|--|-----------|
| <b>Dedication</b>  | <b>11</b> |
| <b>Abbreviations</b>   | <b>13</b> |
| <b>Setting the Scene</b>   | <b>15</b> |
| <b>1 A Model of Scientific Workplace Information Literacy</b>                      | <b>21</b> |
| 1.1 Information Literacy   | 22        |
| 1.1.1 Educational Sector and Librarianship   | 23        |
| 1.1.2 Related Concepts   | 27        |
| 1.1.3 Criticism  | 32        |
| 1.2 Workplace Information Literacy   | 35        |
| 1.2.1 Workplace Environment  | 36        |
| 1.2.2 Transfer of Information Literacy to the Workplace Environment                | 39        |
| 1.2.3 Definitions of Workplace Information Literacy                                | 42        |
| 1.2.4 Related Concepts   | 46        |
| 1.2.5 Problems of Information Literacy at the Workplace                            | 49        |
| 1.3 Models of (Workplace) Information Literacy                                     | 51        |
| 1.3.1 Models of Information Literacy   | 51        |
| 1.3.2 Models of Workplace Information Literacy                                     | 57        |
| 1.4 Human Information Behaviour  | 67        |
| 1.4.1 Innovativeness   | 67        |
| 1.4.2 Information Retrieval  | 69        |
| 1.4.3 Information Quality  | 70        |
| 1.4.4 Learning and Working Strategies  | 72        |
| 1.4.5 Human Information Management   | 73        |
| 1.4.6 Sociological and Cultural Differences  | 74        |
| 1.4.7 Psychological Differences  | 76        |
| 1.4.8 Communication within Knowledge Workplaces                                    | 77        |
| 1.4.9 Relevance of Information Behaviour Research for Information Literacy Studies | 77        |
| 1.5 Scientific Workplace Information Literacy – a Dynamic Model                    | 80        |
| 1.6 Conclusion   | 87        |

|          |  |            |
|----------|--|------------|
| <b>2</b> | <b>Research Design</b>                       | <b>91</b>  |
| 2.1      | PreStudy 1: Adaptation of the Model          | 91         |
| 2.1.1    | Target Group Description                     | 92         |
| 2.1.2    | Results of the Expert Interviews             | 92         |
| 2.2      | Scope of the Main Survey                     | 95         |
| 2.3      | Applied Methods of Data Collection           | 99         |
| 2.3.1    | Content and Behaviour Research               | 99         |
| 2.3.2    | Survey Research                              | 100        |
| 2.4      | Applied Methods of Sample Selection          | 103        |
| 2.4.1    | Non-Probability Sampling                     | 104        |
| 2.4.2    | Probability-based Sampling                   | 105        |
| 2.5      | Construction and Execution of a Survey       | 108        |
| 2.5.1    | Methodological Quality                       | 108        |
| 2.5.2    | Rules of Designing a Survey                  | 110        |
| 2.5.3    | Executing and Analysing a Survey             | 112        |
| 2.6      | Survey Schedules                             | 114        |
| 2.6.1    | PreStudy 1: Unstructured Expert Interview    | 115        |
| 2.6.2    | PreStudy 1a: Semantic Differential           | 116        |
| 2.6.3    | Main Survey 2: Structured Interviews         | 118        |
| 2.7      | Applied Data Analysis Methods                | 121        |
| 2.7.1    | Inferential Statistical Methods              | 122        |
| 2.7.2    | Methods of Qualitative Content Analysis      | 129        |
| 2.7.3    | Applied Methods of Analysis                  | 131        |
| 2.8      | Conclusion                                   | 134        |
| <b>3</b> | <b>Empirical Survey – Results Main Study</b> | <b>137</b> |
| 3.1      | Target Group Description                     | 137        |
| 3.2      | Attitude Research                            | 140        |
| 3.2.1    | Survey 1a – University                       | 140        |
| 3.2.2    | Survey 1a – Roche Diagnostics GmbH, Penzberg | 145        |
| 3.3      | Knowledge Organisation                       | 148        |
| 3.3.1    | Subject Field, Tasks & Need                  | 148        |
| 3.3.2    | Information Landscape                        | 151        |
| 3.3.3    | Organisational Emphasis                      | 156        |
| 3.4      | Knowledge Worker                             | 158        |
| 3.4.1    | Socio-Demographic Background                 | 158        |
| 3.4.2    | Individual Emphasis                          | 160        |

|          |   |            |
|----------|---|------------|
| 3.4.3    | Individual Attitude   | 163        |
| 3.4.4    | Individual Abilities  | 165        |
| 3.5      | Information Process   | 167        |
| 3.5.1    | Identify & Define   | 168        |
| 3.5.2    | Find & Access   | 171        |
| 3.5.3    | Evaluate & Select   | 175        |
| 3.5.4    | Analyse & Organise  | 178        |
| 3.5.5    | Apply & Communicate   | 181        |
| 3.5.6    | Learn & Memorise  | 185        |
| 3.6      | Information Behaviour Analysis  | 188        |
| 3.6.1    | Find & Access   | 190        |
| 3.6.2    | Evaluate & Select   | 196        |
| 3.6.3    | Information Management  | 197        |
| 3.6.4    | Information Analysing Techniques                                      | 198        |
| 3.6.5    | Communicate   | 199        |
| 3.6.6    | Learn & Memorise  | 201        |
| 3.6.7    | Subjects, Tasks & Needs   | 203        |
| 3.6.8    | Individual Attitude   | 206        |
| 3.6.9    | Individual Emphasis   | 207        |
| 3.6.10   | Organisational Emphasis   | 208        |
| 3.6.11   | Similarities and Differences in Information Behaviour                 | 208        |
| 3.7      | Identified Problems within the Scientific Information Process         | 212        |
| 3.7.1    | Expert's Viewpoint  | 213        |
| 3.7.2    | Knowledge Worker's Viewpoint  | 215        |
| 3.8      | Conclusion  | 220        |
| 3.8.1    | Knowledge Worker, Information Process, Organisation                   | 222        |
| 3.8.2    | Influential Factors on Information Behaviour                          | 224        |
| 3.8.3    | Problems within the Scientific Information Process                    | 224        |
| 3.8.4    | Supporting WIL at Roche Diagnostics GmbH                              | 227        |
| <b>4</b> | <b>Strategies to foster Scientific Workplace Information Literacy</b> | <b>227</b> |
| 4.1      | Pedagogical Level   | 229        |
| 4.1.1    | Adult Learning  | 230        |
| 4.1.2    | The Scientific WIL Training Concept                                   | 233        |
| 4.2      | Information Architecture Level  | 243        |
| 4.2.1    | Guidlines for a web-based access to information tools                 | 243        |
| 4.2.2    | Identified Critical Points  | 252        |
| 4.2.3    | Suggestion for Optimisation – a pattern-based approach                | 257        |

|          |   |            |
|----------|---|------------|
| 4.3      | Organisational and Psychological Level  | 266        |
| 4.3.1    | Psychological Level: Work Motivation  | 266        |
| 4.3.2    | Organisational Level: Corporate Change Management                                   | 278        |
| 4.3.3    | Conclusion: A Road Map for Integrating Scientific<br>Workplace Information Literacy | 292        |
| <b>5</b> | <b>Conclusion</b>   | <b>299</b> |
| 5.1      | Summary   | 299        |
| 5.2      | Implications for Scientific Research and Corporate Experience                       | 312        |
| 5.3      | Future Research and Outlook   | 314        |
|          | <b>Literature</b>   | <b>316</b> |
|          | <b>Work Report</b>  | <b>339</b> |
