## Contents

*Contributors* vii  
*Acknowledgements* ix  

1. Introduction  
   *John Bessant and Tim Venables*  

PART I  CONTEXT  

2. Science and technology in the UK  
   *Pablo D'Este and Andy Neely*  

3. How open is innovation?  
   *Linus Dahlander and David Gann*  

4. Innovation policy as cargo cult: myth and reality in knowledge-led productivity growth  
   *Alan Hughes*  

5. New innovation models and Australia's old economy  
   *Mark Dodgson and John Steen*  

6. Evolution of UK government support for innovation  
   *Tim Minshall*  

PART II  FIRM DEVELOPMENT THROUGH KNOWLEDGE  

7. Entrepreneurship in the knowledge economy  
   *Erik Stam and Elizabeth Garnsey*  

PART III  CONNECTING FOR INNOVATION  

8. Sustaining breakthrough innovation in large established firms: learning traps and counteracting strategies  
   *Simone Ferriani, Elizabeth Garnsey and David Probert*  

9. Search strategies for discontinuous innovation  
   *John Bessant and Bettina von Stamm*
Contents

10 Accelerating diffusion among slow adopters 227
   Richard Adams and John Bessant

11 Understanding and overcoming resistance to innovation 251
   Sue Morton and Neil Burns

PART IV WEALTH FROM KNOWLEDGE

12 How firms source knowledge from universities: partnering versus contracting 273
   Markus Perkmann and Kathryn Walsh

13 What are the factors that drive the engagement of academic researchers in knowledge transfer activities? Some reflections for future research 297
   Pablo D'Este and Andy Neely

14 Exploring the role of geographic proximity in shaping university–industry interaction 320
   Kate Bishop, Toke Reichstein and Ammon Salter

15 Enhancing the flow of knowledge to innovation: challenges for university-based knowledge transfer systems 335
   Hossein Sharifi, Weisheng Liu, Brian McCaul and Dennis Kehoe

16 Enabling information infrastructures and technologies 359
   Roula Michaelides and Dennis Kehoe

17 Conclusion 383
   John Bessant and Tim Venables
