A. W. H. Phillips: Collected Works in Contemporary Perspective

Edited by
Robert Leeson
Contents

List of contributors  page x
Foreword by Arthur Brown  xii
Preface by Robert Leeson  xvi

Part I  Bill Phillips: Some Memories and Reflections
1  A.W.H. Phillips: An extraordinary life  3
   Robert Leeson
2  The versatile genius  18
   James Meade
3  To be his colleague was to be his friend  20
   Henry Phelps Brown
4  Phillips' adaptive expectations formula  22
   Phillip Cagan
5  Economist – washing machine fixer  23
   Elizabeth Johnson
6  Playing around with some data  24
   Ann S. Schwier
7  The Festschrift  26
   Brian Silverstone

Part II  The Phillips Machine
8  The origins of the machine in a personal context  31
   Walter Newlyn
9  The Phillips Machine as a 'progressive' model  39
   David Vines
Contents

10 Mechanical models in economic dynamics 68
   A.W. Phillips

11 The history of the Phillips Machine 89
   Nicholas Barr

12 Early reactions to Mark I and II 115
   Graeme Dorrance

13 A superb explanatory device 118
   R.M. Goodwin

14 The Phillips Machine and the history of computing 120
   Doron Swade

Part III Dynamic Stabilisation

Optimal Control

15 The optimal control articles 130
   Adrian Pagan

16 Stabilisation policy in a closed economy 134
   A.W. Phillips

17 Stabilisation policy and the time-forms of lagged responses 169
   A.W. Phillips

18 Arnold Tustin's The Mechanism of Economic Systems: a review 184
   A.W. Phillips

19 Michel Kalecki's Theory of Economic Dynamics: An Essay on Cyclical and Long-Run Changes in the Capitalist Economy: a review 186
   A.W. Phillips

Growth

20 The growth articles 190
   A.R. Bergstrom

21 A simple model of employment, money and prices in a growing economy 195
   A.W. Phillips
Contents

22 Employment, inflation and growth
   *A.W. Phillips*
   207

23 Economic policy and development
   *A.W. Phillips*
   224

The Empirical Phillips Curve

24 The famous Phillips Curve article
   *Richard G. Lipsey*
   232

25 The relation between unemployment and the rate of change of money wage rates in the United Kingdom, 1861–1957
   *A.W. Phillips*
   243

26 Discussion of Dicks-Mireaux and Dow’s *The Determinants of Wage Inflation: United Kingdom, 1946–1956*
   *A.W. Phillips*
   261

27 The Melbourne paper
   *John Pitchford*
   263

28 Wage changes and unemployment in Australia, 1947–1958
   *A.W. Phillips*
   269

29 Phillips and stabilisation policy as a threat to stability
   *William J. Baumol*
   282

30 The Phillips Curve in macroeconomics and econometrics
   *L.R. Klein*
   288

31 Bill Phillips’ contribution to dynamic stabilisation policy
   *Stephen J. Turnovsky*
   296

32 A Left Keynesian view of the Phillips Curve trade-off
   *G.C. Harcourt*
   304

33 Interactions with a fellow research engineer–economist
   *Charles C. Holt*
   308

34 Does modern econometrics replicate the Phillips Curve?
   *Fatemeh Shadman-Mehta*
   315

35 The famous Phillips Curve article: a note on its publication
   *Basil S. Yamey*
   335
## Part IV Econometrics

### The Published Papers

Contents

47 Estimation in continuous time series models with autocorrelated disturbances 449
   A.W. Phillips

48 Efficient fitting of rational spectral density functions and transfer functions 451
   A.W. Phillips

Phillips' Foreshadowing of the Lucas Critique

49 The Lucas Critique: did Phillips make a comparable contribution? 460
   Robin Court

50 Models for the control of economic fluctuations 468
   A.W. Phillips

51 Statistical estimation for the purpose of economic regulation 475
   A.W. Phillips

52 The last paper: a foreshadowing of the Lucas Critique? 479
   A.W. Phillips
