Scaling Up Disruptive Agricultural Technologies in Africa

JEEHYE KIM, PARMESH SHAH, JOANNE CATHERINE GASKELL, ASHESH PRASANN, AND AKANKSHA LUTHRA
Contents

Foreword vii
Acknowledgments ix
Executive Summary xiii
Abbreviations xxiii

CHAPTER 1 Introduction 1
The promise of Sub-Saharan Africa's agri-food system 1
The numerous challenges facing Africa's agri-food system 2
Disruptive agricultural technologies as a catalyst for change 5
DATs: Potential to improve efficiency, equity, and sustainability of the agri-food system 6
Structure and purpose of the book 7
Notes 9
References 9

CHAPTER 2 Taking Stock of DATs in Sub-Saharan Africa 11
Methodology 11
Rising number of DATs in Sub-Saharan Africa over the past decade 11
DATs: Providing solutions to agricultural productivity and market links 15
Importance of investing in the digital ecosystem 17
DATs are concentrated in Kenya, Nigeria, and South Africa 20
Positive indications of DAT adoption in Sub-Saharan Africa 21
Investments in agri-technology in Sub-Saharan Africa 23
Notes 23
References 23

CHAPTER 3 Ecosystem Assessment Findings 25
Kenya's agriculture sector 26
Kenya's DAT innovation ecosystem 28
Lessons learned in Kenya 39
Nigeria's agriculture sector 40
Nigeria's DAT innovation ecosystem 40
Lessons learned in Nigeria 50
Comparative analysis 51
Notes 58
References 59

CHAPTER 4 Conclusions, Recommendations, and Future Areas of Research 63
Reference 70
Appendix A  Detailed Stocktaking Methodology  71
Appendix B  Detailed Case Study Methodology  77

Boxes
2.1  Inclusion and exclusion criteria  12
3.1  Wennovation Hub  45
3.2  Lessons from Israel and New Zealand  58
4.1  One Million Farmer Initiative  68

Figures
ES.1  Digital agriculture continuum xvii
ES.2  Scalable disruptive agri-tech hubs, by country xvii
ES.3  Ecosystem assessment for Kenya and Nigeria xviii
ES.4  Potential entry points to facilitate the broader adoption of digital technologies and improve food system outcomes xxi
1.1  DAT theory of change  7
2.1  Increased number of DAT solutions in the past four decades  12
2.2  Percentage of DATs addressing selected agricultural challenges  16
2.3  Digital DATs in Sub-Saharan Africa  18
2.4  Mobile penetration, internet penetration, and agricultural GDP in Africa  19
2.5  Digital agriculture continuum  19
2.6  Digital agricultural technologies using different tools  20
2.7  Scalable agri-tech DAT hubs, by country  21
3.1  Kenyan mobile infrastructure and usage, 2018  28
3.2  Kenya DAT innovation ecosystem assessment: Aggregate scores  29
3.3  Examples of Tulaa's bundling of financing and marketplace services  34
3.4  Comparative overview of Nigeria's performance on digital adoption  41
3.5  Nigeria DAT innovation ecosystem assessment: Aggregate scores  42
3.6  Kenya and Nigeria DAT innovation ecosystem assessment: Overview  52
3.7  Kenya and Nigeria DAT innovation ecosystem assessment: Entrepreneurial culture  53
3.8  Kenya and Nigeria DAT innovation ecosystem assessment: Density  54
3.9  Kenya and Nigeria DAT innovation ecosystem assessment: Finance  54
3.10  Kenya and Nigeria DAT innovation ecosystem assessment: Human capital  55
3.11  Kenya and Nigeria DAT innovation ecosystem assessment: Infrastructure  56
3.12  Kenya and Nigeria DAT innovation ecosystem assessment: Regulatory environment  57
A.1  Phases of disruptive agriculture: Focus on validation phase with minimum viable product  74

Photos
2.1  Solar-powered irrigation solution  17
3.1  SunCulture's solar-powered irrigation kit  27
3.2  Farmcrowdy: Providing small-scale farmers access to finance, markets, and good agronomic practices in Nigeria  47

Tables
ES.1  Agricultural challenges and relevant examples of DATs in Africa xiv
1.1  Agricultural challenge–driven framework  2
1.2  Agricultural challenges and relevant examples of DATs in Africa  4
2.1  Examples of World Bank-financed initiatives promoting disruptive technologies for agriculture  14
2.2  Scale of selected DATs, registered farmers  22
3.1  Kenya DAT innovation ecosystem assessment  30
3.2  Nigeria DAT innovation ecosystem assessment  42
4.1  Digital Agriculture Moonshot targets for Africa  64
4.2 Potential entry points and actions to facilitate broader adoption of digital technologies 65
A.1 Inclusion and exclusion criteria 71
A.2 USAID digital agriculture framework 72
A.3 Sources considered for the database 74
B.1 Indicators and scores for Kenya and Nigeria 77
B.2 Summary of findings from the quantitative and qualitative analyses 79
