CHAPTER ONE

Introduction 1

Background 1

Study Objective 4

Approach 5

Outline of the Monograph 6

CHAPTER TWO

Titanium Processing 7

Titanium and Its Properties 7

Titanium Metal Products 8

 Ores and Concentrates 8

 Sponge 8

 Ingot 9

 Mill Products 9

Production Processes 9

 Extracting Titanium Metal from Ore 10

 Producing Ingot from Sponge 10

 Primary Fabrication: Processing Ingot to Mill Products 13

Secondary Fabrication: Fabrication Parts from Mill Products	14
Scrap	14
Ferrotitanium	15
Production Cost Structure	16
Refining Cost	17
Fabrication Cost	17
Buy-to-Fly Ratio	18
Cost-Saving Technical Changes	18
Summary	19

CHAPTER THREE

The Titanium Industrial Base and Other Market Characteristics	21
Geographic Distribution	21
Major Producers	22
Major Buyers	24
Substitutes and Complements	28
Market Price	29
Oligopolistic Price	29
Market Size and Market Risks	29
Spot Market Versus Long-Term Contracts	30
Import Tariffs	31
Summary	32

CHAPTER FOUR

Supply-Side Drivers of Titanium Price Fluctuations	35
Availability and Price Trends of Raw Material	35
Sponge and Scrap Shortage	36
Depletion of U.S. Titanium Sponge Stockpile	38
Responsiveness of Production Capacity to Demand	39
Excess Production Capacity of Titanium Sponge Until 2004	40
Titanium Sponge Production Capacity Expansion After 2004	41
Other Supply-Side Factors	42
Entry and Exit	42
U.S. Titanium Metal Production Capacity Trends	44
Berry Amendment	45

China's Impact on Titanium Prices.....	48
Summary.....	49

CHAPTER FIVE

Demand-Side Drivers of Titanium Price Fluctuations	51
Three Primary Demand Drivers of the Commercial Aircraft	
Manufacturing Industry	52
Commercial Aircraft Orders Skyrocketed	52
Titanium Content per Aircraft Increased	53
Increased Demand from Military Aircraft Manufacturers	53
Increased Demand from the Industrial Sector	55
Increased Spot Market Transactions.....	57
Interaction of Demand- and Supply-Side Drivers to Bring Out the Recent Turmoil in the Titanium Market.....	59
Relationship Between Titanium Price Trends and Demand Shocks from the Aircraft Manufacturing Industry	59
Titanium Demand from the Commercial Aircraft Industry and Titanium Price Trends.....	60
Titanium Mill Product Price Elasticity Before 2004.....	64
Price Elasticity of Titanium Demand Since 2004	68
Summary.....	69

CHAPTER SIX

Market Prospects and Emerging Technologies	73
Market Prospects.....	73
Prospects of the World Titanium Sponge Supply.....	73
The Impact of China on the Titanium Supply.....	76
Future Demand for Titanium.....	77
Summary: Future Titanium Market Balance	81
Developments in Titanium Production Technology.....	82
Emerging Production Techniques	83
Improved Titanium Extraction and Refinement.....	84
Titanium Powder Metallurgy	87
Single-Melt Processing	88
Solid Freeform Fabrication.....	90
Improvements in Machining.....	91

Cost-Saving Potential of Emerging Technologies..... 92

Summary: Developments in Titanium Production Technology..... 93

CHAPTER SEVEN

Conclusions and Policy Implications 95

What Triggered the Recent Titanium Price Surge?..... 95

China’s Impact on Titanium Prices..... 97

Market Prospects and Emerging Technologies..... 97

 The Titanium Market in the Near Future..... 97

 Titanium Production Cost Drivers..... 98

 Emerging Technologies..... 99

Policy Implications..... 101

 Long-Term Contracts Are Needed to Mitigate Market Volatility 102

 Monitoring Market Trends to Improve Forecasting Power..... 103

 Reducing BTF Ratio and Optimizing Scrap Recycling..... 105

 Searching for New Technological Opportunities..... 106

APPENDIXES

**A. Aircraft Included in the Titanium Demand Calculation
and Data Sources** 109

B. Questionnaire to Industry Experts..... 111

**C. Supply- and Demand-Side Conditions Resulting in the
Recent Titanium Market Turmoil**..... 119

Bibliography..... 123
