

OECD Environmental Performance Reviews

Waste Management and the Circular Economy in Selected OECD Countries

EVIDENCE FROM ENVIRONMENTAL
PERFORMANCE REVIEWS

Table of contents

| | |
|---|-----------|
| Preface | 3 |
| Foreword | 5 |
| Abbreviations and acronyms | 11 |
| Glossary | 13 |
| References | 15 |
| Executive summary | 17 |
| Chapter 1. Main findings and conclusions | 21 |
| 1.1. Introduction | 22 |
| 1.2. Overall trends in materials consumption and waste generation | 22 |
| 1.3. Waste and materials management challenges in focus countries | 23 |
| 1.4. Institutional and policy frameworks | 26 |
| 1.5. Policy instruments | 28 |
| 1.6. Investment and financing | 30 |
| 1.7. International co-operation | 31 |
| Notes | 32 |
| References | 33 |
| Chapter 2. Trends in materials consumption and waste generation | 35 |
| 2.1. Economic and social context..... | 36 |
| 2.2. Material consumption and productivity..... | 39 |
| 2.3. Waste generation and treatment | 41 |
| Notes | 48 |
| References..... | 48 |
| Chapter 3. Institutional and policy framework | 51 |
| 3.1. OECD policy framework for waste and materials management | 53 |
| 3.2. Legislation, strategies and planning for waste management | 54 |
| 3.3. Policy frameworks for the circular economy | 56 |
| 3.4. Institutional frameworks | 60 |
| 3.5. Organising municipal solid waste services..... | 61 |
| 3.6. Role of the private sector..... | 66 |
| Notes | 67 |
| References | 68 |
| Chapter 4. Policy instruments for waste and materials management | 71 |
| 4.1. Regulatory instruments..... | 74 |
| 4.2. Economic instruments | 77 |
| 4.3. Extended producer responsibility | 88 |
| 4.4. Green public purchasing..... | 92 |

| | |
|--|------------|
| 4.5. Public information and awareness raising..... | 93 |
| 4.6. Monitoring and reporting | 94 |
| 4.7. Enforcement and compliance promotion | 96 |
| Notes | 98 |
| References | 98 |
| Chapter 5. Investment and financing mechanisms for waste management | 101 |
| 5.1. Trends in waste management investments | 102 |
| 5.2. Financing sources and mechanisms | 103 |
| 5.3. Innovative financing to promote the circular economy..... | 108 |
| 5.4. Financing and other instruments to address contaminated sites..... | 108 |
| Notes | 110 |
| References | 110 |
| Chapter 6. International co-operation | 111 |
| 6.1. International instruments..... | 112 |
| 6.2. International waste transfers..... | 113 |
| 6.3. International co-operation | 114 |
| References | 114 |

Tables

| | |
|---|----|
| Table 2.1. Countries vary in population size, density and income levels | 37 |
| Table 4.1. Coverage of EPR schemes, 11 focus countries..... | 90 |

Figures

| | |
|--|-----|
| Figure 1.1. Material productivity rose in most countries..... | 23 |
| Figure 1.2. Countries with high landfill taxes tend to have lower landfill rates | 29 |
| Figure 1.3. Investment in waste management has increased since 2000 | 31 |
| Figure 2.1. All focus countries have experienced economic growth since the 2008 economic crisis ... | 38 |
| Figure 2.2. Material productivity varies across OECD countries | 39 |
| Figure 2.3. And material productivity rose in most countries | 40 |
| Figure 2.4. Waste generation varies significantly across OECD countries | 42 |
| Figure 2.5. Composition of waste by sector in the focus countries, 2014 | 43 |
| Figure 2.6. There is a weak correlation between total waste generation and GDP per capita, 2014 | 43 |
| Figure 2.7. The generation of municipal solid waste varies from under 300 kg/capita to over 700 kg/capita..... | 44 |
| Figure 2.8. ... And has fallen in many OECD countries | 45 |
| Figure 2.9. The generation of municipal solid waste is closely related to GDP | 46 |
| Figure 2.10. For many OECD countries, incineration and recycling have largely replaced landfilling of MSW | 47 |
| Figure 4.1. Countries with high landfill taxes tend to have low landfill rates | 84 |
| Figure 4.2. The policy mix of landfill tax and landfill bans was effective in diverting municipal waste from landfills in Sweden..... | 85 |
| Figure 5.1. The sources and levels of investment in waste management vary across OECD countries..... | 103 |
| Figure 5.2. Investment in waste management has increased since 2000 | 104 |
