Economic History of a Divided Europe
Four Diverse Regions in an Integrating Continent

Ivan T. Berend
Contents

List of illustrations x

Introduction: Europe, its civilizations and historical regions 1
Europe and its civilization 1
The idea and reality of European integration 2
In spite of integration, major macro-regional differences 4
Is the Central and Eastern European backwardness the legacy of communism? 7
The “longue durée” approach 7
Evaluating and measuring peripheral backwardness 8
The terms of backwardness, its measurement and generalization 11
Regional differences and the future of Europe 14

1 Long historical roads toward regional differences within
Europe: four regions in 1913 18
Explanatory theories and the reality 19
The road toward a high level of advancement: Northwest Europe 25
The revolutionary transformation of the Western mind from the Renaissance via
Reformation to Scientific Revolution and Enlightenment 34
Northwest Europe at the top 37
Dead-end roads and relative backwardness in the peripheries 40
Three distinct peripheral macro-regions before World War I 48

2 A radically changed world, yet unchanged regional
division: four regions in early-21st-century Europe 56
The 21st century: a dramatically changed world and Europe 56
The regionalization of the enlarged European Union 60
The other side of core-periphery relations: the road to catch up 65
Four regions in the early 21st century 71
The changing position of some countries in an unchanged regional divide 73
Europe’s divided regions’ position in the world 74
3 What preserves regional differences? The social, economic, and cultural factors
   The dialectic of change and continuity 77
   Survival of micro-regional peripheral backwardness in advanced countries 78
   Social-economic structural weaknesses of peripheral countries 80
   Preserved peripheral social-cultural characteristics 83
   Anti-capitalist mentalities, sharply divided societies, and lower levels of education 84
   Weaknesses in entrepreneurship 88
   Peripheral attitude toward the state and institutions 91
   The black (or shadow) economy 96
   Labor market and work ethic weaknesses 97
   Epidemic corruption and tax evasion 99
   Tendencies toward authoritarian-dictatorial power 108

4 The most developed core of Europe: the northwest
   Europe's superpower status and the northwest region 117
   Reunified Germany in the driver's seat 118
   What factors have helped the reproduction of Northwest's preeminence in the 21st century? 121
   The economic strength of Northwest Europe 124
   Technological revolution, the renewed energy system, and deindustrialization 127
   The service revolution and the financial sector 129
   The strength of modern industries 132
   The Northwest: the biggest service provider 136
   The 2008 financial crisis in Northwest Europe 137
   Moderate neoliberal turn: weakening the welfare state and workers' rights 139
   Questionable stability of the Northwest 141

5 The Mediterranean-Irish region: catching up with the West but burdened with remnants of a peripheral past
   Middle-income peripheral level until the mid-20th century 148
   The rise of Ireland and the Mediterranean 152
   The Irish miracle 155
   Catching up on the Mediterranean 158
   The Mediterranean-Irish 21st-century credit-fueled consumption bubble 165
   Financial-economic crisis hits the region hard 167

6 Central Europe and the Baltics: trapped in middle-income periphery?
   Belated and partial modernization: the historical background 178
   The interwar fiasco 183
   "Detour from the periphery to the periphery" 187
   Crisis and collapse 188
