3.1 Setting . . . . .	88
4.3.2 Optimality of stop-loss reinsurance . . . . .	89
4.4 Optimal deductibles . . . . .	90
4.4.1 General Result . . . . .	90
4.4.2 Comparative statics with respect to the insurant's risk aversion . . . .	92
4.4.3 Comparative statics with respect to the insurant's initial wealth . . .	97
4.5 Conclusion . . . . .	101
<b>Appendix</b> . . . . .	<b>104</b>
4.6 Proof of Proposition 4.2.2 . . . . .	104
4.7 Proof of Proposition 4.4.1 . . . . .	104
4.8 Proof of Proposition 4.4.2 . . . . .	106
4.9 Proof of Proposition 4.4.4 . . . . .	107

4.10 Proof of Proposition 4.4.6 . . . . .	107
4.11 Proof of Proposition 4.4.7 . . . . .	108
4.12 Proof of Proposition 4.4.9 . . . . .	108
<b>References</b> . . . . .	<b>111</b>
