How Nations Succeed

Manufacturing, Trade, Industrial Policy, and Economic Development

palgrave macmillan
CONTENTS

Part I  Industrialization Was Never an Accident: Colonialization, Monopolized Trade, and Industrialization  1

1  The Old World Order: Trade Before the Empires on which the Sun Never Set  5
   1.1 Eurasian Trade: Reverse Flows of Merchandise from Asia Versus Gold from Europe  5
   1.2 Economics and Commerce in Medieval Europe Prior to European Geographical Explorations  7
   1.3 The Silk Road and the Spice Route in Medieval Times: The Mediterranean as Part of Global Trade  7
   1.4 Venice Reaches the Zenith of Power in the Mediterranean References  9

2  The Pre-Industrial New World Order: Colonial Empires on Which the Sun Never Set  13
   2.1 Winners, Losers, and Definite Losers of the New World Order  13
   2.2 For Spices and Christians: Portuguese Trade Deficit and Colonization Portugal’s Global Expansion  15
   2.3 Spanish Expansion into the Americas  16
   2.4 The Colonizer of the New Age: Britain’s Ascendancy to a Global Power  19
Britain's Merchant Adventurers: Pioneers of British Global Expansion 21
The First Phase of English Global Expansion: Colonization of North America 23
The Joint Stock Company, the Crown's Charter, and the Colonies 25
The Second Phase of British Global Expansion: The British East India Company and the Colonization of India 27
The Dutch: England's Friend and Also Foe in the Quest for Dominination of Global Trade in the Seventeenth Century 31
The Simple Economics of the British Colonies in America 34

References 37

3 British Colonial Empire and Industrial Policy: Protection, Monopolized Trade, and Industrialization 39
3.1 Britain's Trade Prior to the Industrial Revolution 40
3.2 The Industrial Revolution and the Expansion of Trade in the Eighteenth Century 43
3.3 British Industrial Policies as the Driver of British Industrialization 45
Inviting Textile Masters to Britain: Learning and Technology Transfer Before the Industrial Revolution 47
Import Substitution and Infant Industry in the Fourteenth Century: Shifting England's Exports from Raw Wool to Textiles 49
British Navigation Acts: Development of British Shipping and Shipbuilding Industries 51
Monopolizing the International Trade of Colonies: Running Current Account Surpluses by Prohibiting Manufacturing in the Colonies 52
The Triangular Trade 54
3.4 India Before and After British Invasion 55
Manufacturing 'Good' Indians 58
3.5 The Story of Cotton: Slaves, India, and British Industrial Revolution 60
Banning Imports of Efficient Indian Cotton Textiles 61
Turning Britain into a Cotton Textiles Manufacturer 62
USA Becomes the Source of Raw Cotton 63
CONTENTS

Cotton: The Critical Commodity 64
Cotton and Slavery 66
3.6 Free Trade Agreements, Free Trade of Opium, and the Collapse of China 67
Britain Extends Beyond India 67
China and Britain 68
References 76

4 How Industrialized Nations Industrialized 79
4.1 Hats, Tea, and Liberty: The American Quest for Manufacturing 79
What the Colonial Laws Meant for the Colony 80
Bad Finance at Home, Bad Taxes in the Colonies 81
Founding Fathers of American Manufacturing and the USA 82
4.2 Japan's Industrial Policy and Late Industrialization in the Nineteenth Century 84
Frightening Black Ships in Edo 85
The Unfair Treaties 86
The Coal ... 88
Japanese Industrialization in the Meiji Period 88
Industrial Policies in the Meiji Period 90
Japan as an Industrialized Nation 93
4.3 French Way of Picking the Winners: Colbert's Industrial Policies in the Seventeenth Century 94
Making France a Textile and Glass Country 96
Educational Reforms 98
France as an Industrialized Nation 98
4.4 Germany: Another Late Industrializer 99
Economic Unification, Patriotism, and Industrialization 100
Germany as an Industrialized Nation 102
4.5 Beginning of Russian Industrialization: Peter the Great's Great Technology Transfer Story in the Eighteenth Century 102
Peter's Crusade for Inward Technology Transfer 104
Russia as an Industrialized Nation 104
