## CONTENTS

3.5  The Periphery and the Semiperiphery of Western Europe  
3.6  Italy: A Perimeter of the Core?  
3.7  Eastern Europe: Completing the Egg?  
References

4  Old Paradigms and New Crises
4.1  The Old Development Paradigm ‘From Above’  
4.2  Transnational Companies: ‘New’ Actors Disguised by an Old Paradigm  
4.3  Spatial Specialization, External Dependency, and Disintegration of Peripheral Regions  
4.4  Dependent Industrialization and Peripheral Deindustrialization  
References

5  Core and Periphery from Cold War to Monetary Integration
5.1  Reconstruction of the European Core  
5.2  From German Ordo- to International Neoliberalism: Anti-left Bias in the Enlargement Process  
5.2.1  German Anti-communism and Western Integration  
5.2.2  Pax Germanica Builds on Continuing Liberal Economic Paradigm  
5.3  Integration of Unequal Partners  
5.4  The Absence of Common Industrial Policies  
5.5  Corporate Integration and the European Division of Labor  
5.6  Toward a Monetary Union: The European Monetary System (EMS)  
5.7  ‘True’ Integration or a ‘Sort of Colonial System’? A Puerto Rico Scenario?  
References

6  Alternative Strategies in the ‘European Dependency School’
6.1  Toward a New Development Paradigm ‘from Below’  
6.2  Between Reform and Utopia: Policy Considerations of Such a New Paradigm  
References
7 Paradigm Lost? 'Endogenous Development' Replaces 'Selective Self-Reliance'
References

8 Persistent Core–Periphery Divide in the EU
