*Introduction*  
xix

### PART I

#### I Some Facts and Figures
- Exports: long-term trends  
  page 3
- Commodity and area pattern, 1953-59  
  page 5
- The changing U.K. share: by area  
  page 7
- The changing U.K. share: by commodity groups  
  page 9

#### II British Export Industries: A Comparative Survey
- Using the basic tables  
  page 21
- Textiles and clothing  
  page 22
- Machinery  
  page 25
- Chemicals and allied products  
  page 31
- Iron and steel  
  page 33
- Rubber manufactures  
  page 34
- Conclusions  
  page 36

#### III Direct Investment Overseas
- Direct investment and exports  
  page 44
- U.K. direct investment reviewed  
  page 46
- The Sterling Commonwealth  
  page 49
- Canada  
  page 52
- Direct investment by the U.S.A.  
  page 53
- The yield of direct investment  
  page 55

#### IV Comparative Export Prices
- The problem of comparison  
  page 58
- The U.K. and her competitors  
  page 59
- Price flexibility  
  page 62

#### V Domestic Economic Conditions and Export Performance: The United Kingdom  
page 66
VI Domestic Economic Conditions and Export Performance: Western Germany

Costs and prices 73
Domestic policies 75
Export aids 78

VII Domestic Economic Conditions and Export Performance: Japan

Growth of the economy 85
The pattern of export trade 89
Wages, costs and productivity 91
Export aids 94

VIII Domestic Economic Conditions and Export Performance: Italy

Textiles 100
Engineering products and steel 102
Development of the south 104
Productivity and costs 106

France

The December reforms, 1958 108
Modernisation of the economy 110

PART II

IX Cars and Commercial Vehicles

The broad picture 117
Commonwealth markets and local manufacture 119
The United States market 124
Europe 126
Domestic restrictions and exports 128
Conclusions 135

X Electrical Engineering

Heavy electrical equipment 143
Radio and radio equipment 147
Domestic restrictions and radio exports 150
Refrigerators and other domestic equipment 151
Conclusions 156
