Introduction 1

1 Healing our fragmented world 9
   Step 1 – Seeking the ox 9
   Thinking differently 10
   A systems world-view 16

2 Rehabilitating the observer 23
   Step 2 – Finding the tracks 23
   Paradigm shift 24
       Thread 1 – presence of the observer 29
       Thread 2 – observation, intervention and ethics 30
       Thread 3 – reflexivity and reciprocity 31
       Thread 4 – circularity and re-entry 32
       Thread 5 – reflection and perception 32
       Thread 6 – transdisciplinarity 33
       Thread 7 – multi-perspective dialogic 34
   Weaving the threads 34

3 Reperceiving the future 39
   Step 3 – First glimpse of the ox 39
   Changing boundary perception 40
   Anticipating the unpredictable 46
   The three horizons 48
   Deepening the paradigm shift 51
## Contents

### 4  Anticipatory systems are different
- Step 4 - Catching the ox ........................................... 58
- Foresight as anticipation ............................................ 59
- From first-order to second-order anticipatory systems ...... 61
- Taking a transdisciplinary viewpoint ............................ 63
- The structure of the anticipatory present moment .......... 69

### 5  Cultivating decision integrity
- Step 5 - Taming the ox ............................................. 77
- The trap of rationality .............................................. 78
- Decision as learning ............................................... 81
- The notion of undecidable questions ......................... 84
- The navigational implications of second-order decision .... 88
- Implications for management and governance ............... 90

### 6  The co-creative way
- Step 6 - Riding the ox home ...................................... 93
- Pattern thinking .................................................. 94
- The gestalt of pattern recognition ............................. 97
- The practice of repatterning ................................... 98
- Participative repatterning ....................................... 101
- Cognitive kinetics ................................................ 102
- Idonics - the key tool .......................................... 104
- Facilitating participative repatterning ....................... 105

### 7  Transforming in the now
- Step 7 - The ox out of sight, the self alone ................. 109
- Perception within the present moment ....................... 110
- The four modes of anticipation ............................... 114
- An exercise of anticipatory consciousness .................. 118
  - APM exercise 1 - the stretch .................................. 118
  - APM exercise 2 - reflexive questions ...................... 120
- Tapping our potential ........................................... 122
- Coming to grips with the now .................................. 124

### 8  Natural systems thinking
- Step 8 - Entering the market place with helping hands .... 127
- Systems thinking as qualitative practice .................... 128
- A fundamental dilemma of systems thinking ............... 130
- Systems knowledge; systems understanding ................ 132

---
