

R&D, INVENTION AND ECONOMIC GROWTH

A Dissertation

Presented to

The Faculty of the Graduate School of International Economics and Finance

Brandeis University

Professor Adam B. Jaffe, Advisor

**In Partial Fulfillment
of the Requirements for the Degree
Doctor of Philosophy**

by

Hulya Ulku

March 2002

Table of Contents

	Page
<i>Acknowledgments</i>	<i>iv</i>
<i>Abstract</i>	<i>v</i>
<i>Table of Contents</i>	<i>vii</i>
1. Introduction	1
2. R&D, Invention and Economic Growth: An Empirical Analysis	6
2.1. Introduction	6
2.2. Literature Survey on Endogenous Growth Models	8
2.3. The Model	13
2.3.1. Description of the Model	13
2.3.2. Solution Of the Model	20
2.3.3. Implications of the Model	23
2.4. Data and Methodology	24
2.5. Empirical Analysis	27
2.5.1. OLS and Prais-Winsten Panel Data Regression Analyses	30
2.5.1.1. Estimation of Knowledge Production Function with respect to R&D	30
2.5.1.2. Estimation of Aggregate Production Function with respect to Invention	34
2.5.1.3. Estimation of TFP Growth with respect to Invention	41
2.5.2. Cross Section Regression Analysis	47
2.5.2.1. Estimation of Knowledge Production Function with respect to R&D	48
2.5.2.2. Estimation of Aggregate Production Function with respect to Invention	51
2.5.2.3. Estimation of TFP Growth with respect to Invention	55
2.5.3. Panel Data and Cross Section Analysis of GDP and TFP Growth in terms of R&D	59
2.5.4. Seemingly Unrelated Regression (SUR) Analysis	61
2.6. Conclusion	68
2.7. References	74

2.8.	Appendix	76
	Appendix 1	76
	Appendix 2	84
	Appendix 3	88
	Appendix 4	93
	Appendix 5	96
	Appendix 6	98
	Appendix 7	103
3.	R&D, Invention and Productivity Growth: Evidence from Three Manufacturing Sectors	110
3.1.	Introduction	110
3.2.	Literature Survey	112
3.3.	The Model	121
3.4.	Data and Methodology	124
3.5.	Empirical Analysis	130
	3.5.1. OLS and Prais-Winsten Panel Data Regression Analysis	131
	3.5.1.1. Estimation of Knowledge Production Function	131
	3.5.1.2. Estimation of TFP Growth with respect to Invention	137
	3.5.1.3. Estimation of TFP Growth with respect to R&D Expenditure	149
	3.5.2. Cross Section Analysis	154
3.6.	Conclusion	154
3.7.	References	161
3.8.	Appendix	164
4.	Do Technology Shocks Shift Output? An Empirical Analysis	
4.1.	Introduction	174
4.2.	The Model	177
4.3.	Data and Methodology	180
4.4.	Empirical Analysis	182
4.5.	Conclusion	193
4.6.	References	195
4.7.	Appendix	196
	Appendix 1	196
	Appendix 2	202
	Appendix 3	217
